Article 125

a) In general

1) If the original or amended articles of association do not contain the provisions designated as material by law, or if a provision of the articles of association contradicts such provisions, voidability proceedings may be initiated, unless it concerns the form, the lack of a provision on announcement to the members or to third parties, or the minimum number of members.

2) Any member or any other person entitled to vote of a legal person, its administration, or the audit office may, in administrative proceedings, after hearing the governing bodies authorised to represent the legal person and any counsel specially appointed by the Office of Justice, have the Office of Justice impose a reasonable deadline for the competent governing body to remedy the defect, where such deadline may not be less than three months from service and may be extended as necessary, and, if the defect is not remedied by the deadline, bring an action for its dissolution.¹⁴⁵

3) The legal person may through its governing bodies remedy the defect at any time, even during voidability proceedings until a final decision, but if the defect is remedied only after expiry of the time period referred to in the preceding paragraph, the legal person shall pay all costs

Article 126

b) Voidability action

1) A voidability action must be brought against the legal person, which shall be represented by the administration, and if the administration brings the action, then by the audit office, if there is one; but if both the members of the administration and those of the audit office bring an action or, if the latter does not exist and there is no other representative for the legal person, the court shall appoint a counsel for the proceedings in accordance with the code of procedure.¹⁴⁶

2) Several actions shall be joined for simultaneous hearing and decision; the filing of the action and the date of the hearing itself may also, at the discretion of the court, be published in the manner specified in the articles of association for announcements and, if such a provision is missing, in the official publication medium and shall be entered in the Commercial Register *ex officio*.¹⁴⁷

3) The court may, on application by the legal person and on account of the threat of prejudice to the legal person, order the complainant to provide a security to be determined at the complainant's own discretion, to the provision and compensation of which the provisions of the Code of Civil Procedure governing security deposits for the costs of litigation shall apply *mutatis mutandis*.

2) The Office of Justice shall first set a reasonable deadline of at least three months, which may be extended on important grounds, for the legal person to make a written or oral statement and, depending on the circumstances, to remedy the defect, and shall order the entry of the voidability proceedings in the Commercial Register if the legal person is entered there.¹⁴⁹

3) If the defect is not remedied and no statement is made and no voidability action has become final in the meantime, the party reporting the defects and the legal person shall be summoned to a hearing to discuss the defects, and a decision on the dissolution must be taken.

4) The provisions set out for the voidability action shall apply *mutatis mutandis* to the procedure and the decision.

Article 128

Article 129

II. Appropriation of assets

1) If a legal person is abolished, its assets shall, unless the law, the articles of association, or the competent bodies determine otherwise, be transferred to the State, which, as the legal successor, is liable for the liabilities only up to the value of the assets taken over and equal to a *bona fide* owner.

2) The assets shall be used in accordance with the provisions on the tacit trust relationship and as far as possible in accordance with the previous purpose, and this use may be demanded by the parties previously involved in the abolished legal person by way of an administrative procedure.

3) If a legal person is abolished by the court for pursuing immoral or unlawful purposes, the assets shall be transferred to the State for its free disposal after the official liquidation, even if specified otherwise.

2) If assets remain after the end of a legal person's bankruptcy, those assets shall also be liquidated unless a decision is taken to continue the legal person.

3) The procedure for the liquidation of the assets of the legal person shall be governed by the following provisions, unless special provisions have been established for individual legal persons or their applicability is partially excluded, as in the case of associations or foundations not entered in the Commercial Register or in the absence of an obligation to keep books.¹⁵²

4) If it becomes apparent during the liquidation proceedings that the assets do not cover the liabilities to third parties, the liquidators must file a report with the courts for the opening of insolvency proceedings in respect of the assets of the legal person, ceasing their activities.¹⁵³

5) If the application does not come from all liquidators, the court must hear the members of the administration and the other liquidators before opening insolvency proceedings and, if they are not of the same opinion, shall open insolvency proceedings only if it has satisfied itself that the legal person is insolvent or overindebted.¹⁵⁴

6) Unless otherwise provided by law or the articles of association, a legal person may, with the consent of all members, convert itself without liquidation into another legal person or company with a legal name, subject in all cases to the rights of third parties existing prior to the conversion.

Article 131

2. *State of liquidation*

3) The governing bodies of the legal person, with the exception of the administration, whose powers as a governing body are transferred to the liquidation office, shall have the same powers in the state of liquidation as before liquidation, but with the limitation by law to such acts which can be justified by the purpose of liquidation by their nature.

4) Acquisition of membership shall no longer take place, but members shall remain obliged, even during the liquidation, to make payments such as payment of membership shares not fully paid up, additional performances, and the like, which, by virtue of their purpose, appear to be continuously enforceable for the duration and state of the liquidation and insofar as they serve to satisfy the creditors or for adjustment among the members.

3. Liquidators

4) The liquidators shall have the status of a natural person as a debtor in relation to the insolvency administrator.¹⁶⁴

5) The costs of the officially appointed liquidators shall be borne by the legal person.¹⁶⁵

3) In order to supervise the liquidators and accelerate the liquidation process, a creditors' committee may be appointed on the application of creditors on important grounds, where such creditors' committee is appointed by a simple majority of the represented votes in a creditors' meeting convened under the chairmanship of the court and is made available to the liquidators, and which has exclusive authority to assert responsibility against the liquidators.

2) Unless otherwise provided by law or the articles of association, membership shall be indivisible, alienable, and heritable.

3) The transfer of membership and the appointment of a limited right *in rem* shall be effected by written contract, provided that there are no securities concerning membership and the articles of association do not establish any more restrictive provisions, such as in particular a right of first refusal or approval by governing bodies or members.

4) In the event of bankruptcy of a member, the transfer shall require the consent of the receiver in so far as it contains a disposal of the estate.

5) In case of doubt, the distribution of profits shall be in proportion to the financial benefits paid by a member in respect of membership shares.

6) Unless otherwise provided by the law, profit-sharing certificates with or without membership may be issued in the case of legal persons, and the provisions on profit-sharing certificates apply to them if membership is not associated therewith, but otherwise the provisions on bonus shares in public limited companies shall apply *mutatis mutandis*.

7) This article is subject to the appointment of trusteeships with or without the issue of trust certificates for shares in the profit, liquidation proceeds, and the like and the transfer of membership by operation of law.

Article 150

2) If securities are issued in violation of this provision or prior to the acquisition of legal personality, they shall be null and void; the issuers and, insofar as they are at fault, the other parties shall be jointly and severally

liable, without limitation, to the owners for all damage caused by the issue, without prejudice to the obligations and entitlements arising from the joining or from any subscription.

3) The provisions governing shares as securities, in particular those relating to share certificates, shall apply *mutatis mutandis* to other membership securities.

Article 151¹⁹³

3. *Own shares*

1) In the absence of other provisions of the law or the articles of association, a legal person may neither acquire its own shares against payment or as a pledge.

2) This prohibition does not apply:

1. if the acquisition is made for amortisation in accordance with provisions of the law or the articles of association;
2. if it is made in accordance with the provisions of the law and the articles of association for the purpose of partial repayment of the share capital;
3. if it is made to satisfy the legal person's own claims and is necessary to safeguard the interests of the legal person;
4. if the acquisition or the acceptance of the pledge is connected with the operation of a line of business falling within the object of the company in accordance with the articles of association;
5. if it is in conjunction with aggregated assets.

3) The repurchased shares shall be rendered immediately unusable for any further sale in the cases under paragraph 2(1) and (2), and they shall be sold as quickly as possible in the cases under paragraph 2(3) to (5).

4) The own shares in the possession of a legal person shall not be taken into account in the distribution of profits and other benefits arising from membership, also in relation to liquidation shares.

5) The legal person may also not appoint a trustee for the purpose of circumventing the law or the articles of association with regard to the own shares belonging to it.

¹⁹³ Article 151 amended by LGBl. 2000 No. 279.

3) Several members shall appoint a joint representative.

4) If they fail to appoint a representative and to report this to the legal person, declarations of intent may be given to another member and the judge may appoint a joint representative in special non-contentious proceedings.¹⁹⁵

5. Trust certificates

Article 153

a) In general

1) If the articles of association do not provide otherwise, the members with membership shares under property law may appoint an actual trust in accordance with the relevant provisions and accordingly transfer the shares to the trustee for the limited or unrestricted exercise of personal (sovereign) rights arising from membership, in particular voting rights, subject to the rights and duties arising from membership under property law.

2) Unless the deed of trust provides otherwise, the trustee shall deposit the handed over securities with the legal person against delivery of trust certificates, which are transferable in the same way as the securities

¹⁹⁵ Article 152(4) amended by LGBL 2010 No. 454.

concerning membership or in another manner, in favour of the members (settlers).

3) If the articles of association do not prohibit it, trust certificates having the characteristics of securities and relating to claims arising from membership under property law may be issued by a member as trustee or by a specially appointed trustee even if the membership is not linked to a security or is indivisible.

Article 154

b) Form and effect

1) The trust certificate must specify the powers of the trust body from where the benefits under property law arising from membership may be obtained and shall, *mutatis mutandis*, contain the same content as the deposited securities concerning membership, unless there are derogations resulting from the issue of several trust certificates for a single membership or otherwise.

2) The deposited securities shall not be transferable by operation of law as long as trust certificates have been issued for them; if they are issued contrary to this provision, the issuers and, insofar as they are at fault, the other parties involved are jointly and severally liable to the owner for all damage caused.

3) With regard to the obligation to provide benefits to the legal person, the members are in the same position as other members; in the absence of other provisions in the deed of trust, however, only the trustee may assert the rights arising from membership or have them asserted by others.

4) Enforcement of claims arising from membership in the event of compulsory execution against the member or in the event of opening of bankruptcy proceedings in respect of the member's assets, if a trust exists, is permissible only in accordance with the provisions governing the trust.¹⁹⁶

5) This provision is subject to the formation of other trusts.

2) Unless otherwise provided by the law or the articles of association, if a member resigns or is excluded without dissolution of the legal person and is entitled to dissolution, compensation, or the like, this claim shall be determined on the basis of a liquidation balance sheet drawn up for this purpose, with legal reserves being included accordingly on the liabilities side.

3) By law, every member has the right to inspect and copy the articles of association and, where they have been reproduced, to receive a copy against appropriate payment.

IV. Liability and additional performance obligations

Article 156

1. In general

1) Only the legal person's assets are liable for the legal person's obligations, unless otherwise stipulated or permitted by law and in the latter case stipulated by the articles of association.

2) The articles of association may therefore stipulate liability or an additional performance obligation on the part of individual members only if permitted by law, and individual members shall be subject to joint and several liability only where provided for by law or the articles of association.

3) In the absence of any other provision, the assertion thereof shall be in accordance with the provisions on the allocation procedure.

4) If own shares are in the possession of the legal person, the liability and additional performance obligation, but also any subscription rights which, in the absence of any other provision in the articles of association, are based on the provisions established for this purpose at a public liability company, shall be suspended during the period of possession.

2. Allocation procedure

Article 157

a) In general

1) Insofar as it might not be possible to satisfy the insolvency creditors owing to their claims to the assets of the legal person existing at the time of the opening of insolvency proceedings having to be taken into account at the time of the later final distribution in insolvency proceedings, members with liability or an additional performance obligation shall be liable to effect contributions (allocations) to the insolvency estate in order to cover the shortfall pursuant to the insolvency liquidation balance sheet, namely, in the absence of any other provision laid down in the articles of association, in proportion to the sums involved in the liability or the further contributions where limited liability or an additional performance obligation is involved, but otherwise per capita (contributed assets).¹⁹⁷

2) If individual members, including those liable for contributions who are no longer members pursuant to the law or the articles of association, are unable to pay contributions, such as due to insolvency or for other reasons, the contributions shall be distributed among the other members, unless there is a limited liability or limited additional performance obligation.

3) Voluntary payments made by the members in excess of the contributions due under the above provisions shall be reimbursed to them from the contributions in advance after the creditors have been satisfied and may, if necessary, be enforced by calculating additional performances.

4) A member may offset a claim against the legal person against the contributions, provided that the conditions are met under which the member, as an insolvency creditor, can claim satisfaction on account of the claim from the contributions.¹⁹⁸

5) If the allocation procedure applies outside the insolvency proceedings in accordance with individual provisions of this Act, the administration or the liquidators shall take the place of the insolvency administrator with the proviso that the powers and obligations otherwise due to them under the provisions governing the allocation procedure shall cease to apply.¹⁹⁹

b) Calculation of advances

Article 158

aa) In general

1) Immediately after the opening of insolvency proceedings and on the basis of the liquidation balance sheet drawn up, the insolvency administrator shall calculate the contributions to be made by the members in advance to cover the shortfall shown in the balance sheet, taking into account the various liability and additional performance obligations for groups of members, such as mixed cooperative societies.²⁰⁰

2) All members with their name (legal name) and domicile (registered office) and the contributions attributable to them must be stated in the calculation, and the amount of the contributions must be calculated in such a way that any foreseeable inability of individual members to make a contribution, irrespective of whether such inability has been determined by a court or not, does not result in a default in regard to the total amount to be covered.

Article 159

bb) Writ of execution

1) At the request of the insolvency administrator, the calculation shall be declared enforceable by execution by the Court of Justice in special non-contentious proceedings by means of a decision which may only be challenged by way of legal action.²⁰¹

2) For this purpose, the court shall immediately order a hearing (court date) to be made public in the official journal in order to explain the calculation to the parties, to which it shall summon the members quoted in the calculation or their legal successors, the members of the administration or the liquidation office, any audit office, the insolvency administrator and, if a creditors' committee or the like has been appointed by the Court of Justice, also these members, and in which they shall be heard briefly without actual evidentiary proceedings.²⁰²

3) In the public announcement and in the summonses, it shall be indicated that the calculation is available for inspection at the court registry one week before the hearing.

²⁰⁰ Article 158(1) amended by LGBl. 2020 No. 369.

²⁰¹ Article 159(1) amended by LGBl. 2020 No. 369.

²⁰² Article 159(2) amended by LGBl. 2020 No. 369.

5) The decision shall be announced at the same hearing or at a hearing specially ordered in accordance with the second paragraph, to which the parties to the first hearing may be summoned orally, and at the same time it shall be declared that the calculation, along with the decision declared enforceable by execution, which shall not be served, is available for inspection by the parties at the court registry.

Article 160

cc) Execution

1) After the calculation has been declared enforceable by execution, the insolvency administrator must collect the contributions from the members without delay.²⁰³

2) Compulsory execution against a member shall take place in accordance with the provisions applicable to the member on the basis of an enforceable copy of the decision to be served on the member, together with a statement of the calculation showing at least the total shortfall, the name (legal name) of the member, and the amount attributable to the member.

3) Legal remedies, such as legal action, complaints and the like, against an execution deed, to which the member as a debtor in the execution proceedings is entitled, shall remain.

4) Contributions collected must be deposited or invested at the Landesbank or another institution or body designated by the insolvency administrator or the creditors' committee.²⁰⁴

Article 161

dd) Action for rescission

1) Any member or member's legal successor may challenge the calculation declared enforceable by execution and the decision by way of an action against the insolvency administrator by filing an application to

²⁰⁴ Article 160(4) amended by LGBl. 2020 No. 369.

rescind the calculation of contributions and the decision enforceable against the member or member's legal successor, for example because the person is not or no longer a member, because the calculation does not comply with the provisions under law or the articles of association, because the balance sheet is incorrect, or because not contributions but other payments are demanded, and the like.²⁰⁵

2) The challenge shall take place only within the peremptory period of one month since the judgment was announced and only to the extent that the plaintiff asserted the ground for the challenge at the hearing on the writ of execution or was unable to assert it through no fault of the plaintiff's, for example, if the ground arose only after the hearing or due to ignorance of the law.

3) The oral hearing in the proceedings to rescind shall not take place before the end of the peremptory period, and several proceedings to rescind shall be combined for simultaneous hearing and decision.

4) During the legal dispute, the court may, upon application and against any security to which the provisions on securing the costs of litigation shall apply *mutatis mutandis*, suspend compulsory execution or order the repeal of enforcement measures.

5) The final judgment shall be effective for and against all members liable to pay contributions, irrespective of whether or not they acted as intervening parties in the proceedings.

6) Upon expiry of the one-month peremptory period without action being instituted, the membership of the members listed in the inventory of members shall be legally binding for the allocation procedure.

Article 162

ee) Supplementary calculation

1) If the total amount to be covered is not reached due to the inability of individual members to pay contributions, or if the calculation has to be changed in accordance with the judgments following an action for rescission or for other reasons, the insolvency administrator may prepare a supplementary calculation.²⁰⁶

2) The supplementary calculation shall be drawn up repeatedly if necessary.

²⁰⁵ Article 161(1) amended by LGBL 2020 No. 369.

Article 163

c) Calculation of additional performances

1) As soon as the final distribution in accordance with the provisions of the Insolvency Act is commenced, the insolvency administrator shall determine how much the members still have to pay under the applicable provisions in terms of contributions, including the costs of the insolvency and allocation proceedings, in addition to and correcting the advance calculation and the calculations supplementing that calculation, unless the members have already been obligated up to the limit of their liability or additional performance obligation in proceedings concerning advance payments.²⁰⁷

2) The last paragraph of the preceding article shall apply to this calculation of additional performances, with the proviso that contributions are not allocated to members whose inability to pay contributions becomes evident.

3) Apart from enforcement of claims otherwise, rights of recourse by virtue of membership arising from liability or the additional performance obligation may also be asserted by means of the calculation of additional performances.

Article 164

d) Distribution of the contributed assets

1) The insolvency administrator shall, after the calculation of any additional performances required has been declared enforceable by execution, or otherwise after calculation of the advance, immediately distribute among the creditors the existing balance of contributions and, whenever a sufficient balance of the outstanding contributions has been received, by means of supplementary distribution in accordance with the provisions of the Insolvency Act.²⁰⁸

²⁰⁷ Article 163(1) amended by LGBI. 2020 No. 369.

3) The insolvency creditor shall be free to remedy the objection of the administration or the liquidators within one month from the contestation of the action against the legal person and with effect for the contributed assets; however, if the objection has been declared justified in a final ruling, the shares shall be released for distribution among the other creditors of the additionally contributed assets.²¹⁰

4) Creditors not involved in the action and the insolvency administrator may intervene in a dispute concerning the objection.²¹¹

5) Any surpluses not required to satisfy the creditors, unless voluntary payments by members or third parties are to be reimbursed in advance, shall be repaid to the members by the insolvency administrator in proportion to the amount of the contributions paid.²¹²

1) Unless ordered otherwise, default in performance in kind resulting from membership, such as non-cash contributions or other non-cash ancillary performances, shall be governed in general by the provisions of the law of obligations on the consequences of default, and liability shall be borne only by the person who has undertaken to render such a performance.

2) For the contribution in kind that is attributable to the share capital or own assets, the legal person may, after it arises from the warranty, claim a right of reduction and compensation for defects under the principles of the contract of sale, but not conversion, and if the contribution is completely worthless, performance of the payment in cash.²¹³

3) The form in which the supreme body is convened, whether orally, in writing, or by public announcement, may be specified in further detail by the articles of association, unless otherwise provided by the law, and this shall specify the place, time, and purpose of the meeting, and in particular in the case of intended amendments to the articles of association, its essential content; however, unless otherwise provided by law or the articles of association, each general meeting shall be announced in the Liechtenstein national newspapers at least one week before it is held.²¹⁵

2) The notary shall attend the passing of the resolution in person and shall take minutes stating the place and time of the general meeting and shall briefly and precisely list the resolutions passed, as well as all events that occurred in the notary's presence at the general meeting and statements made which are of significance for the assessment of the regularity of the procedure.

3) The minutes shall be signed by the chair of the general meeting and a person designated as the minutes taker.

2) If the resolution concerns a measure the execution of which would make the members of the administration or the audit office liable to prosecution or liable to the creditors or members of the legal person, any member of the administration and the audit office may by law challenge it or refuse its execution.²³⁰

3) Furthermore, in the case of legal persons with members and subject to the provisions on vested rights, the representatives of at least one twentieth of all votes, but at least three votes, and if there are fewer than ten votes or members, each vote or each member, may by law contest a resolution to which they have not agreed and seek its rescission; the judge may, by analogy with the provisions of the Code of Civil Procedure on the provision of a security for the costs of litigation, impose on them a security, and if such security is not made, the right of challenge shall lapse.

4) Similarly, if individual persons eligible to vote were not convened for the general meeting in accordance with the law or the articles of association or their participation at the general meeting or vote was otherwise made impossible or unreasonably difficult, and as a result they did not participate in the meeting or the vote, or if, in the case of a circular resolution, persons entitled to vote voted against it or were passed over, or

5) The court may postpone the execution of the contested provision by way of a mandatory injunction procedure if an irreversible prejudice threatening the legal person is credibly demonstrated.

Article 179

b) Enforcement, liability for damages, etc.

1) The right of challenge of those entitled to vote shall expire if they do not, within one month after the resolution has been passed, announce their intention to the administration to institute legal action or, if the articles of association provide for a special rescission procedure, announce this immediately after exhaustion of the appeal process, and then bring the action before the judge within one further month after the resolution has been passed.

2) If the contested resolution is entered in the Commercial Register, the judgment shall be entered in the Commercial Register at the request of the contesting parties and published by the register authority, amending the previous entry, insofar as the latter step is necessary.²³¹

3) The voidability judgment shall be effective for and against all persons entitled to vote of a legal person.

4) The plaintiffs who acted negligently by bringing the action shall be jointly and severally liable to the legal person, without limitation, for any damage caused by unfounded challenge of the resolution of the legal person, in accordance with the provisions on torts.

5) The provisions on voidability actions shall apply *mutatis mutandis* to the action for rescission.

6) Resolutions may also be repealed *ex officio* by the Office of Justice in accordance with the *ex officio* provisions set out in the case of voidability.²³²

Article 243e³⁸⁶*Assets and capital*

1) The assets of the protected cell company shall be made up of the core assets of the legal person and the assets of the individual cells (cell assets). The core assets shall be understood as the assets that are not assigned to the individual cells.

2) The provisions on minimum capital shall apply to the protected cell company with regard to its core assets. Moreover, each cell shall have at its disposal a legal reserve equivalent to the minimum capital of the protected cell company.

3) This legal reserve may be used only to cover losses or for measures that are likely to sustain the company during times when the course of business is poor. As soon as half of the legal reserve referred to in paragraph 2 is no longer covered, the administration shall inform all known creditors, whose claims are limited to the relevant cell, of this circumstance, unless precisely those creditors rescind their rank relative to all other creditors to the extent of the shortfall at going concern values and defer their claims, or if there is a concrete prospect that the shortfall will be remedied within two months from when it was noted.

4) The assets of the individual cells must be clearly identifiable and shall be kept separate from one another and from the core assets. The administration may apply to a judge in special non-contentious proceedings for transfers of assets between cells, provided there are material grounds that so warrant.

The shareholders shall, however, be entitled only to the assets of the cells in which they have a holding. The provisions concerning preference shares shall apply *mutatis mutandis* to the issue of separate shares in respect of individual cells. The articles of association must contain relevant provisions concerning the issue of separate shares in respect of individual cells and the rights associated therewith.

Article 243f³⁸⁷

Relationship with third parties and liability

1) Upon entering into contractual negotiations, a protected cell company shall inform in writing third parties with which it comes into contact in the course of its transactions of its status as a protected cell company. When doing so, the contracting party must be informed of the cell with whose assets the protected cell company is liable for the legal relationship in question, at penalty of personal but subordinated liability of the culpable body. If the core assets are liable, this shall also be indicated accordingly.

2) Contractual claims of third parties against the protected cell company shall be confined to the assets of the cell in the area of activity on which the claim is based. If the assets are insufficient to satisfy the claim, the core assets shall be liable on a subordinated basis.

3) Non-contractual third party claims shall be limited to the core assets. If the core assets are insufficient to satisfy the claim, the assets of the cell in the area of activity in which the protected cell company has caused the claim shall be liable on a subordinated basis. The administration shall give any entitled claimants the information required to enforce the claim. If the administration does not meet this obligation, it may upon application be requested by the court to present all the documents required for the enforcement of the claim, in addition to the necessary information.

4) Bankruptcy may be conducted in respect of the assets of any of the individual cells in accordance with the provisions of the Insolvency Act.³⁸⁸

³⁸⁷ Article 243f inserted by LGBl. 2014 No. 362.

The judge shall decide on the segregation and transfer to another protected cell company or any beneficiaries, taking all circumstances into consideration.

2) In the case of registered shares, the more detailed provisions of the articles of association governing transfer and, in the case of ancillary performance shares, the ancillary performances shall be included in the share certificate.

3) Where the exercise of voting rights and the like requires the shares to be deposited, in case of doubt it shall suffice if the share certificate proper is deposited, unless the articles of association expressly provide otherwise, such as presentation of the main certificate together with the coupon, or participation in the general meeting is permitted only to the holders of the coupons covering the past financial year.

4) With regard to cancellation, the provisions applicable to bearer, order, or registered securities shall apply, depending on the type of shares, unless the articles of association provide otherwise; the person who effected the cancellation may, unless otherwise provided in the articles of association, demand the issue of a new certificate at that person's own expense.

2) As long as they are attached to the share certificate proper, the coupons form part of it and share its legal fate; after they are separated, however, or if they are issued independently, they shall be deemed independent securities and, in case of doubt, shall be subject to the provisions on bearer securities, in particular with regard to cancellation.

3) With the expiry of the share, such as by drawing, mandatory redemption, withdrawal, and the like, the right arising from the coupon also expires, even if it is independent, provided that at the time of the expiry the distribution of a dividend has not yet been decided.

4) An independent coupon may be cancelled independently of the share, a coupon attached to the share only together with it.

Article 271

bb) Legal status of the coupon

1) The coupon of the individual share has the same legal status with regard to dividend subscription rights as the individual share itself, so that the coupon of the preference share has priority over the coupon of the ordinary share, and the coupon of the ordinary share has priority over that of the profit-sharing certificate or bonus share, unless the articles of association provide otherwise.

2) In the absence of any provisions to the contrary in the articles of association, such as the existence of profit-sharing certificates, the right to advance or subsequent dividend payment and the final dividend payment shall be determined by the legal status of the share and, subject to other provisions of the articles of association, only the shareholder shall have the right to contest a dividend resolution of the competent body.

Article 273

b) Registered shares, transfer, and payment

1) The workers' shares are registered and, as long as the shareholder is an employee or worker of the company, may not be transferred at all, and subsequently only with the approval of the administration.

2) This transfer authorisation may not be refused if the acquirer of the shares pays the amount not paid up at the time of the transfer.

3) An obligation to pay in these shares exists only to the extent that the owner must credit the participation in the net profit of the company due to that owner in accordance with the articles of association, as well as the dividends attributable to the paid-up share amounts themselves, until the nominal value (the quota) of the workers' share has been paid up in full.

⁴²⁹ Article 272(1) amended by LGBI. 2013 No. 6.

Article 274

c) Entry in the Commercial Register, voting, and exchange

- 2) The shareholder's right to vote commences at that time.
- 3) With each additional 25% payment, a new entry must be made in the Commercial Register.⁴³¹
- 4) After the workers' share is fully paid up, it will be converted into an ordinary capital share of the same nominal value (quota) and with the characteristics of the shares issued by the company at that time or in the future with the best entitlement.

Article 275

d) Dividend right

- 1) During the existence of the workers' share, the workers' share is entitled to dividends at the same rate as the capital shares with the best entitlement issued by the company, depending on the paid-up amount of the worker's share.

Article 276

e) Workers' shares in connection with a workers' cooperative society

- 2) In case of doubt, the issued shares shall be in the joint ownership of this cooperative society.

2) The share capital shall increase without further action at the time and to the extent that these conversion or option rights are exercised and the contribution obligations are fulfilled by offsetting or payment.

1) Apart from the fixed share amount, the articles of association may, but without inclusion in the share capital and without consideration in the balance sheet, impose on a shareholder the obligation to render one-off or recurring monetary or other performances, including omissions, or limited additional performance obligations or limited liability, where such liability may be joint and several if so stipulated in the articles of association, up to twice the nominal value of the shares, in accordance with the relevant provisions for the cooperative society; the liability or additional performance obligation is asserted by way of an allocation procedure.

2) In the case of such companies, only registered shares may be issued which are transferable with the consent of the company, insofar as they relate to shares to which ancillary performances are attached.

3) The obligation and the scope of performance must be evident from the shares or interim certificates; an amendment to the articles of association, as a result of which such obligations are newly established or

⁶⁴⁵ Article 317(2) amended by LGBl. 2000 No. 279.

existing ones are extended, is permissible only with the consent of all shareholders affected by the amendment.

4) In the event that this obligation to make other than monetary payments is not or not properly fulfilled or that a shareholder wishes to waive shares even after they have been fully paid up, the articles of association must define contractual penalties; in all other respects, each shareholder is entitled to the right to surrender shares after they have been fully paid up, unless a limited liability exists, in the same way as a member of a company limited by units.

5) The company may refuse to approve the transfer of the shares only on important grounds. Under these conditions, the transfer may be approved by the judge in special non-contentious proceedings if approval is refused.⁶⁴⁶

6) The obligation to render individual performances of this kind shall be subject to a period of limitation of three years after they become due.

Article 319

2) In all cases, the administration also has the right to declare forfeit the defaulting shareholder's rights arising from the subscription of the shares and the partial payments made and to issue new shares in lieu of the defaulted shares.

3) The articles of association may also oblige a shareholder to pay a contractual penalty in the event of default.

4) This article is also subject to the provisions on ancillary performance shares, according to which the declaration of forfeit may also be made due to default in regard to ancillary performances, in the absence of other provisions set out in the articles of association.

Article 321

b) Request for performance

1) A shareholder may be subject to a contractual penalty and forfeit of rights arising from shares and the subscription only if the request for the contribution has been published at least twice in the relevant publications, the last time at least two weeks before the closing date to be set for the payments, or if it has been notified to the shareholder by registered letter by the same deadline.

2) If the shares are registered shares, the public notice shall in all cases be replaced by a special one-time notification by registered letter to the individual shareholders entered in the share register at least four weeks prior to the closing date for the payments.

3) The defaulting shareholder is liable to the company for the amount not covered by the issue of the new share, to the extent the shareholder is under a personal obligation.

VI. Legal relationship of shareholders

Article 322

2) Until such securities are issued, the legal relationship between the subscriber and any successors of the subscriber and the company is

governed by the general provisions of the law of obligations, in particular the provisions on the assignment of claims and the assumption of debt.

3) The extent to which a transfer of the legal relationship can take place by means of transfer of custody receipts for deposited registered shares, blocked shares, and interim certificates must be assessed on a case-by-case basis.

4) Before the stock exchange listing and one year after the end of a stock exchange listing of a company, the provisions governing registered shares apply *mutatis mutandis* to bearer shares.⁶⁴⁷

2) In the absence of such a specification in the articles of association, bearer shares may not be issued until the full nominal value has been paid up.

3) Previously issued bearer shares are null and void, and until such payment the subscribers and shareholders remain under the provisions on shareholders in general.

4) Bearer shares are transferable to the bearer as securities.

Article 324

b) Liability of the subscriber

⁶⁴⁷ Article 322(4) inserted by LGBl. 2013 No. 67.

as the latter fails to meet the payment obligation despite due request by the administration, and the share is consequently declared forfeit.

2) If a discharge of the subscriber for further payments in excess of the amount specified in the articles of association or the law is not provided for, or if the insolvency proceedings are opened in respect of the company's assets within the period of one year from its entry in the Commercial Register, the subscriber may be required to make further payments, even if the subscriber no longer has the share.⁶⁴⁸

Article 325

c) Liability of the bearer

1) After the bearer share has been issued, the current bearer who is not a subscriber is not personally liable for further payments unless otherwise agreed, and instead only to the extent that, in the event that a payment due is not made, the right of the bearer arising from the share may be declared forfeit in accordance with the provisions on the consequences of default in the event of late payment.

2) This limitation of liability is not effective, however, if insolvency proceedings are opened in respect of the company's assets within one year of its entry in the Commercial Register and the bearer has not made the payment and the bearer's right arising from the share has therefore been declared forfeit.⁶⁴⁹

3) If interim certificates that can only be issued in registered form have been issued for bearer shares, they shall be subject to the provisions governing registered shares.

Article 326

d) Recourse of the subscriber

1) The subscriber, who is called upon by the company to make payments on a sold share, has recourse by law against the current shareholder or subsequent bearer of the share.

- 2) A prohibition of resignation in the articles of association or excessively high requirements on resignation set out in the articles of association or by contract shall be invalid.

- 4) The claim for payment of a redemption sum shall expire after three years from the date of resignation.

Article 440

b) For cooperative societies with permanent investments and contracts

1) Cooperative societies which acquire or establish longer-term assets (real property, buildings, machinery, inventories, and the like) or enter into longer-term supply or purchase contracts may stipulate in the articles of association that the resigning person must pay a redemption sum in proportion to the disadvantage suffered by the cooperative society as a result of the resignation due to insufficient use of such facilities or performance of contracts.

2) The last paragraph of the preceding article shall apply *mutatis mutandis*.

Article 441

2) If the articles of association do not contain any such provisions, the expulsion may be effected only by resolution of the general meeting on important grounds which are subject to judicial review in the event of an action by the excluded persons against the cooperative society.

3) If the important grounds lie in the continued behaviour of the person to be excluded that is contrary to the articles of association or otherwise malicious, that person shall be liable for the damage caused to the purpose and business operations of the cooperative society.

4) The member of a cooperative society may not, from the time of notification of exclusion, serve as a member of the administration or of any other governing body and shall be excluded from the exercise of voting rights in the supreme body.

2) Termination by a creditor must be accompanied by a certified copy of the debt instrument and of the documents relating to the unsuccessful compulsory execution, while the insolvency administrator may terminate without formal requirements.

3) If freely transferable share certificates have been issued by a cooperative society, the creditor or the insolvency administrator shall have a right of termination only if the articles of association authorise it, otherwise compulsory execution of the share certificate may be effected.

Article 445

4. Death or lapse of member

1) Where not otherwise provided in the articles of association, membership shall expire upon the death of the member of a cooperative society and, if the member is an entity with a legal name or a legal person, upon its dissolution, unless acquisition and loss of membership are connected with the rights to the share certificates.

2) The articles of association may, however, provide that the legal or appointed heirs or one of several heirs shall be recognised as members in place of the deceased member upon mere notification of the succession.

3) The articles of association may also provide that the heirs must assume all the rights and duties of the deceased member of the cooperative society; heirs who wish to withdraw from the obligations imposed on them by the articles of association must be treated in the same way as those who leave the cooperative society.

⁹⁹⁶ Article 444 amended by LGBl. 2020 No. 369.

4) If several heirs join the cooperative society, the community of heirs must designate one representative.

5) The designation of a successor among several heirs shall be made either by disposition *mortis causa* or by the division agreement of the heirs and, if this is omitted for any reason, shall be designated by the judge in special non-contentious proceedings at the request of one of the heirs or the cooperative society; however, declarations of the cooperative society may be made with legal effect to one of the heirs until a common representative has been appointed and notified to the cooperative society.⁹⁹⁷

6) The above provisions shall apply *mutatis mutandis* to entities with legal names and legal persons as members of the cooperative society, provided that on their dissolution their assets and liabilities are transferred to another; in other cases, the articles of association shall lay down the necessary provisions and, in the absence thereof, the judge shall, on application by the parties and after hearing the administration, order the necessary measures in special non-contentious proceedings.⁹⁹⁸

2) If this is not the case, the acquirer shall become a member only by means of an admission resolution in accordance with the law and the articles of association, and the personal membership rights shall remain with the transferor until the final decision has been made.

3) The articles of association may also require the member to transfer membership to the acquirer or transferee in the event of sale of the land or transfer of the economic operation.

4) The articles of association may also expressly stipulate that membership is assigned to the acquirer or transferee without the need for any further agreement, but in order to be effective in relation to third parties, this provision must be noted in the Land Register sheets of all the plots of land concerned or, in the case of entities with legal names as members, in the Commercial Register entry of the legal name in question, subject to the right of action relating to already existing encumbrances in accordance with the Property Act.¹⁰⁰³

5) In lieu of this, the obligation to provide cooperative performances may also be entered in the Land Register as a land charge.

2) Unless otherwise provided in the articles of association or in the resolution of the cooperative society, they shall have the right and the obligation to use cooperative facilities under the same conditions as those applicable to members and, in accordance with this use, they must also receive their share of the surplus in the cooperative undertaking in the same way as the members themselves.

3) The repayment may in all cases be set off against any redemption sum paid and, to the extent this is not the case and the payment would result in considerable damage to the cooperative society or even jeopardise its continued existence, it may be postponed for up to one year.

Article 455

1) If nothing is specified in the articles of association regarding the claims of a member leaving the cooperative society or the heirs of a deceased member or the universal successors of dissolved undertakings or legal persons as members to the cooperative assets, no compensation may be claimed.

3. whether and in what way the beneficiaries are entitled to participate in the organisation (supreme body, administration, audit).¹¹⁰⁶

Section 2

Foundations¹¹¹⁵

Article 552¹¹¹⁶

The following rules apply to foundations:

A. In general

I. Definition and purpose

§ 1

1. Description and delimitation

1) A foundation as referred to in this section consists in legally and economically independent special-purpose assets which are formed as a legal person through the unilateral declaration of intent of the founder. The founder allocates the specifically designated foundation assets, stipulates the purpose of the foundation, which must be entirely non-self-serving and specifically designated, and also stipulates the beneficiaries.

2) A foundation may conduct business in a commercial manner only if it directly serves the achievement of its public-benefit purpose or if permitted on the basis of special laws. To the extent required by proper investment and management of the foundation assets, the setting-up of a commercial operation is permissible also for private-benefit foundations.

3) If a case is not covered by the first sentence of paragraph 2, the foundation may also not be a shareholder with unlimited liability of a community under the law of persons operating a business in a commercial manner.

¹¹¹⁵ Title preceding Article 552 amended by LGBL 2008 No. 220.

¹¹¹⁶ Article 552 including the newly inserted §§ 1 to 41 amended by LGBL 2008 No. 220.

§ 2

2. Foundation purposes

1) Possible foundation purposes are public-benefit purposes or private-benefit purposes.

2) A public-benefit foundation as referred to in this section is a foundation whose activity according to the declaration of foundation is entirely or predominantly intended to serve public-benefit purposes in accordance with Article 107(4a), unless it is a family foundation.

3) A private-benefit foundation as referred to in this section is a foundation which according to the declaration of foundation is entirely or predominantly intended to serve private or self-benefiting purposes. Predominance shall be assessed according to the relationship between services provided to serve private-benefit purposes and those serving public-benefit purposes. If it is not certain that at any given time the foundation is entirely or predominantly intended to serve private-benefit purposes, it shall be treated as a public-benefit foundation.

4) The following foundations in particular come into question as private-benefit foundations:

1. pure family foundations; these are foundations whose assets serve solely to meet the costs of upbringing or education, the endowment or support of members of one or more families, or similar family interests;
2. mixed family foundations; these are foundations which predominantly pursue the purpose of a pure family foundation, but which on a supplemental basis also serve public-benefit or other private-benefit purposes.

II. Foundation participants

§ 3

1. Definition

The following shall be deemed participants in the foundation:

1. the founder;
2. the entitled beneficiaries;
3. the prospective beneficiaries;
4. the discretionary beneficiaries;

5. the ultimate beneficiaries;
6. the governing bodies of the foundation pursuant to §§ 11, 24, 27, and 28 as well as the members of those governing bodies.

§ 4

2. Founders

1) One or more natural or legal persons may serve as founders. A foundation formed by way of last will and testament may have only one founder.

2) If a foundation has more than one founder, the rights to which the founder is entitled or which are reserved to the founder may be exercised by all founders only jointly, unless the declaration of foundation provides otherwise. If one of the founders is no longer available, then, in case of doubt, the rights mentioned above shall expire.

3) If the foundation is formed by an indirect representative, the principal shall be deemed to be the founder. If the latter likewise acts as indirect representative for a third party, the latter's principal shall be deemed to be the founder. In any event, the indirect representative is obliged to notify the foundation council of the identity of the founder.

§ 5

3. Beneficiaries

1) The beneficiary is deemed to be the natural or legal person which, with or without consideration, in fact, unconditionally or subject to certain prerequisites or conditions, for a limited or unlimited period, with or without restrictions, with or without the possibility of revocation, at any time during the legal existence of the foundation or on its termination, derives or may derive an economic benefit from the foundation (beneficial interest).

2) Beneficiaries as referred to in paragraph 1 are:

1. the entitled beneficiaries (§ 6(1));
2. the prospective beneficiaries (§ 6(2));
3. the discretionary beneficiaries (§ 7); and
4. the ultimate beneficiaries (§ 8).

§ 6

4. Beneficiaries with a legal entitlement

1) An entitled beneficiary is a beneficiary who, on the basis of the foundation deed, the supplementary foundation deed, or the regulations, has a legal entitlement to a specified or specifiable benefit, also in terms of the amount, from the foundation assets or foundation income.

2) A prospective beneficiary is a beneficiary who, after the occurrence of a condition precedent or at a specified time, in particular after a prior-ranking beneficiary is no longer available, on the basis of the foundation deed, the supplementary foundation deed, or a regulation, has a legal entitlement to become an entitled beneficiary.

§ 7

5. Discretionary beneficiaries (beneficiaries without a legal entitlement)

1) A discretionary beneficiary is a beneficiary who belongs to the group of beneficiaries specified by the founder and whose possible beneficial interest is placed within the discretion of the foundation council or another body appointed for this purpose. A person who is only prospective with regard to such a future beneficial interest shall not be deemed a discretionary beneficiary.

2) A legal entitlement by the discretionary beneficiary to a specific benefit from the foundation assets or foundation income shall in any event not arise until there is a valid resolution by the foundation council or other governing body competent for that purpose (§ 28) on an actual disbursement to the relevant discretionary beneficiaries, and such entitlement shall expire on receipt of such disbursement.

§ 8

6. Ultimate beneficiaries

1) An ultimate beneficiary is the beneficiary who, in accordance with the foundation deed or supplementary foundation deed, is intended to receive the remaining assets following the liquidation of the foundation.

2) If no ultimate beneficiary is designated or if no ultimate beneficiary is available, the remaining assets following the liquidation of the foundation shall pass to the State.

3) If there is no specification of the appropriation of assets in the event of revocation pursuant to § 30(1), the founder shall be deemed the ultimate beneficiary, irrespective of whether the founder previously had the status of a beneficiary.

III. Rights of the beneficiaries to information and disclosure

§ 9

1. In general

1) Insofar as the beneficiary's rights are concerned, the beneficiary is entitled to inspect the foundation deed, the supplementary foundation deed, and any regulations.

2) Moreover, insofar as the beneficiary's rights are concerned, the beneficiary is entitled to the disclosure of information, reporting, and accounting. For this purpose, the beneficiary has the right to inspect the account books and business papers and to produce copies, and also to examine and investigate all facts and circumstances, in particular the accounting, personally or through a representative. However, this right may not be exercised with dishonest intent, in an abusive manner, or in a manner in conflict with the interests of the foundation or other beneficiaries. On an exceptional basis, the right may also be denied on important grounds to protect the beneficiary.

3) The ultimate beneficiary shall not be entitled to these rights until after the dissolution of the foundation.

4) The rights of the beneficiary shall be asserted in special non-contentious proceedings.¹¹¹⁷

5) This article is subject to the exceptions set out in §§ 10 to 12.

§ 10

2. Founder's right of revocation

1) If, in the declaration of foundation, the founder has reserved the right to revoke the foundation (§ 30) and if the founder is the ultimate beneficiary, the beneficiary shall not be entitled to the rights referred to in § 9.

¹¹¹⁷ Article 552 § 9(4) amended by LGBL 2010 No. 454.

2) If the foundation has been formed by more than one beneficiary, these rights may be exercised by each individual founder who has reserved the right of revocation.

§ 11

3. Setting up a controlling body

1) If, in the declaration of foundation, the founder has set up a controlling body for the foundation, the beneficiary may demand disclosure of information only concerning the purpose and organisation of the foundation, and concerning the beneficiary's own rights vis-à-vis the foundation, and may verify the accuracy of this information by inspecting the foundation deed, the supplementary foundation deed, and the regulations.

2) The following may be set up as a controlling body:

1. an audit office, to which § 27 shall apply *mutatis mutandis*;
2. one or more natural persons specified by name by the founder, who have sufficient specialist knowledge in the sphere of law and business economics to be able to perform their duties; or
3. the founder.

3) The controlling body must be independent of the foundation. § 27(2) shall apply *mutatis mutandis*.

4) The controlling body is required to audit once a year whether the foundation assets are being managed and appropriated in accordance with their purposes. The controlling body shall submit a report to the foundation council on the outcome of this audit. If there is no reason for qualifications, it shall be sufficient to provide confirmation that the foundation assets have been managed and appropriated in accordance with the purpose of the foundation and in conformity with the provisions of the law and the foundation documents. If this is not the case, or if in the performance of its duties the controlling body ascertains circumstances which jeopardise the foundation or its assets, it shall report to the beneficiaries, to the extent they are known to the controlling body, as well as to the court. The court shall if necessary take action in accordance with § 35.

5) If a controlling body has been set up, the beneficiary may demand from the foundation and the controlling body that the reports referred to in paragraph 4 be transmitted.

6) If the beneficiary asserts rights under § 9, it shall be the foundation's responsibility to prove that a controlling body exists which satisfies the requirements of paragraphs 2 and 3.

§ 12

4. Supervised foundations

The beneficiary shall not be entitled to the rights pursuant to § 9 if the foundation is supervised by the Foundation Supervisory Authority (§ 29).

§ 13

IV. Foundation assets

1) The minimum capital of the foundation shall be 30 000 Swiss francs. The minimum capital may also be contributed in euros or US dollars and shall then amount to 30 000 euros or 30 000 US dollars.

2) If there is an additional transfer of assets to the foundation by the founder after its legally valid formation, this shall be treated as a subsequent endowment.

3) If there is a transfer of assets to the foundation by a third party, this shall be treated as a donation. The donor shall not thereby acquire the status of a founder.

4) If the foundation does not become effective until the death of the founder or after the termination of a legal person, with regard to the contributions of the founder it shall be deemed to have come into existence before the founder's death or before the termination of the legal person.

B. Formation and coming into existence

3) In the case of direct representation, the representative shall require a special power of attorney from the founder for this transaction.

4) Public-benefit foundations and private-benefit foundations conducting business in a commercial manner on the basis of a special law shall be entered in the Commercial Register and shall thereby acquire the right of legal personality.¹¹¹⁸

§ 18

3. Regulations

For the further elaboration of the foundation deed or the supplementary foundation deed, the founder, the foundation council, or another governing body of the foundation may provide internal arrangements in the form of regulations (§ 16(2)(2)) if the right to do so has been reserved in the foundation deed. 2) The heirs likewise shall have no right of revocation if the founder, in the case of a foundation *inter vivos*, drew up the foundation deed but died prior to the entry in the Commercial Register.

D. Organisation

I. Foundation council

§ 24

1) The foundation council shall manage the business of the foundation and represent it. It is responsible for the fulfilment of the purpose of the foundation, in compliance with the provisions in the foundation documents.

2) The foundation council shall be composed of at least two members. Legal persons may be members of the foundation council.

3) Unless otherwise provided in the foundation deed, the appointment of the foundation council shall be effective for a term of office of three years; reappointment shall be permissible, and the members may perform their activity with or without remuneration.

4) The provisions drawn up for the members of the foundation council shall also apply to any deputies.

5) The members of the foundation council shall sign in such manner that they append their signature to the name of the foundation.

6) If members of the foundation council serve without remuneration, liability for minor negligence may be excluded in the declaration of foundation, unless the creditors of the foundation are injured thereby.

2. Special obligations

§ 25

a) Asset management

1) Taking account of the founder's intent, the foundation council shall manage the foundation assets in accordance with the purpose of the foundation and the principles of good management.

2) The founder may lay down specific and binding management criteria in the foundation deed, the supplementary foundation deed, or a regulation.

§ 26

b) Accounting

Foundations conducting business in a commercial manner shall be subject to the general rules on accounting. In the case of all other foundations, the foundation council shall, in respect of the management and appropriation of the foundation assets and taking into account the principles of orderly bookkeeping, maintain records appropriate to the financial circumstances of the foundation and keep supporting documents that allow the course of business and the development of the foundation assets to be traced. Moreover, the foundation council shall maintain a schedule of assets showing the asset position and the asset investments. Article 1059 shall apply *mutatis mutandis*.

§ 27

II. Audit office

1) For each foundation supervised by the Foundation Supervisory Authority pursuant to § 29, the court shall in special non-contentious proceedings appoint an audit office in accordance with Article 191a(1). The Foundation Supervisory Authority shall have the standing of a party in these proceedings.¹¹³⁴

2) The audit office must be independent of the foundation. The audit office is required to notify the court and the Foundation Supervisory Authority of reasons which rule out its independence. The Foundation Supervisory Authority may demand from the audit office the certifications and evidence necessary to assess its independence. The following persons in particular shall be excluded as an audit office:

1. members of another governing body of the foundation;
2. persons with an employment relationship with the foundation;
3. persons who are close relatives of members of governing bodies of the foundation; or
4. beneficiaries of the foundation.

4) As a governing body of the foundation, the audit office is required to audit once a year whether the foundation assets are being managed and appropriated in accordance with their purposes. The audit office shall submit a report to the foundation council and the Foundation Supervisory Authority on the outcome of this audit. If there is no reason for qualifications, it shall be sufficient to provide confirmation that the foundation assets have been managed and appropriated in accordance with the purpose of the foundation and in conformity with the provisions of the law and the foundation documents. If while performing its duties the audit office ascertains circumstances which jeopardise the foundation or its assets, it shall include this in the report. The Foundation Supervisory Authority may demand from the audit office disclosure of all facts of which it has become aware during the course of the audit.

5) In the case of public-benefit foundations, the Foundation Supervisory Authority may on application dispense with the appointment of an audit office if the foundation manages only minor-value assets or if this appears appropriate for other reasons. By ordinance, the Government shall lay down the prerequisites for exemption from the obligation to appoint an audit office.

III. Other bodies

1) The founder may designate other bodies, in particular to determine a beneficiary from the group of beneficiaries, to determine the time, level, and condition of a disbursement, to manage the assets, to advise and assist the foundation council, to monitor the administration of the foundation in order to safeguard the purpose of the foundation, to reserve consent or issue instructions, as well as to safeguard the interests of the foundation participants. These bodies shall have no power of representation.

2) § 24(6) shall apply *mutatis mutandis*.

It shall for this purpose be entitled to demand information from the foundation and, through the audit office, inspect the books and documents of the foundation. If the appointment of an audit office has been dispensed with pursuant to § 27(5), the Foundation Supervisory Authority shall as a rule itself exercise the right of inspection. Moreover, it may obtain information from other administrative authorities and the courts, and it may in special non-contentious proceedings apply to the judge for the necessary measures, such as control and dismissal of the governing bodies of the foundation, performance of special audits, or cancellation of resolutions of governing bodies of the foundation.¹¹³⁶

4) Furthermore, in order to contest asset management and appropriation by the governing bodies of the foundation that conflict with the purpose of the foundation, each foundation participant may in special non-contentious proceedings apply to the judge for an order for the required measures under paragraph 3. If there is a strong suspicion that a body of the foundation has committed an offence, the judge may also intervene *ex officio*, in particular on the basis of a communication from the Office of the Public Prosecutor. The Foundation Supervisory Authority shall have the status of a party in such proceedings.¹¹³⁷

5) Unknown beneficiaries shall be ascertained by way of public notice procedure on the application of the Foundation Supervisory Authority.

In the case of mixed family foundations, such a directive may be issued only insofar as the status concerned serves the purposes of the family foundation.¹¹⁴¹

4) With regard to the bearing of risk and the warranty obligation, where the individual member entrusts others with use and exploitation, the principles of the rental contract shall apply and, if ownership is to be transferred, the principles of the sales contract.

Article 651

II. Profit participation

IV. General management

Article 653

2) If general management is available either to all or to several members, each of those members may act without the involvement of the others, but any other member authorised for general management shall have the right to prevent the act before it is completed by raising a justified objection.

3) In the absence of any other provision in the company agreement, general management assigned to individual members or third parties shall not entitle them to perform legal acts and render performances in fact that affect the foundations of the company, such as, in particular, amendments to the articles of association, dissolution of the company, transfer and withdrawal of the right to general management, and admission or exclusion of members.

2) The general provisions on default in acceptance of contributions from a member shall be governed by the general provisions on default in acceptance under the law of obligations.

3) Important grounds shall be deemed to exist in particular if the general manager is guilty of a gross breach of duty or lacks the capacity for good general management.

Article 659

5. Managing and non-managing members

1) To the extent not otherwise provided in this Part or in the company agreement, the relationship of the managing members to the other members or of a third party as general manager to the members shall be governed by the provisions applicable to the implied trust.

4) To the extent that the claims arising from the company relationship are not transferable, the creation of limited rights *in rem* to those claims and their attachment shall also be excluded.

5) This provision is without prejudice to transfer of the claims to which a member is entitled arising from general management, to the extent that their satisfaction can be demanded before settlement, such as in particular the reimbursement of advances, compensation for expenses and damages, as well as claims to a profit share or to that which the member is entitled to in the settlement.

2) If the members, together or by proxy, have entered into obligations towards a third party, they shall be jointly and severally liable to that third party, subject to other agreements or provisions.

3. if the liquidation share of a partner with unlimited liability is subject to compulsory sale or if such a member goes bankrupt or if a custodian has been appointed whose responsibilities include the management of the legal relationships of the company, unless the custodian court orders otherwise in the latter case and if the other members do not exercise their right of exclusion by paying the liquidation share by continuing the company among themselves;¹¹⁶⁷

3) If a company is tacitly continued after the expiry of the period for which it was entered into, it shall be deemed to be renewed for an indefinite period.

Article 668

III. Effect of dissolution on general management

2) In enforcement proceedings, the court may authorise the creditor to undertake all steps to enforce the attached rights of the member in the member's name, in particular to enforce the attached right, as well as individual claims arising from that right in litigation and enforcement proceedings against third parties.

2) The limited partner may not receive any interest or profit until the contribution reduced by losses has been replenished.

3) The limited partner shall be liable beyond the limited partnership contribution for the liabilities of the partnership to the extent that the limited partner has received payments from it contrary to these provisions, but shall not be obliged to repay interest and profit received on the basis of a proper balance sheet and in good faith.

2) Such a participation may be entered in the Commercial Register as a limited or general partnership, but if the name of such a participant is included in the legal name, then the legal name must either be entered or changed, subject in the latter case to the provisions on the liability of the limited partner when the limited partner's name (legal name) is included in the legal name.

Article 755

F. Partnership of limited partners and general partnership with limited liability

1) Where a partnership is formed by a written agreement under a joint legal name in such a way that all partners are treated as limited partners, each having limited liability for the obligations of the partnership, the provisions of this Title shall apply to this partnership (partnership of limited partners), but subject to the following derogations:

1. The registration in the Commercial Register and its entry, together with the partnership agreement, must state:
 - the surname, first name, status, and place of residence or legal name and registered office of each limited partner, together with that limited partner's limited liability amount and the actual contribution made by each partner, as well as the total of all limited liability amounts;

the surname, first name, and place of residence or legal name and registered office of the partners or third parties responsible for general management and representation.

Publication must be limited to the legal name, the object of the undertaking, the total limited liability amount, and information on the name and place of residence or legal name and registered office of the persons responsible for general management and representation.

These provisions shall also apply *mutatis mutandis* where the facts or circumstances subject to the obligation to be entered undergo a change.¹²⁶⁶

2. The non-managing partners shall have the same position in relation to the managing partners as a general partner and, unless otherwise agreed, there shall be the same prohibition of competition as for general partners, but only for the managing partners; the managing and representative partners or third parties shall, in relation to the partners and third parties, have the position of general managers in the limited liability company.
3. If a minimum equity capital by ordinance is provided for in the case of a limited liability company, the minimum amount of the contribution of assets made by the partners in the formation of the partnership must be equal to that minimum equity capital; if the pure partnership assets subsequently fall below that amount, any partner or creditors may demand dissolution under the same conditions as in the case of the legal person with a sole member.
4. In the partnership agreement, the partners may commit themselves, in addition to the limited liability amount, to a limited additional performance or to recurring non-cash performances in the same way as in the case of a registered cooperative society.
5. The amount of the paid-up limited liability amounts shall be included on the liabilities side; in the absence of any other agreement, the partners shall participate in the profits and losses in proportion to their limited liability and, if there is no limited liability amount, such as when work is performed, the share shall be determined at the judge's discretion.
6. This company shall also be dissolved by the opening of bankruptcy proceedings, and it must also be liquidated in accordance with the general provisions governing legal persons, unless the Office of Justice grants an exception.¹²⁶⁷

2) A consortium shall not be deemed to constitute a separate legal subject and may not sue or be sued independently or be a party to any other proceedings.

3) The members of the consortium shall, in case of doubt, be deemed co-owners of the property items belonging to them jointly.

4) In case of doubt as to whether a consortium exists, the existence of an unregistered partnership shall be assumed in the absence of other evidence.

¹²⁶⁸ Article 755(2) amended by LGBI. 2013 No. 6.

Article 757

II. Formation of several companies

1) Consortia may also be formed in such a way that one or more persons, legal persons, or entities with legal names, acting as managers of the business, enter into contracts of the same kind with other persons, among whom there need be no relationship, for the execution of the business for joint account, with the intention that all members should share in the success of the business in accordance with their participation and the terms of the contract.

2) In this case there shall be as many consortia as there are individual contracts.

Article 758

B. Reference to unregistered partnership

1) The consortium shall be subject to the provisions governing unregistered partnerships, unless otherwise set out below.

2) In particular, formation is not bound to any particular form.

3) Entry in the Commercial Register shall be excluded.¹²⁶⁹

Article 759

C. Contributions

1) The contributions of the members shall depend on the contract and may consist of capital participation or labour.

2) They may also contain only the obligation to take over on their own account, in accordance with the contractual participation, that part of the business undertaken for joint account which could not be completed when the consortium was dissolved or when one of several business transactions taken over by it was wound up.

¹²⁶⁹ Article 758(3) amended by LGBI. 2013 No. 6.

Article 760

D. Profit, loss, and liability

- 1) Profit and loss of a consortium shall be distributed among the members according to the terms of the contract.
- 2) Unless otherwise specified, any business contributions shall be initially subject to interest at 5%, and any surplus shall be treated as profit.
- 3) In the case of business for the performance of which all participants are required to pay contributions in cash or other fungible assets or to assume certain obligations specified as to their amount as contributions, such distribution shall not be made per capita but rather according to the amount of the contribution or obligation, unless the contract provides otherwise.
- 4) Where the members enter into obligations in relation to a third party, whether jointly or by proxy, each member shall be liable to that third party in proportion to that member's share in the consortium, subject to arrangements to the contrary.

E. Consortium resolutions and general management

Article 761

I. Consortium resolutions

If the contract provides for a resolution to be passed by a majority of votes, in the absence of any other contractual arrangement, the majority shall be calculated according to the rule applicable to the distribution of profits.

II. General management and representation

Article 762

1. In general

- 1) By the company agreement or by unanimous resolution of the members, general management and representation may be entrusted to one or more members individually or collectively, to the exclusion of the others, or to one or more third parties who are not members, individually or collectively.

2) Likewise, such as in the case of administrative companies, it may be determined that the managing member shall conclude the business of the partnership in that member's own name but for the account of the consortium (silent consortium); in this case, the provisions on indirect representation and, on a supplemental basis, those on the implied trust shall apply in relation to third parties.

3) Participation in the losses of the silent consortium may be limited at will (limited silent consortium).

Article 763

2. Responsibility

1) The members owe each other the care of a prudent businessperson in general management and representation.

2) The managing members shall also be liable under these provisions if they do not receive any special remuneration for their activities beyond the share of the business income to which they are entitled in accordance with their participation.

Article 764

3. Status of non-managing members

1) The members not entrusted with general management shall not be authorised to request information on the course of the consortium's business and invoicing or to inspect the account books and business documents of the consortium before the date contractually agreed for the resolution of the consortium or before expiry of a period which is deemed reasonable for the resolution.

2) On important grounds, the judge may, in special non-contentious proceedings, authorise the non-managing members to make the above request.¹²⁷⁰

¹²⁷⁰ Article 764(2) amended by LGBI. 2010 No. 454.

Article 765

F. Sub-participation

1) If, after the formation of the consortium, a joint sub-participation is assigned to a third party by all the members, the third party shall not become a member, unless otherwise agreed, and shall not be entitled to participate in the general management or in the approval of the same, but shall share in the profit or loss as determined by the consortium.

2) Where a single participant in a consortium grants sub-participation to a third party, that third party shall not become a member of the other participants, but rather the relationship between the two shall constitute a consortium in its own right, the assignor being regarded as the managing member and, as such, owing the sub-participant¹²⁷¹ only the same care as the managing member owes the principal company in respect of the managing member's own participation.

Article 766

G. Dissolution

1) The consortium shall not be dissolved by the death of a member or the lapse of an entity with a legal name or a legal person involved, or by unilateral termination before the business is completed, except on important grounds, unless the dissolution results from the contract or the nature of the business.

2) However, if the deceased partner or the lapsed entity with a legal name or legal person was the sole general manager, such as the consortium leader, the consortium shall, in case of doubt, be dissolved.

Article 767

H. Liquidation

1) Pending transactions upon liquidation shall be wound up by the managing partner(s), such as the consortium leader, unless the nature of the transaction or the contract provides otherwise.

2) To the extent they are not to be used to cover costs incurred, goods or negotiable securities intended for sale but not sold, as well as goods or negotiable securities acquired for a consortium of buyers, shall be

2) Such a silent participation in an undertaking not entered in the Commercial Register shall be subject to the provisions on profit participation agreements applicable to unregistered partnerships, unless it is a consortium.¹²⁷³

3) If an amount is assigned to another party with the declaration that the claim shall be liable to a certain third party in the same way as a limited partnership contribution, that legal relationship shall be treated as a loan with profit and loss participation, and the liquidation quota in the compulsory execution or in insolvency proceedings against the recipient shall be deemed to have been assigned in advance to the third party up to the uncovered amount of that third party's claim.¹²⁷⁴

4) In the absence of any provision to the contrary, the assets contributed by the silent partner shall be included in the assets of the owner of the undertaking.

¹²⁷² Article 768(1) amended by LGBL 2013 No. 6.

1) The receivership shall be terminated by law upon the death of the owner of the homestead.

2) It shall also be cancelled by the Court of Justice at any time upon application by the homeowner if the legally valid and approved accounts of the receiver have not produced a reasonable surplus available to the creditors within a period of one year.

3) In the event of a subsequent change in circumstances, the receivership may be ordered again at a later time on the application of a creditor, but not more than once within two years.

VI. Dissolution

Article 818

1. During lifetime

1) The owner may have the homestead dissolved during the owner's lifetime by petition to the Court of Justice for removal of the entry, unless otherwise specified at formation, as in the case of homesteads for the benefit of third parties.

2) The Court of Justice shall then call upon those who may wish to object to the dissolution, by public notice in the Official Journal or in any other manner it deems appropriate, in particular through service of an invitation, to submit their reasons in writing or on the record within one month.¹³⁰⁶

¹³⁰⁴ The provisions on sole proprietorships with limited liability (Articles 834 – 896a) were repealed by the Law of 15 April 1980, LGBL 1980 No. 39.

¹³⁰⁵ Article 816(2) amended by LGBL 2020 No. 369.

¹³⁰⁶ Article 818(2) amended by LGBL 2015 No. 275.

3) If the homestead is under receivership, the receiver shall be requested to comment.

4) The Court of Justice shall approve and execute the dissolution if it does not violate important interests of the family or the rights of third parties, and if dissolution is not at an inopportune time; if the homestead is under receivership, dissolution shall in any case be carried out only at the end of a one-year receivership period.

5) This provision shall be subject to the dissolution of the homestead as a result of the demise of the property or dwelling and the like, unless a replacement takes its place.

Article 819

2. *Upon death*

1) If the owner dies, the homestead may continue to exist only on condition that a binding arrangement has been established for its takeover by a disposition *mortis causa* or by a public document *inter vivos*, or that the court orders its continuation in accordance with the following paragraphs.

2) In the absence of such arrangement, or if the inheritance or legacy is refused or successfully contested, and in the absence of a wife or children to whom the Court of Justice may, individually or jointly, grant the transfer at its discretion, or if the designated third parties refuse to accept it, the entry in the Land Register shall be deleted *ex officio*.

3) In the absence of any other provision, transfer in accordance with the preceding paragraphs shall be based on the capitalised value determined, if necessary, at the request of the parties in special non-contentious proceedings.¹³⁰⁷

4) In the event of the division of the estate or liquidation of the estate by the insolvency court, a homestead not transferred shall become part of the general estate to be divided.¹³⁰⁸

E. Homestead grants

Article 820

I. Preconditions

1) The municipalities may, with the consent of the Government, grant land, including building rights on their properties, to homesteaders for ownership as residential or commercial homesteads, or, with their consent and designation as grantors, may grant land from others as a homestead.

2) The Government may authorise other legal persons under public law, public-benefit undertakings, the Princely Domain Administration, entities with legal names, or any other third parties to grant homesteads.

3) At the time of formation, the land may not be encumbered *in rem* with mortgages, land charges, usufructs, or otherwise with a right of first refusal or reversion, a right of tenancy or lease, if, in the estimation of the judge, the encumbrance would contradict the purpose.

Article 821

II. Entry in the Land Register

1) The homesteader shall be entered as the owner in the Land Register, and in addition to the name of the grantor, the status as a homestead shall be reserved by entering a restriction on disposal and the homestead shall be expressly designated as a "homestead grant"; if the latter designation is missing, the homestead shall be subject to the rules otherwise established for homesteads.

2) The rights of the grantor of such a homestead may be transferred to another only if the latter is entitled to grant a homestead.

3) The contract for the assignment of a homestead must specify the amount of the fee to the grantor for the land without any buildings or other improvements that have been erected in the meantime, and this amount must be stated in the reservation in the Land Register.

Article 822

III. Dissolution, disposal, and enlargement

1) The division of the homestead and disposal of individual plots of land or parts of plots of land shall require the consent of the grantor in addition to the approval of the judge.

2) If, after the consent of the grantor, another plot of land is combined with or allocated to the homestead as an integral part, the status as a homestead shall extend to the whole of the enlarged plot of land, and an amount shall be indicated in the entry in the Land Register as consideration in accordance with the third paragraph of the preceding article.

IV. Right of first refusal and reversion

Article 823

1. Right of first refusal

1) The grantor of such a homestead shall have a legal right of first refusal, unlimited in time, which may be asserted both in the case of voluntary sale and sale by way of compulsory execution or insolvency proceedings.¹³⁰⁹

2) If the homesteader sells the homestead to a person to whom the homesteader may also sell an ordinary homestead, the exercise of the right of first refusal shall likewise be excluded.

3) The entry into the Land Register on the sale may be made only after the Office of Justice has received proof of non-exercise of the right of first refusal after setting a period of one month.¹³¹⁰

Article 824

2. Right of reversion

1) The grantor may demand that the homestead be transferred back to the grantor if the homesteader does not live or manage it on a permanent basis without the grantor's consent, or if the homesteader commits gross mismanagement.

2) The issuer may be granted a reversion by contract for further cases with the approval of the judge.

3) The right of reversion shall also extend to the ancillary property of the homestead existing at the time of assertion.

¹³⁰⁹ Article 823(1) amended by LGBL 2020 No. 369.

¹³¹⁰ Article 823(3) amended by LGBL 2013 No. 6.

Article 825

3. *Exercise*

1) The right of first refusal and reversion shall have effect in relation to third parties.

2) The exercise of the right of first refusal or reversion shall not affect the rights which are entered with the consent of the grantor or within the debt limit on the homestead.

3) When exercising the right of first refusal or reversion, the grantor shall pay as the purchase price at most the amount which results from the determination of the amount for the homestead property upon formation or enlargement of the homestead, if necessary taking into account a reduction in value and adding the value still available for any buildings and improvements, but without taking into account services which have been taken over and to which the third-party purchaser has otherwise committed.

4) If the grantor exercises the right of first refusal or reversion, the grantor may designate a third party to whom the homesteader must transfer the homestead.

5) The court may, on important grounds and after hearing the parties, order in special non-contentious proceedings that the grantor must repurchase the homestead in accordance with the two preceding paragraphs.¹³¹¹

Article 826

V. *Encumbrance*

1) Any contractual encumbrance of the homestead with rights *in rem* shall require the consent of the grantor.

2) Mortgages may be entered only in non-cancellable redemption debts, unless the Government grants an exception.

3) The homesteader may, if the grantor refuses to give consent to the entry of an easement or land charge, demand in special non-contentious proceedings that the judge, after hearing the parties involved, give consent in lieu of the grantor, if doing so is compatible with the rules of proper

¹³¹¹ Article 825(5) amended by LGBI. 2010 No. 454.

economic activity and does not substantially endanger or impair the economic viability of the homestead.¹³¹²

4) After the parties have been heard and with the approval of the court, the homesteader may demand approval for the entry of a mortgage in special non-contentious proceedings up to two thirds of the market value, if taking out the mortgage is compatible with the rules of proper economic activity and is done:

1. to repay the purchase, production, or installation costs,
2. for uses to improve the homestead,
3. for the settlement of co-heirs.¹³¹³

5) In other cases, the encumbrance with mortgages shall be subject to a debt limit of half the estimate for mortgage notes, but the Government may allow a more extensive encumbrance by ordinance.

Article 827

VI. Reference

1) To the extent not otherwise provided in the provisions governing homestead grants, the provisions on homesteads concerning special non-contentious proceedings, the application for approval, entry in the Land Register, revocation, ancillary property, division, disposal, and enlargement shall apply *mutatis mutandis* to legal persons under public law, the Domain Administration, and public-benefit undertakings as grantors, with the derogation that:

1. the person to whom the homestead is to be granted (the homesteader) shall be deemed the applicant before the Court of Justice,
2. reversion to the grantor shall replace the revocation of approval,
3. the dissolution of the homestead on important grounds may be approved by the judge, but otherwise may take place only with the consent of the grantor, and the grantor must pay a purchase price to the homesteader or the homesteader's heirs in accordance with the regulations on exercise of the right of reversion.¹³¹⁴

2) Grantors other than those referred to in the first paragraph shall also be subject to the provisions on the proceedings for the formation of a homestead.

¹³¹³ Article 826(4) amended by LGBl. 2010 No. 454.

¹³¹⁴ Article 827(1) amended by LGBl. 2010 No. 454.

3) In particular, such a homestead may also be established with the inalienability clause, without prejudice to the declaration of reversion and the claim to reversion of the grantor and the limited rights *in rem* existing at the time of formation, in which case a further mortgage encumbrance shall be excluded.

Article 828

F. International choice of law

A homestead covering property or a dwelling situated in Liechtenstein shall be subject exclusively to Liechtenstein law, regardless of whether the homesteader is a Liechtensteiner or a foreigner.

G. Entailed estates

Article 829

I. Establishment

1) Assets may be linked on a permanent basis and inalienably, but subject to the rights of third parties, with a family or other specified group of persons by establishing an entailed estate by means of a public document or a disposition *mortis causa* and by arranging its further details, in particular legal succession, in the document or in articles of association.

2) However, plots of land in Liechtenstein may be a component of an entailed estate only to the extent that such land appears necessary for the maintenance of not more than five persons.

3) The establishment of an entailed estate, to the extent that it consists of immovable property, shall require the approval of the Government and the consent of Parliament; this shall also apply to any substantial change, but not to its dissolution.

4) In the case of land and rights under the Land Register, the entailed estate must be reserved in the Land Register as a restriction on disposal; in the case of other rights entered in public registers, it must be noted in the relevant entry.

5) These provisions are subject to the provisions of the law governing acts voidable at the instance of creditors, the law governing gifts, and inheritance law.

6) An entailed estate may also be formed in accordance with the provisions governing the trust enterprise (entailed trust enterprise).¹³¹⁵

II. Status of participants

Article 830

1. In general

1) To the extent not otherwise provided by law, the deed of formation, or the articles of association or to the extent permitted by the purpose, the provisions on the implied trust, in particular also with regard to the investment of assets, shall apply *mutatis mutandis* to the entailed estate with the proviso that the entailer shall assume the position of settlor, the holder of the entailed estate at a given time the position of trustee, and the prospective the position of beneficiaries.

2) However, the provisions governing transactions in one's own favour shall apply only to the extent that the rights of the holder of the entailed estate allow.

3) According to the deed of entailment, the holder at a given time shall have possession, management, and use, but shall also bear all burdens, while the other members of the family or persons shall have an inalienable prospective right *in rem*, which may manifest itself in the power of oversight, and, according to the deed of entailment, in the participation in legal transactions, as well as in special uses, such as compensation, maintenance, pensions, and the like.

4) The holder of the entailed estate shall not be liable for any depreciation in value that occurs through no fault of the holder.

5) If the succession is not set out in the deed of entailment, ordinary succession under law shall apply.

6) At the request of participants, unknown prospective beneficiaries of entailed estates may be called up by the judge by way of a public notice procedure to assert their claims.

¹³¹⁵ Article 829(6) inserted by LGBl. 1980 No. 39.

Article 831

2. *Sale and encumbrance*

1) Unless the deed of entailment determines otherwise, the holder of the entailed estate at a given time shall be authorised to dispose of the assets of the entailed estate that do not concern the proceeds accruing to the holder only to the extent permitted by the court on important grounds in special non-contentious proceedings after hearing the next prospective beneficiaries.¹³¹⁶

2) Rights *in rem* may be established by the holder of the entailed estate only in such a way that they expire with the rights of the holder and do not contradict the rights of *bona fide* third parties in existence when the entailed estate is formed or when the former rights are established, and do not contradict the orders of the entailer.

3) Subject to the protection of good faith, a lien on objects of the entailed estate created by the holder of the entailed estate shall extend only to the proceeds due to the holder, and the creditors may pursue compulsory execution only to that extent.

4) On important grounds arising from the entailed estate itself, in particular for maintenance or improvement, the judge in special non-contentious proceedings may approve the creation of liens, despite instructions of the deed of entailment to the contrary, on the application of the holder of the entailed estate and after hearing the prospective beneficiaries, where such liens must exist in the case of properties with redeemable mortgages, on the property of the entailed estate itself, with the proviso that the holder of the entailed estate establishing the debt and the successors to the entailed estate are liable only for the property in addition to its proceeds.¹³¹⁷

Article 832

III. *Dissolution*

1) If a family or the group of entitled persons participating in a family entailed estate dies out, the assets devolve to the State as the universal successor upon the death of the last of them, unless otherwise provided in the deed, and if it has served purposes which correspond to the public duties of the polity, it shall be used in a manner as close to its purpose as possible in accordance with the provisions on implied trust, and otherwise

¹³¹⁶ Article 831(1) amended by LGBl. 2010 No. 454.

¹³¹⁷ Article 831(4) amended by LGBl. 2010 No. 454.

the State shall establish a public-benefit foundation or donate the assets to such a foundation.

2) The State shall be liable for the debts of the entailed estate in the same way as in the devolution of the assets of a legal person.

3) An entailed estate shall be dissolved by the demise of the property of the entailed estate, unless a replacement takes its place, by resolution of the family members or other entitled persons, unless the deed of formation determines otherwise, and also by opening of insolvency proceedings.¹³¹⁸

Article 833

IV. International choice of law

1) Domestic law exclusively shall apply to entailed estates in Liechtenstein.

2) Foreign entailed estates may acquire land in the same way as domestic entailed estates, and the provision on the extinction of the beneficiary shall apply to them with respect to the assets situated in Liechtenstein.

3) They shall appoint a representative if necessary.

4) The provisions on trusts under foreign law shall apply to entailed estates under foreign law, with the proviso that Liechtenstein law shall apply exclusively with respect to the acquisition of real estate in Liechtenstein.

Article 898¹³²³

II. Implied trust

4) The provisions governing entry in the Commercial Register shall apply *mutatis mutandis*.¹³³⁵

4. Judicial and public trustee and representative

Article 904

1) Apart from the cases provided by law, the Court of Justice must appoint a judicial trustee in special non-contentious proceedings if a trust has been arranged in a manner similar to a donation, for example, by a unilateral deed of formation *inter vivos* or a disposition *mortis causa*, but a trustee has not been designated by name or in any other recognisable manner or if the designated trustee refuses to accept office or if a trustee appointed in any other way is no longer available for any reason and the deed of trust does not determine the manner in which another trustee should be appointed or how the trust property is to be otherwise dealt with.¹³³⁶

2) The Office of Justice or the probate authority or other judicial and administrative authorities must inform the Court of Justice of such reasons for appointment.¹³³⁷

3) After consultation with the interested parties where feasible, the Court of Justice shall appoint a judicial trustee, taking into consideration in the first place any wishes of the settlor and, in the absence of such wishes, the interests of the trust property.

Article 905¹³³⁸

b) Representative

2) A trust may be dissolved by the Court of Justice in special non-contentious proceedings, under the conditions applicable to the dissolution of a foundation by the Court of Justice.¹³³⁹

3) In the case of termination of a trust, where the deed of trust does not provide otherwise, the trustee or the trustee's legal successor must render account and provide information concerning the trust property in the same manner as during the existence of the trust.

4) Unless indicated otherwise by the deed of trust or the provisions above, the trust property must be transferred to the settlor or the settlor's legal successor and, in the absence of such persons, to the beneficiary entitled to a claim and, in the absence of such a beneficiary, to a foundation whose purpose is as similar as possible to that of the trust.

Article 907

2. Grounds for termination relating to the settlor

1) Rescission of the trust agreement by the settlor or revocation of a trust is admissible only if the agreement or the trust letter expressly reserves such right of rescission or if revocation is permitted pursuant to the provisions governing foundations created by way of last will and testament or contract of inheritance.

2) In all other cases, the terms of the trust shall be irrevocable, with reservation of the settlor's or a third party's right of challenge pursuant to the provisions governing contractual defects, the provisions governing the law of inheritance, or the law governing acts voidable at the instance of creditors, and, where applicable, the law governing gifts.

3) In the case of trusts created by way of last will and testament or articles of association of a legal person, rescission or revocation is also subject to the special arrangements governing the legal relationship.

4) Unless otherwise indicated by the deed of trust or the circumstances, the death of the settlor or, in the case of companies, firms, legal persons and the like, their termination, as well as incapacity to act and insolvency proceedings do not bring about termination of the trust.¹³⁴⁰

3. Termination relating to the trustee

Article 908

a) Resignation of the trustee

2) Unless otherwise provided by the deed of trust, the trustee shall be entitled to give notice of resignation for the end of a calendar year, with a period of notice of three months, if important grounds do not justify a shorter period of notice.

3) In the absence of any directive to the contrary in the deed of trust or if a settlor, co-trustee, or beneficiary entitled to a claim is no longer deemed included, notice of resignation shall be given to the Office of Justice.¹³⁴¹

4) The trustee designated as successor in the deed of trust shall be notified of this by the Office of Justice, but where a successor trustee has not been designated or is unable or unwilling to accept the office, the Office of Justice shall notify the Court of Justice which, as in all other cases where trust property is left without a trustee, shall appoint a trustee.¹³⁴²

Article 909

b) Death or termination, incapacity to act, and insolvency proceedings of the trustee¹³⁴³

1) Unless the deed of trust provides for the substitution of the initially appointed trustee in the event of death, incapacity to act, or other grounds for termination (Articles 23 et seq. TrHG), each heir of a trustee and, in the event of incapacity to act, the trustee's representative is required to notify the Court of Justice.¹³⁴⁴

2) Where the trustee is a partnership, a firm, or a legal person, the partners, the representatives or successors of the firm, or the governing

3) In addition, every beneficiary is entitled to give such notification to the Court of Justice for the purpose of appointing another trustee.

4) The procedure for appointment is the same as the procedure for rescission.

5) In the absence of any provision to the contrary in the deed of trust, the trustee does not withdraw from the legal relationship if insolvency proceedings have been opened in respect of the trustee's assets, provided that the trust property does not appear to be in jeopardy and the judge does not order the trustee's withdrawal. However, the judge, upon application of the participants or the insolvency administrator, may appoint a co-trustee.¹³⁴⁶

*C. Content and effect of the trust relationship*¹³⁴⁷

Article 910

I. In general

1) The contents of the deed of trust, such as those of the agreement, the trust letter, the *disposition* mortis causa, or the articles of association, shall be authoritative in the first place for the interpretation of the trust relationship between settlor, trustee, and beneficiaries.

2) Where the content of such a document is in conflict with mandatory provisions or the public order of the country, they shall be interpreted so as to be in accord therewith, insofar as the law or the document does not provide otherwise.

3) Where the content and the effect of the trust relationship among the participants and third parties cannot be determined from the deed of trust, the provisions of this title shall apply *mutatis mutandis* and in this regard the rights of the trust entered in the Land Register shall be effective against all persons, while with respect to other rights the trustee shall have the status of a beneficiary (administrative right *in rem*).

¹³⁴⁵ Article 909(2) amended by LGBL. 2020 No. 369.

¹³⁴⁶ Article 909(5) amended by LGBL. 202 No. 369.

5) To the extent not otherwise indicated from the conduct of business in a commercial manner or the entry in the Trust Register, the provisions governing the trust enterprise shall apply on a supplemental basis.¹³⁴⁹

6) The interpretation and application of all provisions governing the trust enterprise and all other trust instruments shall be pursuant to the principles of equity.¹³⁵⁰

II. Trust property

Article 911

1. In general

1) All assets so designated by the settlor or by operation of the law shall be trust property (the trust fund), as well as all assets acquired by the administration of such property, whether it has been included in a schedule or an inventory or not.

2) Items that have been included in a schedule or an inventory shall be presumed to be part of the trust property.

3) The trust property shall also include property acquired on grounds of a right accruing to the trust property as a substitute for an object of the trust property which has been destroyed, damaged, or removed, or acquired in any other way by the means of the trust property or as the result of a transaction related to the trust property.

4) Unless otherwise indicated by the law or other trust instrument, the provisions governing joint ownership, with the exception of those relating to division, shall apply to trust property as separate property on the understanding that the trustees have joint rights and duties and that in the case of withdrawal of a trustee or the appointment of a new trustee, the rights and duties shall devolve automatically upon the new trustee, except for the duty to appoint new trustees, to the extent that the transfer is not subject to special formalities.¹³⁵¹

2. Specific trust property

1) Where real estate or rights registered in the Land Register are the object of a trust, they must, in the absence of any directive to the contrary in the deed of trust and with effect of the trust vis-à-vis third parties, be transferred to the name of the trustee, whether with or without restriction on disposal. This may be done through reservation or notation of the trust in the Land Register.

2) Where an undertaking is entered in the Commercial Register under a legal name or where an asset forming part of the trust property is entered in another public register, such as the Patent Register or the like, then, in the absence of any directive to the contrary in the deed of trust, that undertaking or asset shall be described in the public register with an express designation as trust property upon application of participants.¹³⁵²

3) Where third parties have acquired from the trustee property or rights which they knew were trust property and the trustee was not entitled to dispose of such property or rights, the settlor, a co-trustee, a beneficiary or, finally, a trustee appointed by the Court of Justice may, alone or as a joint litigant with others, claim the surrender of such assets or take action on grounds of unjust enrichment for the benefit of the trust assets.

4) A debtor shall acknowledge that a claim forms part of the trust property only after receiving notification to that effect.

5) Where claims are transferred to the trustee by the settlor or a third party acting on the settlor's behalf, the debtor may not, in the absence of provisions to the contrary in the deed of trust, raise any objections the debtor is entitled to raise against the trustee, but the debtor may raise all the objections the debtor is or was entitled to raise against the settlor.¹³⁵³

3. Authorised trust investments

1) Unless otherwise provided by the deed of trust, the trustee, where required to invest trust assets, shall invest them with the Liechtensteinische Landesbank or in negotiable securities issued by that bank or in debentures or in unsecured claims for which domestic politics guarantee the payment of interest or in loans to domestic politics or in real securities within the encumbrance limits prescribed for mortgages.

2) The investment of trust assets through the acquisition of real estate or the formation of homesteads or participation in undertakings is permitted only where so provided or allowed by the deed of trust or if the judge gives permission in special non-contentious proceedings.¹³⁵⁴

3) Also exceptionally in other cases, the trust property, or individual parts thereof may, with the approval of the Court of Justice in special non-contentious proceedings, also be invested in other securities or in another manner, if there are important grounds and if not prohibited by the deed of trust.¹³⁵⁵

4) These restrictions shall not apply to trusts whose object is assets belonging to persons or legal persons or firms domiciled abroad (domiciliary trusts).

4. Compulsory execution and insolvency proceedings¹³⁵⁶

Article 914

a) Creditors of the settlor and beneficiary

1) The creditors of the settlor or the settlor's legal successors may assert a claim against the trust property only if and to the extent that the conditions for doing so are met under the law governing acts voidable at the instance of creditors or otherwise according to the type of transfer, such as in the case of gifts or under the law of inheritance.

2) The creditors of the beneficiary may assert any claims against the trust property by way of compulsory execution or insolvency proceedings only to the extent that the beneficiary has claims against the trust property and there is no provision prohibiting such withdrawal, such as in the case of family foundations.¹³⁵⁷

3) If the beneficiary is simultaneously also a trustee, the above provisions shall apply *mutatis mutandis*.

Article 915

b) Creditors of the trustee

1) In proceedings to secure rights or in the case of compulsory execution and insolvency proceedings of the trustee, the trust property shall be regarded as third-party property, and the trustee's creditors shall therefore have no right of claim against the trust property, to the extent that the trustee's claims for reimbursement and compensation are not involved.¹³⁵⁸

2) Where the trust property is comprised of real estate, movables, or other separable assets, it shall be separated as far as the circumstances permit and passed to the successor trustee or judicially appointed trustee according to the normal course of business, such as in the event a trustee is no longer available. The Court of Justice shall make the necessary arrangements for such transfers *ex officio*, such as entries in the public registers.

3) Where the trust property is mixed with the debtor's assets to such an extent that an immediate official separation is not possible, the separation shall be undertaken by the Court of Justice as soon as possible.

4) Where separation is not possible for the duration of the compulsory execution or insolvency proceedings, a compensation claim for surrender of the trust property shall take precedence over all other creditors, and if there is more than one settlor or beneficiary entitled to a claim, they shall rank equally among themselves.¹³⁵⁹

5) Unless otherwise provided by the deed of trust, the settlor or the settlor's legal successor, the co-trustee, or the beneficiary may assert claims individually or as joint litigants against the trustee or the insolvency

6) Within a period of time determined by the court, the creditors of the trustee may, for their part, contest by recourse to the law the claims for separation and compensation to the extent that they are unjustified, in whole or in part; in particular, they may assert that a mixed trust exists and for this reason their debtor may have a partial claim against the trust property for money, but not for other assets.

Article 916

c) Creditors of the trust property

1) The trustee is personally liable without limitation, jointly and severally with any co-trustees, for the debts of the trust property incurred by the trustee on behalf of the trust property to the extent that they cannot be met out of the trust property. However, unless otherwise provided by the deed of trust, the trustee shall have a right of recourse against the settlor and, where the conditions are met for a challenge or for unjust enrichment, against the beneficiary. However, liability on the part of the trustee and a right of recourse only exist to the extent it cannot be proven that the third party was not acting in the belief that a liability went beyond the amount of the trust property.¹³⁶¹

2) Repealed¹³⁶²

3) Where a trustee participates in a firm or legal person, the trustee's creditors may have a claim against the trustee only to the extent permitted by the provisions governing the undertaking concerned.¹³⁶³

III. Rights and duties of the settlor

Article 917

1. Rights

1) The settlor is entitled to transfer any parts of the settlor's assets on trust to a trustee appointed by the settlor by means of a trust agreement, trust letter, last will and testament, or articles of association and, subject to the mandatory provisions of the law, the settlor may therein define the precise terms of the trust. In particular, the settlor may make provision for the trust property, under certain conditions or after a certain period of time, to revert to the settlor or the settlor's legal successor or to devolve upon third parties such as foundations or establishments.

2) The settlor may draw up the conditions in the deed according to which a trustee appointed by the settlor may be removed and any future trustees may be appointed.

3) Furthermore, the settlor may specify conditions under which a beneficiary named in the deed of trust is no longer available and another must be appointed in the beneficiary's place, and the settlor may state the conditions on which trust property shall pass to other beneficiaries in the event of death or lapse of beneficiaries or the like.

4) Where the disposition provides for an entailed estate, they may not contravene the mandatory provisions relating thereto.

Article 918

2. Duties and other standing

1) The settlor may otherwise not draw up conditions which bind the trustee to continuous instructions by the settlor.

2) Where such provisions are drawn up, the relationship shall be deemed to be a normal agency agreement within the meaning of the law of obligations, unless the circumstances indicate a different relationship such as, in particular, a service contract.

3) When the trustee accepts the trust agreement or accepts the office on the basis of a different deed of trust, the settlor shall be bound by the provisions that have been drawn up.

4) The trustee shall not, however, be liable to the settlor for acts undertaken pursuant to the settlor's instructions but in violation of the provisions of the trust.

5) In the case of proceedings concerning trust property, the settlor may be heard only in a function equivalent to that of a party, not as a witness, and the objection of *res judicata* shall apply both for and against the settlor and the settlor's legal successors.¹³⁶⁵

IV. Fiduciary authority and duties

1. Fiduciary authority

Article 919

a) In general

1) After the agreement has been concluded, the trustee may demand performance of the agreement by the settlor, unless otherwise provided by the deed of trust.

2) Unless the deed of trust provides otherwise or unless otherwise indicated by the special circumstances, the trustee may, after having accepted the office, demand that the settlor or other legally bound third parties, such as heirs or the like, comply with the terms of the trust.

3) Subject to the trustee's obligations arising from the deed of trust, the trustee shall be entitled to dispose of the trust property in the same manner as an independent holder of rights and duties such as, for instance, an owner, a creditor, a member or governing body of a legal person or partnership or the like, and the trustee may represent the trust property before the authorities and in all proceedings in the trustee's own name as a party, a participant, a co-summoned party, an intervener, and the like. The trustee may also administer and exercise the rights pertaining to the trustee against all third parties pursuant to the deed of trust and, to the extent necessary, convert the trust property into cash and reinvest the same unless the purpose of the trust indicates otherwise.

4) Unless the deed of trust provides otherwise, the trustee may advance to a beneficiary an appropriate part of the assets that will subsequently devolve upon the beneficiary.

5) To the extent that trust duties do not require performance by the trustee personally, the trustee may delegate all administrative acts to third parties.

6) If the trustee is in doubt concerning the admissibility or appropriateness of an administrative act or a disposition concerning the trust

property or unusual acts which create obligations at the expense of the trust or if, where there are co-trustees, one of the co-trustees refuses to cooperate, the trustee shall, to the extent necessary, turn to the Court of Justice by way of special non-contentious proceedings to obtain binding information, and the court may call in suitable persons to assist in the legal findings.¹³⁶⁶

7) Pursuant to the provisions governing the administration of companies with legal personality, the trustee has a right to request discharge relating to the trustee's activity in accordance with the last two paragraphs of the following article.

b) Reimbursement, remuneration etc.

Article 920

aa) Claims

1) The trustee is entitled to claim reimbursement for all necessary expenses and costs incurred by the trustee in the interest of the trust. The trustee is also entitled to be reimbursed for damage arising to the trustee from the trust property, to be released from liabilities entered into in the interest of the trust or otherwise incurred and, furthermore, to appropriate remuneration for the trustee's services, unless otherwise indicated by the deed of trust or other legal relationship between the parties.

2) The trustee may claim interest at the rate which is usual in the country on expenses or costs, calculated from the day on which such expenses or costs were incurred.

3) Unless otherwise provided by the deed of trust or otherwise indicated by the legal relationship between the trustee and the settlor, any claims shall be made in the first place against the settlor and then against the beneficiary entitled to the trust property or the income therefrom.

4) Alternatively, the claims may be made directly against the trust property, under the designation of the trust property pursuant to the deed of trust, or against the trust property and the persons under an obligation as mentioned in the preceding paragraph as joint litigants.¹³⁶⁷

bb) Enforcement

1) Without prejudice to the trustee's right to bring a later claim for enforcement in contentious proceedings, the trustee may petition the Court of Justice to determine the remuneration for the trustee's services in special non-contentious proceedings after the participants have been heard.¹³⁶⁸

2) To settle the trustee's claims, the trustee may be satisfied from the trust property in preference to the beneficiaries, and for this purpose the trustee may also assert an offset against the settlor or beneficiary and a right of retention on the assets of the trust property.

2. *Fiduciary duties*

Article 922

a) In general

1) The trustee is required to comply with the provisions of the deed of trust and the provisions of this Act which are not in contradiction with the deed of trust, to preserve and administer the trust property with the care of a prudent businessperson and, where customary or appropriate, the trustee shall insure the assets against risk.

2) The trustee may not dispose of the trust property in a manner which could adversely affect or frustrate the purpose of the trust.

3) In the absence of any directive to the contrary in the deed of trust or unless an emergency requires urgent measures, co-trustees must act jointly (collectively).

4) Trustees who conduct deposit business in a commercial manner similar to banks must strictly segregate trust property from other assets, to the extent the trust relationship does not indicate otherwise (trust deposits).

5) Special records must be kept by persons conducting trust business in a commercial manner.

¹³⁶⁸ Article 921(1) amended by LGBl. 2010 No. 454.

Article 923

b) Schedule of assets and accounting

1) If a schedule of assets for the trust property has not already been prepared, the trustee shall draw up a separate schedule of assets in accordance with Article 1045(3) and update it annually. The trustee shall ensure that the records and supporting documents are available at the domestic registered office within a reasonable period of time. Article 1059 shall apply *mutatis mutandis* to the management and retention of records and supporting documents.¹³⁶⁹

2) The trustee is required to render accounts annually and to provide information at any time concerning the state of the trust to the audit office provided for in the deed of trust or, in the absence of such audit office, to the settlor or, if the settlor is deceased or is otherwise unreachable, to the beneficiary who has a right of claim and, in the absence of such beneficiary, to the Court of Justice, unless the circumstances necessitate a derogation such as, for instance, in the case of banking trusts, small trusts, or the like.¹³⁷⁰

3) Where the beneficiary entitled to a claim is a partnership or a legal person, the accounts must be submitted and the information disclosed to the partner representing the partnership or to the governing bodies in the case of a legal person.

4) Where the beneficiary or beneficiaries are not legally responsible or if an administrator has been appointed for them, or if submitting the accounts is not feasible on other grounds, the trustee shall submit the accounts to the Court of Justice.¹³⁷¹

5) Repealed¹³⁷²

6) If the trust object is an undertaking subject to the provisions of this Act concerning commercial accounting, the trustee shall be required to comply with such provisions.

¹³⁶⁹ Article 923(1) amended by LGBL 2012 No. 124. This provision shall apply from 1 January 2014. For earlier financial years, see the transitional provisions.

7) Unless the deed of trust provides otherwise, the judge in special non-contentious proceedings may on important grounds order an official audit upon application by an entitled participant. The result of such audit shall be submitted to the court as in the case of legal persons.¹³⁷³

c) Responsibility

Article 924

aa) Breach of trust etc.

1) Where the trustee is in breach of the provisions set out in the deed of trust or of the otherwise relevant provisions of this title (breach of trust), the trustee shall be personally liable to the settlor with the trustee's entire assets or, where the settlor is no longer available, to the beneficiary, pursuant to the principles of the law of contract. The third party acting in bad faith, however, shall be liable for damages to the settlor and to the beneficiary pursuant to the provisions governing torts, but only to the extent that they did not themselves cause the breach.

2) In the case of a breach of trust, co-trustees shall be jointly and severally liable, without limitation, unless the deed of trust provides otherwise, to the extent that they cannot prove that they acted with the care of a prudent businessperson in the supervision of the co-trustee and subject to their right of recourse against the guilty party.

3) Subject to the right of recourse or to the extent the circumstances of the individual trust do not indicate otherwise, the trustee shall also be liable for the acts and omissions of a third party to whom the trustee has delegated the performance of transactions on behalf of the trust or engaged in any other way, such as in the case of a person with registered power of attorney, authorised agent, and the like.

Article 925

bb) Transactions for the benefit of the trustee

1) In the absence of any directive to the contrary in the trust instrument and with the exception of claims for reimbursement and compensation, the trustee is not entitled to draw any benefit from the trust.

¹³⁷³ Article 923(7) amended by LGBL 2010 No. 454.

2) Unless the deed of trust provides otherwise, the trustee is therefore entitled to conclude transactions with the trust property for the trustee's own account such as, for example, renting or leasing trust property for the trustee, using money of the trust assets for the trustee's own business purposes, paying advances to the trustee, appropriating assets of the trust property for the trustee's own account or giving such assets to close relatives or friends, only to the extent that such transactions do not go beyond the scope of orderly administration.

3) Any other transaction which cannot be rescinded shall render the trustee liable for damages to the settlor or the beneficiary, subject to claims against a third party acting in bad faith.

4) Where it becomes apparent that the trustee has mixed money from the trust property with the trustee's own money, the trustee must pay interest on these monies at one and a half times the customary domestic rate and, if the trustee has used these monies profitably in business transactions, the trustee must render account of such business and provide information and deliver in full the share of the profit accruing to the trust property; where the amount of profit cannot be determined, the trustee must also pay interest on such monies at a higher rate, depending on the circumstances (remuneratory interest).

5) Unless the deed of trust provides otherwise, the claims referred to above may be brought by the settlor or, if the settlor is no longer alive or is otherwise unable to act, by the beneficiary and, if a beneficiary does not take action, by a trustee appointed by the Court of Justice in special non-contentious proceedings for the benefit of the trust property.¹³⁷⁴

Article 926

3. Reference etc.

1) The provisions governing agency agreements shall apply *mutatis mutandis* to the legal relationship between the settlor and the trustee insofar as not otherwise indicated by the provisions of this title or the particular purpose of the trust or unless the provisions governing another legal relationship apply on a supplemental basis such as, for instance, in the case of a publishing contract, a service contract, a partnership, or a consignment contract.

¹³⁷⁴ Article 925(5) amended by LGBI. 2010 No. 454.

2) The provisions governing changes to the organisation and the purpose in the case of family foundations shall apply to trusts *mutatis mutandis*.

3) To the extent that the trustee gives a guarantee or surety for the performance of the trustee's duties, the provisions governing guarantees shall also apply.

4) During the existence of the trust, the period of limitation and period of prescription do not operate in favour of the trustee with regard to the trust property.

V. Status of the beneficiary

Article 927

1. In general

1) The beneficiary is entitled to demand execution of the provisions of the trust, to the extent not otherwise provided by the deed of trust and to the extent that such execution is not left to the discretion of the trustee with regard to certain or all of the beneficiaries.

2) Each beneficiary entitled to claim who considers their rights or interests prejudiced by a disposition or an administrative act of the trustee may, in the absence of any provision to the contrary in the deed of trust, request the necessary injunctions from the Court of Justice in special non-contentious proceedings to remedy the deficit.¹³⁷⁵

3) Where an application to the Court of Justice is unjustified, the beneficiary shall be liable to the trustee for costs and damages pursuant to the provisions governing torts.

4) Whether and to what extent a person is a beneficiary must be established in contentious proceedings before the court insofar as the question need not be decided as a preliminary or interposed question in other proceedings.

5) As in the case of establishments, the judge may, by way of a public notice procedure, call upon unknown beneficiaries to present their claims.

¹³⁷⁵ Article 927(2) amended by LGBL 2010 No. 454.

6) The settlor, but not solely the trustee, may also be one of the beneficiaries of the trust, such as, for example, in the case of conditions to be carried out for the benefit of a testator after the testator's death.¹³⁷⁶

7) In the case of public-benefit or similar trusts where there are no beneficiaries entitled to a claim and where nothing else is indicated by the trust instrument, the claims conceded to the entitled beneficiaries in the case of other trusts may be exercised by the representative of public law upon application or *ex officio* at the expense of the trust property or, where there is fault, at the expense of the party at fault.¹³⁷⁷

Article 928

2. Trust certificate

1) The deed of trust may provide that trust certificates on the trust fund shall be issued as securities to the beneficiaries.

2) To the extent that the deed of trust or the nature of the trust does not indicate otherwise – such as in the case of trust certificates on membership rights – the trust certificates provide the beneficiary with a creditor's right to benefit from the trust fund, such as by a share in the income, in the dissolution surplus, and the like.

3) The trust certificates must be in the beneficiary's name, and transferable like registered shares, and a register on them shall be kept by the trustee similar to a share register.¹³⁷⁸

4) The trust certificate shall list the trustee and the individual entitlements, making reference to the deed of trust and the law.

5) The rules governing the community of bond creditors shall also apply to the rights of the trust certificate beneficiaries, with the proviso that a simple majority of certificates shall be sufficient for passing resolutions unless the wording of the certificate provides otherwise at the time of issue.

6) This article is subject to the special provisions on trust certificates such as in the case of legal persons and partnerships, to which the above provisions shall apply *mutatis mutandis*.¹³⁷⁹

2) The Court of Justice shall officiate in this capacity in special non-contentious proceedings and may from time to time at its discretion exercise control over the existence and administration of the trust property and shall keep a directory (trust directory) of the trusts subject to its supervision.¹³⁸²

3) Where any trustee fails to carry out that trustee's duties, the Court of Justice in special non-contentious proceedings may, on application of a trustee or a beneficiary or *ex officio*, after hearing the participants and after prior warning, or without further ado where there are important grounds arising from the trust relationship itself, remove the trustee from office and order the appointment of another trustee or itself appoint such a trustee, subject to a right of appeal against the decision.¹³⁸³

*A. In general**I. Special trust enterprises**1. Description*

§ 1

a) Trust enterprise with and without legal personality

1) A trust enterprise as a business trust without legal personality pursuant to the law is an undertaking managed or further operated on the basis of the trust articles by one or several trustees (as fiduciary owners), under their own name or legal name which, as a legally autonomous undertaking, pursues organised, economic or other objects and is endowed with its own assets, without legal personality, whose liability for its obligations shall be pursuant to this Act (trust enterprise without legal personality), and which does not have any character under public law or any other legal form under private law.

§ 2¹³⁸⁹*b) With divisions, trust funds, or the like*

1) Several trust enterprises pursuant to this Act with the same or different participants may be combined within the same trust articles in such a way that each individual trust forms a division, provided that it is a trust enterprise with legal personality as defined in § 1(2) and the following provisions of this Act (concerning trust enterprises), especially those governing liability, registration, or notification to the Office of Justice and, on a supplemental basis, Articles 243 et seq. shall apply *mutatis mutandis* to the individual divisions ("trust enterprise with divisions").

2) Furthermore, a trust enterprise may, pursuant to the provisions governing trusts in general, take over other trusts operating under a particular name or legal name without the aforementioned types of structure, as a trustee, with the proviso that the trust assets of the individual trust transferred to the trust enterprise or one of its divisions shall be solely liable for obligations arising from legal transactions of this trust, and in legal relations the trust enterprise shall also act for those trusts that have to be identified by their name or legal name.

3) In the absence of provisions to the contrary in the trust articles, it shall be conclusively presumed that a "trust enterprise without legal personality" and with no divisions, hereinafter abbreviated to "trust enterprise", is established.

§ 3

2. Purpose or object

1) A trust enterprise may be formed for any specific, reasonable, and possible purpose that is not unlawful, immoral, or a danger to the State, in particular also for the investment of assets, for the distribution of income, for the consolidation of undertakings by transfer of shares in trust or for acquisition, for family welfare, or for public-benefit, charitable, other personal, non-personal or similar purposes.

4) These provisions shall apply *mutatis mutandis* if, after the drawing up of a deed of trust ordering the formation of a trust enterprise with instructions concerning the purpose and trust fund by means of a transaction *inter vivos*, the settlors or one of the settlors die or become incapable of acting before the execution of the deed of trust, unless the living settlor or the heirs, executors, or the like were to withdraw from the trust transaction in a permissible manner, provided that the trust enterprise at issue does not have a public-benefit, charitable, or similar purpose.

2) Where, pursuant to the deed of trust, a trust enterprise is to be established for the members of a family or otherwise for the benefit of certain third parties and those persons waive the formation of the trust enterprise, whether with or without compensation, the trust enterprise shall not be formed, in the absence of any directive to the contrary.

3) In that case, the provisions governing the distribution of assets in the event of liquidation shall apply *mutatis mutandis* in the absence of any directive to the contrary in the deed of trust or by the persons appointed as entitled beneficiaries.

b) Formation procedure

1) Before the formation of a trust enterprise by the Office of Justice in administrative proceedings, persons with legal interests in the formation and in particular those upon whom the assets would devolve in the event the trust enterprise is not successfully established may be heard by the Office of Justice, and they shall have the right of complaint against the formation and, where applicable, the right of challenge by way of legal proceedings.¹⁴⁰⁶

2) The provisions governing the involvement of beneficiaries for consultation shall apply *mutatis mutandis* to the involvement of persons with legal interests in the formation procedure provided for here.

3) In the case of subparagraph 2 above, the unknown or uncertain entitled or prospective beneficiaries shall be summoned by public notice procedure pursuant to the provisions governing the tracing of beneficiaries, and the Office of Justice, pursuant to the provisions of the Code of Civil Procedure concerning process administrators, shall appoint a special trustee to represent them, at the applicants' expense, who may grant or refuse consent for the unknown or uncertain beneficiaries.¹⁴¹⁷

4) This article is subject to the provisions governing amendment of the deed of trust, conversion, or merger of trust enterprises and the provisions governing changes to the organisation or purpose *ex officio* or the like as well as the claims of a beneficiary whose rights have been violated in accordance with these provisions.

III. Liquidation

§ 19

1. In general

1) Where the undertaking is dissolved for reasons other than opening of bankruptcy proceedings, in particular also as the result of a challenge for any reason, or no other proceedings are provided by law, the provisions governing liquidation in the case of legal persons shall be applicable on a supplemental basis in addition to the following.¹⁴¹⁹

2) Should undistributed assets remain after suspension of insolvency proceedings, liquidation shall not take place, unless other prerequisites are met in this regard, and instead the trust enterprise shall be continued and the relevant entries shall be made in the Trust Register upon application of the participants or, if need be, *ex officio*.¹⁴²⁰

3) In the case of trust enterprises without liabilities towards non-participants, the liquidation may be limited to the collection of any necessary adjustments among the participants, for defrayal of the costs, and for distribution or transfer of the assets to the allottees, without public notice to the creditors or waiting until the end of the prescribed period, and for any necessary notice of cancellation.

4) In the case of the preceding paragraph, the Office of Justice may, however, demand that a distribution or transfer list concerning the assets be submitted.¹⁴²¹

5) This article is subject to other provisions governing exclusion of liquidation, such as in the case of gradual distribution of assets, conversion, or merger.

§ 20

2. Liquidators, time limit, and public notice to creditors

1) The managing trustees shall act as liquidators where the trust instrument does not provide otherwise, or a supreme body which may be formed by all the trustees does not pass a resolution to the contrary, or the Office of Justice, whether upon application of the participants or *ex officio*, does not, on important grounds, determine otherwise in

administrative proceedings, or provided the trust enterprise is not to be subject to official liquidation or liquidation under official supervision.¹⁴²²

2) The period of time after which the assets may be distributed or transferred to the allottees after settling or securing all liabilities of the trust enterprise may, with the agreement of the Office of Justice, be reduced or, on important grounds, waived entirely.¹⁴²³

3) Under the same preconditions, the notice to creditors may be omitted.

4) Upon application by the liquidators, the notice to creditors may be issued by the Office of Justice at the expense of the trust enterprise; in such cases, the Office of Justice shall fix a time limit for registration, with the warning and effect that the assets shall be distributed to the creditors who have registered or are otherwise known and other creditors shall remain unconsidered.¹⁴²⁴

§ 21

3. Distribution of assets

1) Where pursuant to the trust instrument or the law, certain claims against the assets are granted, the assets shall be distributed, without conversion into cash where possible, to the allottees or their universal successors, otherwise, in the event of the directive being lacking or inadequate, the provisions governing beneficial interest shall apply *mutatis mutandis* and, on a supplemental basis, those governing the appropriation of assets for legal person.

2) In the case of family trust enterprises with a special succession arrangement, the allottees shall be designated in the event of the trust enterprise being terminated or the family concerned or the group of beneficiaries dying out, otherwise the provisions applicable to entailed estates governing lapse of the assets to the State shall apply *mutatis mutandis*.

3) With regard to the implementation of the termination and the provisions governing lapse of the assets to the State, the representative of public law may, in case of doubt as to the availability of beneficiaries, apply to the Office of Justice for proceedings to trace beneficiaries.¹⁴²⁵

4) Where satisfaction is sought from the available assets remaining undistributed after the trust enterprise has been terminated, the period of limitation of three years following the distribution or transfer of assets may not be asserted against an allottee.

D. Trust fund

§ 22

I. In general

1) The minimum value of the trust fund must be 30 000 Swiss francs. If the entry in the Commercial Register is made in euros or US dollars, the value of the trust fund must be at least 30 000 euros or 30 000 US dollars.¹⁴²⁶

2) Unless ruled out by the trust articles, the trust fund may be increased by successive contributions, made in whole or in part, by the old or newly joining settlors against a written declaration of membership, or reduced by gradual distribution.

3) Each year at the end of a calendar year, if an increase or reduction of the trust fund as such has taken place in this manner, the managing trustees of the enterprises entered in the Trust Register shall provide the Office of Justice with a statement of the changes to the trust fund which have taken place during the year for the purpose of correcting the entry concerned, without announcement of this entry being required.¹⁴²⁷

4) In the event that all the trustees are jointly and severally liable, without limitation, for all the liabilities of the trust enterprise pursuant to the provisions applicable to registered cooperative societies, this provision may be included in the trust articles and also in the registration for the Trust Register in lieu of the information concerning the trust fund.

§ 23

II. Securities in particular

1) Where securities relating to the beneficial interest are issued for payments to the trust fund, the trust articles must contain a provision to avoid the consequences of any issuance of securities contrary to provisions.

2) If securities are to be issued below the nominal value or otherwise in such a manner that their total issue amount is not equivalent to the total estimated value of the trust fund, this shall require approval by the Office of Justice; the provisions governing the issuance of shares below the nominal value shall apply *mutatis mutandis*.¹⁴²⁸

3) The provisions governing securities in the case of beneficial interest shall apply *mutatis mutandis* to the securities and their holders, in particular with regard to default.

§ 24

III. Liability and default

1) Unless otherwise provided by the trust articles and subject to torts or special arrangements, the liability of several settlors as such shall not be joint and several for the obligations entered into by virtue of the formation of the trust enterprise.

2) Where a person takes over obligations, combined with a beneficial interest, pertaining to performances in favour of the trust fund, and the transferors, but not the managing trustees as such, know at the time of the takeover that the person is insolvent, the transferors as well as the transferee shall be jointly and severally liable, without limitation, for the performance default.

3) Repealed¹⁴²⁹

4) To the extent that the settlors' performances for the trust fund or other funds are not completely fulfilled, the settlors shall be liable in the case of default, notwithstanding the admissibility of provisions relating to the default clause, the loss of all rights as a beneficiary, or the like, equivalent to a debtor under the law of obligations.

5) The provisions governing performance default in the case of beneficial interest shall apply *mutatis mutandis*.

E. Trust assets

§ 25

I. In general

1) To the extent no derogations arise from the provisions governing trust enterprises, the provisions governing trust property under trusts in general shall apply on a supplemental basis to trust assets as separate property.

2) The rules applicable to foundations shall apply on a supplemental basis to the transfer of assets before and after the trust enterprise comes into existence.

3) Where under certain conditions the settlor has provided for the reversion of the trust property to the settlor or the settlor's descendants or for devolution upon a third party, this may take place, in the event that the reverting or devolving trust property is a part of the trust fund, only without prejudice to the provisions governing the liability of the undertaking for the obligations towards *bona fide* third parties (the right of reversion or devolution).

4) Otherwise, however, the right of reversion or devolution in the case of real estate or limited rights *in rem* to such may, upon application by participants, be noted or reserved in the Land Register to the extent that entries similar to Land Register entries are admissible in other public registers for other pieces of property.

5) This article is subject to the provisions governing trust funds *mutatis mutandis*.

II. Separation and distribution of assets and yield

§ 26

1. In general

1) Repealed¹⁴³⁰

¹⁴³⁰ Article 932a § 26(1) repealed by LGBL 2000 No. 279.

2) If, pursuant to the trust instrument, the net yield or part thereof or assets are to be distributed annually or at shorter or longer intervals to the beneficiaries as income, the managing trustees shall, in the absence of other directives, determine at their equitable discretion, taking as a basis the rules applying to an orderly earnings management and, on a supplemental basis, those concerning usufruct, what shall be entered in the income statement (profit and loss statement) as usufruct, charges, expenses, and the like and what shall be entered in the trust assets account including gains and, where applicable, the period of time between the distributions of the net yield.

3) Where trust enterprises are operated only in a commercial manner, any income to the beneficiaries shall be distributed after completion of each calendar year on the basis of an annual balance sheet and, in case of doubt, in equal shares to be determined by the managing trustees, in the absence of any directive to the contrary.

4) Where, in the case of a trust enterprise, some beneficiaries are entitled to yields and others to distribution of the trust property, or where a succession arrangement is established with regard to the beneficial interest, yields may in particular not be paid out to beneficiaries in lieu of asset components or, conversely, asset components in lieu of yields, such as in the case of fictitious yields, value added purely in accounting terms to permanent investments belonging to the trust assets, and the like.

5) Where, in the case of a trust enterprise with defined claims to beneficial interest, the yields or asset components to be distributed are determined in a non-contestable manner by the trustees or other competent bodies, the parties entitled shall acquire unconditional creditor's rights.

§ 27

2. *Gradual distribution*

1) A gradual distribution (transfer) of trust assets among beneficiaries, such as the payment of a redemption sum resulting from cancellation, exclusion, or the like, or payment of interest or amortisation or re-acquisition of beneficial interests by means of trust assets without liquidation, may be performed, with otherwise unlimited joint and several responsibility of the acting trustees and asset recipients and subject to the obligation on the part of the latter to make restitution to any injured creditors and beneficiaries or to trustees called upon for this purpose, only to the extent that the liabilities of the trust enterprise towards third parties and other beneficiaries are still secured by the available assets, unless a

person having knowledge of the inadmissible distribution has become a creditor or a beneficiary.

2) Where, as the result of amortisation, re-acquisition, declaration of forfeiture, or for other reasons, all beneficial interests devolve to the trust enterprise which continues to exist, it shall be further determined in the trust instrument who, if applicable, shall receive the earnings from yields and assets, otherwise the provisions governing the lapse of assets to the State under the general provisions on legal persons shall apply *mutatis mutandis*.

3) Where the deed of trust empowers a person to dissolve the undertaking, that person shall, provided the circumstances do not indicate otherwise, also be authorised to dissolve it in part by ordering the gradual distribution of the assets to the allottees pursuant to the trust instrument or the law.

III. Administration of assets

§ 28

1. In general

1) Within the scope of the law and the trust instrument, the trustees shall ensure the orderly administration and preservation of the legal and economic aspects of the trust assets and shall in particular ensure, to the extent that the nature of the business, the circumstances, and the achievement of the purpose allow, that the trust assets come into the possession of the enterprise, that they are not mixed with the trustees' own assets, and that insecurely invested assets are redeemed and appropriately invested.

2) Moreover, there shall be an obligation to preserve, improve, and insure trust assets to the extent required by proper implementation of the purpose of the trust enterprise or the object of the undertaking in accordance with the law or trust instrument or, even contrary to the trust instrument by virtue of the law, by the principles of good business management, having regard to the circumstances.

3) The trustees may at their own discretion advance asset components, against or without security, to those beneficiaries entitled to a claim to the trust assets to be distributed at a later date; those beneficiaries shall have the capacity of debtors up to the time when the assets are to be transferred to them. However, where there are several beneficiaries, this shall be

permissible only insofar as the claims of other beneficiaries or third parties, in the absence of their assent, are not violated thereby.

4) In the case of family trust enterprises for the purpose of maintenance, childraising, education, or the like, the Office of Justice may, upon application of the participants and on important grounds, provided the trust instrument does not indicate otherwise, order that advances be granted accordingly.¹⁴³¹

5) Repealed¹⁴³²

§ 29

2. Alienation and encumbrances

1) Where, in the case of trust enterprises without business operations, the trust assets and the yield are, pursuant to the trust instrument, inalienable or alienable only to a limited extent within a certain family or category of persons or may be encumbered with such restrictions, the restriction may be noted or reserved as a restraint on disposal on the items of property entered in the Trust Register and in the Land Register or in other public registers in which the entries have a similar effect to entries in the Land Register.

2) Repealed¹⁴³³

3) Within the framework of the purpose or object of the enterprise and also by virtue of the law, the trustees shall be authorised to alienate or encumber the trust assets including the yield: in the case of rapidly consumable or perishable items of property whose proceeds take the place of the item; in order to pay off liabilities of the participants, to the extent that trust property may be used for that purpose; in the event that the beneficial interest is not without valuable consideration in accordance with the trust instrument, with the consent of all entitled beneficiaries, and where applicable all prospective beneficiaries, but otherwise also with the assent of the settlors or their direct universal successors; or with the assent of the Office of Justice on important grounds, such as concerning disposals which serve public purposes, or the preservation or improvement of trust property, with the proviso that the rights of the

creditors concerned must take precedence over the rights accruing from the beneficial interest pursuant to the order of the Office of Justice.¹⁴³⁴

4) Pure and mixed gifts or other similar transfers without valuable consideration as well as the existence of a liability charged against the trust enterprise or the non-existence of a claim to the detriment of the trust enterprise, acknowledged without legal reason, may be undertaken by the trustees only to the extent that the trust instrument allows or is customarily called for as a moral duty or having regard to the observance of propriety.

5) This article is also subject to claims for damages and other measures permissible by law against the trustees and other persons at fault, as well as provisions governing *bona fide* acquisitions for valuable consideration, the restriction of liability, and encumbrance by virtue of the law.

§ 30

3. Claim to surrender and enrichment

1) Where a trustee or a representative of the trust enterprise wrongfully alienates trust property contrary to the trust instrument or the law, each of the other trustees or entitled beneficiaries or prospective beneficiaries shall have the right to trace the trust property and, after informing the managing trustees, may, in accordance with the rules of possession, reclaim the trust property on behalf and in favour of the trust enterprise, insofar as the trust property has not been acquired in return for reasonable payment by a third party who had no knowledge of the fiduciary character at the time of acquisition.

2) Any person who, pursuant to the preceding paragraph, is under an obligation to surrender but is no longer in a position to do so shall, in accordance with the rules of possession, in the case of the person's bad faith, surrender to the trust enterprise all that which has taken the place of the trust property, in return for the reimbursement of the person's performance or the value, but in the case of the person's good faith, where the acquisition is without valuable consideration, only inasmuch as the person is still enriched.

3) Where trust property has been wrongfully included in compulsory execution or insolvency proceedings, each trustee, entitled beneficiary, or prospective beneficiary may demand the surrender of the trust property or the substitution which has taken its place, pursuant to the preceding

¹⁴³⁴ Article 932a § 29(3) amended by LGBL 2013 No. 6.

and other provisions, in favour of the trust enterprise, and take the permissible measures, in particular an action against execution.¹⁴³⁵

4) The preceding provisions shall apply *mutatis mutandis* to the wrongful encumbrance of trust property or the wrongful imposition of an obligation on the trust enterprise, subject to the provisions governing restriction of liability of the trust enterprise as well as those governing transactions in favour of the trust enterprise itself and other provisions, such as those governing responsibility.

5) In the case of unsuccessful compulsory execution (issuance of a loss certificate) against the trust enterprise, the injured creditors or, in the case of insolvency proceedings, the insolvency administrator shall be authorised to assert the claim to surrender or enrichment, insofar as the creditors concerned did not take part in the unlawful alienation.¹⁴³⁶

§ 31

4. Asset investment

1) Unless otherwise indicated by the purpose of the trust enterprise or unless an express provision concerning the investment or deposit of trust property is contained in the trust instrument (investment clause), the trustees may decide by a simple majority to invest the trust assets safely and profitably, in particular also available yields, up to the time of the assets' distribution, pursuant to the provisions governing trusts in general.

2) An asset investment which pursuant to the law or trust instrument is inadmissible may be converted by the trustees at any time into an admissible investment, unless all entitled beneficiaries or other competent body approve it.

3) Where the conditions for the appointment of a fiduciary counsel are met or on other important grounds, the Office of Justice may, upon application of participants, or *ex officio* where applicable, order that the trustees shall invest or deposit the trust assets or individual parts thereof with the Landesbank or other suitable institution or that debtors of the trust enterprise may fulfil their liabilities with legal effect only by performance at the same or another institution determined by the Office of Justice.¹⁴³⁷

¹⁴³⁶ Article 932a § 30(5) amended by LGBl. 2020 No. 369.

¹⁴³⁷ Article 932a § 31(3) amended by LGBl. 2013 No. 6.

4) Where a debtor of the trust enterprise has important grounds for assuming that the trustees will commit a breach of trust with the money to be paid by the debtor, the debtor may also with legal effect make the payment of this debt to the Landesbank in favour of the trust enterprise.

§ 32

IV. Costs

1) The costs accruing from the coming into existence and termination of a trust enterprise as well as trust management, trust supervision, trust monitoring and from the activities of other persons or bodies appointed pursuant to the law or the trust instrument for the performance of such activities shall, in the absence of any provision of the law or the trust instrument to the contrary, be defrayed from the yield from the trust property or, if necessary, from the trust property itself.

2) Where culpable conduct on the part of a person or body is at issue, and if, in particular, an action or an omission is demanded without reason by a person authorised in this regard, the costs shall, in the absence of any directive to the contrary, be borne by the person at fault.

3) Where an authority intervenes upon application or *ex officio* pursuant to the law or the trust instrument, and no person is at fault or something else is ordered, the costs shall be charged to the income statement, and where a yield does not exist or is inadequate, to the statement of the trust assets.

§ 33

V. Reserve fund and other reserves

1) In the absence of any directive to the contrary and unless otherwise indicated by the purpose of the undertaking, such as in the case of liquidation trusts, the trustees shall be empowered to establish appropriate reserve funds as a safeguard against losses, devaluation, or sustainable yield capacity or the like and to provide a corresponding entry on the liability side of the balance sheet.

2) To the extent required by the preservation of the assets, such as in the case of devaluation or the like, as well as in the case of enterprises with commercial operations, the trustees shall be under obligation to establish appropriate reserves, unless important grounds justify an exception.

3) In the case of trust enterprises with commercial operations, the trustees shall, in the absence of any directive to the contrary, allocate one tenth of the net yield annually to the reserve fund for the purpose of covering balance sheet losses until that reserve fund amounts to one tenth of the trust assets.

4) Income which is due to available beneficiaries, but has not been drawn upon within three years of the due date, and also income which becomes due during an interim period up to the latest legally binding bestowal (intercalated beneficial interest) shall be allocated to the reserve fund for balance sheet losses or, in the case of undertakings without commercial operations, for accounting losses.

5) Similarly, any fines or the like set out in the trust articles that are payable by participants for non-attendance of meetings or for late arrival at such meetings or for other reasons, which fines or the like, in the case of doubt, shall be subject to the provisions governing contractual penalties, as well as, in the absence of any directive to the contrary, other asset components released when individual beneficiaries are no longer available, shall be allocated to the reserve fund.

6) The provisions governing the reserve fund in the case of public limited companies shall apply *mutatis mutandis* with the proviso that the reserve fund for balance sheet or accounting losses shall, as far as possible, be invested in readily realisable, safe securities.

§ 34

VI. Accounting

1) To the extent not otherwise provided for a trust enterprise not operated in a commercial manner, managing trustees shall, from the time of coming into existence, observe the provisions of this Act and the provisions governing trusts in general relating to schedules of assets and accounting, and shall keep accurate, regular, clear, and appropriate accounts, accompanied by supporting documents if necessary, separate from other records, or, if they are not able to do so themselves, have these accounts kept by others.

2) To the extent that an enterprise is operated in a commercial manner (as a business), the provisions of this Act and, on a supplemental basis, those governing commercial accounting shall be observed, in the same manner as an establishment with commercial business, and otherwise the managing trustees shall bear responsibility from the time the trust enterprise comes into existence.

3) This article is subject to the provisions governing the official audit.

§ 35

F. Challenge and right of redemption

1) The provisions governing challenges to trusts in general shall apply to challenges to the formation or amendment of a trust enterprise; however, the claims of *bona fide* creditors accruing up to the time of final cancellation shall in all cases take precedence over the claims of the challenging parties.

2) Where, on the basis of the trust instrument, the settlors are at the same time the sole persons entitled to benefit from the alienable and transferable beneficial interest, with or without membership, a challenge on the part of the settlors or their creditors or on the part of the receiver or administrator after formation shall be admissible only pursuant to the provisions pertaining to membership under the general provisions on legal persons.

3) Where, within the last five years before the initiation of insolvency proceedings relating to the settlor's assets or before the implementation of unsuccessful compulsory execution from the settlor's assets, a trust enterprise was established without valuable consideration in favour of third parties or, in this manner, assets were otherwise transferred to the enterprise, the trust enterprise shall, in the event that the creditor of the settlor or the insolvency administrator shows that the settlor concerned was insolvent after separation of the assets transferred to the trust enterprise, and without prejudice to the *bona fide* rights acquired for valuable consideration by participants or third parties in the meantime, be liquidated in favour of the settlor's creditors by order of the execution authority only where the satisfaction of the creditor, on the basis of a liquidation balance sheet drawn up for this purpose, cannot be achieved appropriately in another manner.¹⁴³⁸

4) Where, on the basis of a legal transaction, a person has become a creditor of the trustee, although that person had knowledge of the insolvency at the time of the formation, a challenge by that person or by that person's insolvency administrator shall be excluded.¹⁴³⁹

5) The settlor's spouse, registered domestic partner, or descendants may, within a period of time determined by the Office of Justice and,

¹⁴³⁸ Article 932a § 35(3) amended by LGBL 2020 No. 369.

where applicable, in a manner determined by the latter, assert the right of redemption against the creditors or the insolvency administrator after payment of the amount demanded, which at most may amount to a fair and reasonable sum determined on the basis of a liquidation balance sheet.¹⁴⁴⁰

6) Where a settlor or one of several settlors is insolvent, this provision governing the right of redemption shall apply *mutatis mutandis* with the proviso that after the spouse, registered domestic partner, or descendants, the beneficiaries shall also be entitled to the right of redemption within a period of time to be determined by the Office of Justice and, where applicable, in the manner directed by the latter.¹⁴⁴¹

7) Where a settlor forms a trust enterprise in the capacity of trustee of another trust or in fulfilment of another obligation towards a third party who, without valuable consideration, has made assets available to the settlor for this purpose, the preceding provisions governing the creditors or the insolvency administrator and governing the right of redemption shall apply *mutatis mutandis* to the settlor of the other trust enterprise or the third party concerned (indirect settlorship) or to their spouse, registered domestic partner, or descendants.¹⁴⁴²

8) This article is also subject to the provisions governing the revocation of the beneficial interest and the breach of duty to support.

G. Liability for the obligations of the trust enterprise

§ 36

I. By operation of the law

1) To the extent that the law does not provide otherwise, only the trust fund stated in the trust articles and any further assets of the trust enterprise shall be liable for the obligations of the trust enterprise towards third parties, and a personal liability on the part of the participants shall not exist, unless the liabilities of the trust enterprise are, at the same time, the liabilities of all the participants or of individual participants.

2) Where in the exercise of their fiduciary authority, the trustees cause losses to *bona fide* third parties by intentional deception on the pretext that, contrary to the trust instrument, there exists a liability or additional

¹⁴⁴⁰ Article 932a § 35(5) amended by LGBl. 2020 No. 369.

¹⁴⁴¹ Article 932a § 35(6) amended by LGBl. 2013 No. 6.

¹⁴⁴² Article 932a § 35(7) amended by LGBl. 2020 No. 369.

performance obligation extending beyond the trust property, or that the trust assets are greater than they are, or the like, the acting trustees shall be jointly and severally liable, without limitation, for the losses suffered in this connection by the third party, subject to their right of recourse to the trust enterprise or other persons, to the extent that the trust enterprise or other persons have become enriched thereby or have derived other benefit.

3) Moreover, in the case of a trust enterprise with commercial operations, the managing trustees shall, in the absence of any directive to the contrary, be jointly and severally liable for a period of six months after the date when the salaries and wages of the workers and employees are due for the amount no longer retrievable from the trust enterprise for this period of time.

4) Trustees who, in the exercise of their fiduciary authority, or a governing body or other representative appointed pursuant to the trust articles which, in the exercise of their representational activity, perform a tortious act or omission shall, in addition to the trust enterprise, be jointly and severally responsible, without limitation; the relevant provisions governing legal persons shall apply *mutatis mutandis*.

5) To the extent that no derogations arise from the provisions governing trust enterprises, the provisions governing trusts in general shall apply *mutatis mutandis* in regard to the legal position of the creditors of the trust enterprise in proceedings to secure rights, compulsory execution proceedings, or insolvency proceedings.¹⁴⁴³

6) In the case of trust enterprises with divisions or with specifically separated trust funds, each division or each fund shall, in the absence of any other directive in the law and insofar as mutual claims do not require otherwise, occupy a special position in such a procedure, equivalent to that of an independent trust enterprise.¹⁴⁴⁴

II. By operation of the trust instrument and other transactions

§ 37

1. Extension of liability

1) It may be determined in the trust articles that also the other trust assets, not contained in the enterprise as a trust fund or otherwise from a

¹⁴⁴³ Article 932a § 36(5) amended by LGBL. 2020 No. 369.

¹⁴⁴⁴ Article 932a § 36(6) amended by LGBL. 2014 No. 362.

trust to which the enterprise itself belongs, shall be liable for its obligations.

2) Where assets are transferred to the enterprise for the trust property, and where liabilities towards third parties are attached to those assets, for example in the case of shares which are not fully paid up, the trust instrument or the relevant declaration of membership may provide that the transferors remain personally liable for the obligations, solely or in addition to the undertaking, unless the legal relationships with the third parties do not indicate otherwise.

3) Furthermore, the trust articles may, without it being possible or permissible to establish membership thereby, unless exceptions are admitted in this regard, direct that individual or all participants or third parties, with application *mutatis mutandis* of the provisions for registered cooperative societies, shall have limited liability or limited additional performance obligations for the liabilities of the enterprise towards third parties, for the adjusting amounts among those who are liable or who have additional performance obligations, and for the defrayal of costs, or that individual or all trustees in the case of undertakings operated in a commercial manner shall be jointly and severally liable, without limitation, or have additional performance obligations.

4) The provisions governing the enforcement of liability or additional performance obligations in contribution proceedings may, in the trust articles, also be declared to be applicable outside the cases determined by law.

5) In the case of an undertaking operated in a commercial manner, the provisions governing liability or additional performance obligations as well as any amendments thereof must be registered in the form of an excerpt in the Trust Register, entered there, and published, otherwise they shall be deemed null and void.

6) The provisions governing the directory of cooperative society members with liability or additional performance obligations and the provisions governing the list of members in the case of registered cooperative societies shall, where applicable, apply *mutatis mutandis* in the case of trust enterprises with commercial operations to the directory of beneficiaries and to the list of participants as referred to here.

§ 38

2. Restriction of liability

1) In the case of a trust enterprise without commercial operations that does not undertake any other business, the trust articles may include the provision, to be registered for entry with the Trust Register, that private liabilities which are valid for the enterprise after formation, apart from claims arising from torts, may be incurred only with the assent of a special governing body or of the next prospective beneficiaries or third parties, or that a private creditor may seek satisfaction only from assets which do not form part of the trust fund or only from the income or neither from the trust property nor from the yield, as long as the trust enterprise has not been terminated.

2) In the case of items of the trust assets which are entered in the Land Register or in another public register in which the entries have a similar effect to entries in the Land Register, such a restriction may be entered as a reservation or notation, or it may be entered in the Land Register as a debt limit or real security with a restriction on the yield from the trust property concerned.

3) Where neither the trust property nor the yield may be encumbered by way of a legal transaction or no valid liabilities may be incurred by the managing trustees, other bodies, or persons at the expense of the enterprise, the trustees exercising fiduciary authority or other representatives of the trust enterprise shall be jointly and severally liable, without limitation, if they fail to expressly draw the attention of the *bona fide* third parties with whom they are dealing to these restrictions, subject to claims against the trust enterprise on grounds of possible enrichment.

4) Repealed¹⁴⁴⁵

*H. Participants**I. Joint provisions*

§ 39

1. Kinds and regulation of legal position

1) In the absence of provisions of the law or trust instrument to the contrary, the settlors, trustees, and beneficiaries, including the prospective beneficiaries, shall be deemed to be participants, irrespective of gender

¹⁴⁴⁵ Article 932a § 38(4) repealed by LGBL 2020 No. 369.

and, where nothing to the contrary arises from the law or the trust instrument, the participants occupying the legal position in each case, or individual kinds thereof, in the singular or plural.

2) To the extent that, within the meaning of individual provisions, persons other than settlors, trustees, or beneficiaries are members of governing bodies or other bodies or such persons are entitled to rights and duties, in particular a liability or an additional performance obligation for the liabilities of the trust enterprise, they shall, in this regard, also be deemed to be participants (irregular participants).

3) The deed of trust or the trust articles may provide rules governing the legal relationship of the participants with the trust enterprise, with each other, and with third parties, within the scope of the law, in a special regulation (bylaws) signed by the managing trustees or other competent bodies, which, to the extent it contains facts or circumstances which require registration, must be submitted to the Trust Register, either in the form of a notarised excerpt or the original.

4) To the extent a participant is entitled to a right and, in particular, to a prospective beneficial interest, each such participant shall be permitted to inspect the trust instrument, provided and to the extent that the documents concerned are not deposited with the public register office serving as the Trust Register office, and such participants may at their own expense make copies of the documents (articles, regulations, and the like) or, if they are duplicated, demand, with appropriate reimbursement of the duplication costs, that copies be supplied.

§ 40

2. Rights and duties in particular

1) With regard to their rights and duties in relation to the trust enterprise, each other, and third parties, the provisions of the trust instrument shall, within the scope of the law, apply primarily, followed in priority by the provisions governing trusts in general and also – on a supplemental basis and provided it is not determined otherwise as the result of the absence of membership, the nature of the trust, or the position of the participants – general provisions governing membership of legal persons.

2) Where a person occupies the position of a trustee (co-trustee) and a beneficiary (co-beneficiary) simultaneously, the duties of a trustee shall take precedence.

3) Where, apart from possible contributions to the trust fund or liability or additional performance obligations, one or several participants commit themselves in writing, in the trust instrument or otherwise, to recurring cash or other payments (acts or omissions), in particular also to payments relating to cartels or corporate groups, the relevant provisions governing limited liability companies shall apply *mutatis mutandis*.

4) Insofar as the prerequisites for this exist, documents enforceable by execution may also be drawn up concerning the obligations of the participants or third parties in relation to the trust enterprise, such as contributions to the trust fund or the like or concerning the obligations of the trust enterprise towards participants, subject to the rights of the creditors.

5) Should the timely exercise of a right by a participant be endangered, the competent authority may also, upon demand of the participant, proceed by taking protective measures.

6) Where, pursuant to the law or the trust instrument, rights are granted to or duties are imposed upon a participant in relation to another participant, this other participant shall, in the absence of rules to the contrary, have corresponding duties and rights in relation to the first participant.

3. Organisation

§ 41

a) In general

1) The trust instrument may set out in more detail the legal relationship among the participants or among the individual groups of participants such as, for example, between the trustees and the beneficiaries, by creating an organisation, and set out the rights and duties of these organised participants, such as the joint assertion of rights vis-à-vis the trust enterprise or other participants or the like.

2) Where such an organisation is provided without more explicit detail or with shortcomings, the general provisions on the supreme bodies of legal persons, and especially the provisions governing minority rights, shall in case of doubt be applied *mutatis mutandis*, to the extent no derogation arises from the nature of the trust or the absence of membership.

3) Even where the trust instrument does not make provisions for an organisation, groups of participants who are in the same legal position may

create such an organisation by means of bylaws or the like signed by them or under a legal form provided otherwise in the law. However, provisions drawn up in this manner may not contravene mandatory laws, the settlor's directives, the trust articles, or public order or morals, otherwise they shall be deemed null and void.

4) To the extent that resolutions of governing bodies may, pursuant to the applicable provisions, be challenged or repealed *ex officio*, the proceedings shall be expedited.

§ 42

b) Resolutions and membership

1) Where pursuant to the law or the trust instrument, the participants or third parties have the right to elect or vote or both, and it is not determined to the contrary, each person entitled to vote shall have one vote and, if securities are issued, each security shall have one vote in the event of elections and resolutions. The general provisions governing the right to vote and resolutions for legal persons shall apply *mutatis mutandis* on a supplemental basis.

2) Where a certain number of participants register to take part in the passing of a resolution of the supreme body or in this manner and for this purpose deposit voting securities, but owing to an unforeseen or unavoidable circumstance are prevented from taking part and the result of the resolution would have been different if these participants had taken part, these participants may, within ten days after the passing of the resolution, by casting their vote by means of a substantiated petition to the trust enterprise and the Office of Justice, demand from the latter, at their own expense, the proposed amendment of the resolution (subsequent amendment of a resolution) in administrative proceedings, after hearing the trust enterprise, the supreme body concerned or the like.¹⁴⁴⁶

3) However, legal acts executed in the meantime pursuant to the earlier resolution by the competent party in relation to *bona fide* third parties shall remain legally effective, without prejudice to any claims of parties unable to take part arising from responsibility or the taking of other admissible measures.

4) In the case of an organisation with the right to vote, which passes its resolutions with a majority, the majority of the participants concerned

¹⁴⁴⁶ Article 932a § 42(2) amended by LGBL 2013 No. 6.

may not, in their position as implied trustees vis-à-vis the minority, violate the interests of the trust enterprise to the detriment of the minority or public morals.

5) In accordance with the provisions governing the supreme body of legal persons, conflicting resolutions may be repealed, and the participants concurring with the majority shall be jointly and severally liable to the trust enterprise and/or the injured participants belonging to the minority, pursuant to the provisions governing torts, for all the damages accruing to the trust enterprise and/or the individual participants.

6) Membership as in the case of legal persons with members may be validly granted to the participants only with the assent of the Office of Justice.¹⁴⁴⁷

§ 43

c) Supervisory trust body¹⁴⁴⁸

1) To the extent prescribed in the general provisions on legal persons or if specifically provided in the trust instrument, an audit office shall be established to whom the provisions governing the audit office, whose members if any may not at the same time be managing trustees, under the general provisions on legal persons shall apply *mutatis mutandis*, unless otherwise provided.¹⁴⁴⁹

2) The trustees or other bodies or persons competent by virtue of the trust instrument may register the members of the audit office for entry in the Trust Register with a statement of their last names, first names, profession, and place of residence or (company) name and domicile.¹⁴⁵⁰

3) However, provision may also be made in the trust instrument for a supervisory board to serve as the supervisory trust body, comprised of one or several participants or third parties. To the extent the general provisions on legal persons prescribe a mandatory audit office, such a supervisory board may be provided additionally alongside the audit office.¹⁴⁵¹

4) Unless otherwise entailed by the law, the provision governing the responsibility of the audit office under the general provisions on legal

persons shall apply *mutatis mutandis* to the members of the supervisory trust body.¹⁴⁵²

5) This article is subject to an order providing for an official trust supervision office and an official audit.¹⁴⁵³

§ 44

4. Period of limitation

1) To the extent not otherwise determined by law or law as a whole is not concerned, individual claims of the trust enterprise against participants who are not trustees or are no longer trustees shall be subject to a period of limitation of three years after they become due.

2) Individual claims of the participants as such against the trust enterprise shall be subject to a period of limitation of three years after they become due in favour of the trust enterprise, if law as a whole is not concerned or if it is not determined otherwise.

3) Claims of the participants against each other arising from the trust relationship, to the extent they are not against active trustees and subject to the provisions on responsibility, shall be subject to the same period of limitation after they become due.

4) These provisions are without prejudice to shorter periods of limitation and, in the case of offences under criminal law and special provisions of this act, any longer periods of limitation.

5) The provisions governing statutes of limitations shall apply *mutatis mutandis* to irregular participants.

5. Legal venue, court of arbitration, and procedural standing of participants

§ 45

a) In general

1) The provisions governing domicile and legal venue under the general provisions on legal persons shall apply *mutatis mutandis* to the legal and administrative venue relating to the participants as such.

¹⁴⁵³ Article 932a § 43(5) amended by LGBL 1980 No. 39.

2) To the extent that the law has not established mandatory provisions, the trust instrument may provide for an impartial court of arbitration or a conciliation board of that kind for all participants' disputes with each another and with the trust enterprise or for the one or the other, analogous to domestic or foreign law, regardless of whether the participants concerned have signed the trust instrument or not.

3) The final decisions of such a court of arbitration are enforceable in the same manner as the judgment of a domestic court, to the extent the decisions do not violate public order and morals.

b) Procedural standing of participants

§ 46

aa) In general

1) In legal and administrative matters including administrative disputes of the trust enterprise as well as of all participants or groups (classes) of participants as such, every other participant with a legal interest, including prospective beneficiaries may, at their own expense, in the absence of any broader directive, appear as interveners, or in the same capacity, jointly with one of the parties, and in the absence of entitled and prospective beneficiaries, the representative of public law may appear in the same way at the expense of the trust enterprise; but where the law admits participant minorities as a party in the same way as member minorities in the case of legal persons, the participants belonging to this minority may, at their own expense, appear on one side or the other.

2) Where in official proceedings all or individual participants are to be taken into consideration, whose existence or abode or name is unknown or uncertain, the Office of Justice may, in order to safeguard the interests of the participants concerned, following a public notice procedure or without the latter, upon application of participants or third parties with a legal interest or *ex officio*, appoint a procedural trustee who may appear or be held responsible, alone or jointly with other participants.¹⁴⁵⁴

3) If a participant is no longer available, the remaining participants or the procedural trustee appointed by the Office of Justice in accordance with the preceding paragraph may continue the already commenced proceedings or other official proceedings, as a rule without interruption.¹⁴⁵⁵

¹⁴⁵⁴ Article 932a § 46(2) amended by LGBL 2013 No. 6.

¹⁴⁵⁵ Article 932a § 46(3) amended by LGBL 2013 No. 6.

4) To the extent that a decision issued against the trust enterprise or against all participants or groups of participants is also binding for or against one participant, that participant or the opposing party shall be entitled to enter an objection of *res judicata* against later proceedings or against a later decision concerning the same matter, provided the law does not determine otherwise.

5) Where upon application of participants, third parties or *ex officio* the Office of Justice is called upon to intervene, it shall, unless important grounds exist, such as imminent danger and the like, if possible, hear the managing trustees and other participants with a legal interest or, where applicable, a trustee or representative officially appointed for this purpose, before issuing a decree or announcing a decision.¹⁴⁵⁶

§ 47

bb) Virtual representation

1) Moreover, one or several participants may, with the assent of the authority concerned, initiate official proceedings for other participants who, for some reason, are unknown or uncertain, but have a shared legal interest, or they may appear on one side or the other in such proceedings, where the unknown or uncertain participants are numerous.

2) These last mentioned participants may cite the issued final decision insofar as no detrimental intention or disadvantageous understanding whatsoever exists between the participants taking part in the proceedings and the opposing party, or the interests of the appearing party were not in conflict with those of the others who may derive rights from the decision.

§ 48

6. Standing of the defendant

1) Where the provisions governing the supreme body do not determine otherwise with respect to all participants or groups of participants, or the trust instrument or the provisions governing virtual representation or other provisions of the law do not determine otherwise with respect to the assertion of rights of the trust enterprise or of all participants or groups of participants, and where such a right has not been asserted by all the participants and not to the full extent for the trust enterprise or for all of them, or it was not desired or not possible to realise or fully realise the

right on grounds arising from the person (company or legal person) who appeared as claimant in the proceedings, such as due to acknowledgement, waiver, default of appearance, offset, or the like, or where the right itself has not been dismissed with respect to all those persons, the trust enterprise or its entitled persons who did not appear as claimants may assert its or their rights completely or within the scope of what remains thereof, independently and separately from previous proceedings, insofar as they, as the intervening party or the like in another proceeding, have not acknowledged the claim for themselves or waived the claim.

2) Where the same rights are asserted, in full or in part, by different claimants in the same proceedings which, however, are separate with respect to time, the said proceedings may, upon application of a party or *ex officio*, at the discretion of the competent administrative office, be combined for joint deliberation and decision.

3) A right which is not asserted by all entitled persons as well as the date for a possible hearing may, upon the application of a party, be announced pursuant to the trust articles or, if this is not possible, in the manner determined for official announcements or as directed at the discretion of the competent administrative office, and also be noted in the trust register where applicable.

4) If only individual entitled persons take action, the defendant may, moreover, at the claimants' expense, make an application, with warning and effect, for a public notice pursuant to the provisions governing the tracing of beneficiaries, which shall state that the other entitled persons may advance a further claim only if the defendant, as a result of the defendant's wilfully injurious conduct, fails to comply to the full extent with the existing right. Similarly, the defendant may also, at the claimants' expense, make such an application for the appointment of an official trustee for the other entitled persons for the retrieval and supplementation of the right not asserted or not fully asserted by the claimant.

§ 49

II. Settlor

1) In case of doubt, the settlor shall be deemed to be the person who contributes assets or undertakes to contribute assets to the trust fund.

2) Without prejudice to their other and simultaneous position as trustee or beneficiary, the trust instrument may, within the scope of the law, concede rights to the settlors as such (trustors) or their universal successors against the trust enterprise or the other participants as such

only to the extent that such rights do not exist as a continuous and exclusive influence on the organisation or trust management of the trust enterprise, with the exception of the right to supervise public-benefit trust enterprises or the like.

3) Where settlors who, without valuable consideration, contributed the trust fund and on the basis of that contribution created, without valuable consideration, the beneficial interest of others are not also entitled to the legal position of trustee, they may, to the same extent as entitled beneficiaries, demand that other participants or third parties observe the trust instrument in accordance with the law.

4) To the extent nothing to the contrary arises from the provisions governing the trust fund, the provisions governing default in the case of the beneficial interest shall apply *mutatis mutandis* to the settlor's default in the case of other obligations.

5) This article is subject to the provisions governing the other rights and duties of the settlor under the law or trust instrument, especially those concerning the settlor's creditors.

III. Trustee

1. Appointment, removal, resignation etc.

a) In general

§ 50

aa) In the case of trust enterprises without divisions¹⁴⁵⁷

1) The trust instrument shall govern appointment and substitution in the event a trustee is no longer available for any reason (such as death, incapacity to act, removal, resignation, or the like), to the extent not otherwise provided.

2) Where only certain entitled beneficiaries are available, they may, where applicable with the involvement of a trustee appointed by the register office for the unknown or uncertain entitled beneficiaries, appoint or remove, or the like, trustees by a unanimous resolution passed at a meeting or by means of a circular letter, at the expense of the enterprise.

3) Pursuant to the trust instrument, the right to appoint or remove or to nominate (right of nomination) may be left to all or individual trustees,

¹⁴⁵⁷ Article 932a § 50 heading amended by LGBI. 2014 No. 362.

all or individual participants, or third parties, or the Office of Justice may be appointed to perform this duty, but without it being under obligation to execute such a directive.¹⁴⁵⁸

§ 51¹⁴⁵⁹

bb) With divisions and in the case of several trusts etc.

1) Where a trust enterprise is comprised of several divisions, or if a person is appointed as trustee for several trusts in the same enterprise or in respect of a branch only, the division, other trust, or branch in respect of which that person has been appointed, removed, or nominated shall be stated specifically in each case, in the absence of any directive to the contrary.

2) In case of doubt, a person may accept or decline the position of trustee in respect of all divisions, special trusts, or the like only insofar as that person was appointed as trustee pursuant to the same directive throughout.

b) Appointment

§ 52

aa) Right to appointment

1) In the absence of any directive to the contrary, the right to appoint new trustees shall be exercised by the person having a right to remove trustees, subject to appointment of a trustee by the register office or a public trustee pursuant to the provisions governing trusts in general and the provisions otherwise established.

2) Where fewer than three trustees are appointed pursuant to the trust instrument, the trustees may, at the expense of the trust enterprise, appoint new trustees in addition to those already appointed (supplementary trustees) or substitute trustees, for the event of incapacity to act or the like, with the same rights and duties as they themselves have.

3) The Office of Justice may, on important grounds, upon application of participants or *ex officio*, appoint or remove trustees, supplementary trustees, or the like, with or without observance of the trust instrument, for the entire trust enterprise, for a part of the trust assets to be segregated

¹⁴⁵⁸ Article 932a § 50(3) amended by LGBL 2013 No. 6.

¹⁴⁵⁹ Article 932a § 51 amended by LGBL 2014 No. 362.

or that has already been segregated, a fund, a branch, or in the event that the preconditions are met for the appointment of a judicial trustee pursuant to the provisions governing the trust in general, in accordance with those provisions.¹⁴⁶⁰

§ 53

bb) Selection and duty to notify

1) If a trustee is no longer available, persons having the right or the duty to appoint trustees may also appoint themselves as trustee, provided they have not been removed as trustee and provided there are no other important grounds which would preclude their appointment.

2) Whenever trustees are appointed subsequently, every possible attention should be paid to the commercial, financial, technical, and the like, proficiency of the trustee and to that trustee's personal relationships to the other participants, having regard to the purpose of the trust enterprise.

3) As soon as the existence of the trustee and the reasons for the appointment of a trustee for the person represented or the person no longer available or the debtor are known to the statutory representatives, universal successors, legatees, executors, administrators, liquidators, insolvency administrators, or the like, they shall be under obligation at the expense of the undertaking to notify the persons responsible or under obligation to appoint, where applicable to the Office of Justice, and to provisionally carry on the transactions of the trust up to the time of the appointment of the substitute and, pursuant to the provisions governing torts, shall be liable for losses accruing to the trust enterprise or other participants as a result of the grossly negligent or intentional violation of this duty.¹⁴⁶¹

c) Removal

§ 54

aa) In general

1) In case of doubt, the right to remove shall not also embrace the right to withdraw from the persons removed the power to appoint or to

¹⁴⁶⁰ Article 932a § 52(3) amended by LGBl. 2013 No. 6.

¹⁴⁶¹ Article 932a § 53(3) amended by LGBl. 2020 No. 369.

nominate other suitable trustees, the beneficial interest, and other rights to which they are entitled without being a trustee.

2) A trustee may, on important grounds such as, for example, conflict of interest, unsuitability, incompetence for the position of trustee, or the like, be removed with immediate effect by the remaining trustees, where applicable upon application by participants and in urgent cases *ex officio* by the Office of Justice, without prejudice to any claims of the person removed against the persons responsible for the removal, where the director of the Office of Justice is not concerned, or against the applying participants, arising from contract or tort or on grounds of violation of personal relationships and subject to the right to appeal the removal decision.¹⁴⁶²

3) Trustees appointed by the Office of Justice or other authorities may be removed only with the assent of the authority concerned.¹⁴⁶³

4) The provisional withdrawal (termination) of a trustee's right to manage the trust may be made at the discretion of the Office of Justice upon application by participants and also by applying *mutatis mutandis* the provisions governing the withdrawal of power of representation in the case of the general partnership, but subject to claims pursuant to the second paragraph.¹⁴⁶⁴

§ 55

bb) In the case of security deposit by third parties

1) Where, in fulfilment of the duties of a trustee pursuant to the law or other directive, a person has provided the trust enterprise or all participants with security or other guarantee, that person shall be entitled, in the event of the security or guarantee being endangered as a result of the conduct of the trustee, to demand from the body empowered to remove, where applicable at the Office of Justice, the removal of the trustee endangering the security or guarantee or to demand other protective measures.¹⁴⁶⁵

2) If that person's demand is not complied with, the person may, from the day on which the demand was communicated, in the absence of further agreement, terminate the relationship with immediate effect, in such a

manner that the security may not be used for future obligations; in addition, the person may, provided claims have not already arisen, demand the surrender or cancellation of the security provided and, if necessary in case of doubt, compensation pursuant to the principles of contract law.

3) The other powers to which third parties are entitled, arising from a guarantee or other legal relationship, shall remain unaffected.

d) Resignation

§ 56¹⁴⁶⁶

aa) In general

1) A trustee may at any time and at the trustee's own expense give notice of resignation to the other trustees and, where applicable, to the Office of Justice. The trustee shall, however, continue to perform the trustee's duty until an appointment by substitution has been made, pursuant to the trust instrument or by law and at the expense of the trust property.

2) On important grounds, the trustee may resign with immediate effect, provided the resignation is notified to the other trustees or the competent bodies, where applicable to the Office of Justice.

3) If only specifically designated entitled beneficiaries are available, a trustee may, with their assent, resign at any time even if the trust instrument provides otherwise; the same applies all cases where the Office of Justice gives its assent.

§ 57

bb) Significance

1) If a person is a trustee for several trusts that are connected with one another or in several divisions or branches of a trust enterprise, the resignation from the position shall in the absence of any other trust directive apply to all trusts, divisions, or branches, unless all entitled beneficiaries determine otherwise or unless an exception with the assent of the Office of Justice is justified on important grounds.¹⁴⁶⁷

¹⁴⁶⁶ Article 932a § 56 amended by LGBL 2013 No. 6.

¹⁴⁶⁷ Article 932a § 57(1) amended by LGBL 2014 No. 362.

2) Where, independently of the trustee's position as such, a trustee is granted the right to appoint, nominate, or remove trustees for the same trust enterprise or other trusts connected with that trust enterprise, it shall be assumed that the notice of resignation shall not also extend to this right.

§ 58

e) Form

1) Each appointment, removal, resignation, or nomination shall be issued in writing by those empowered or under obligation to do so or otherwise be invalid and, in the absence of other legislative provision, be notified to the trust enterprise, where applicable to the Office of Justice.¹⁴⁶⁸

2) An appointment shall be made with the written assent of the person to be appointed; by way of substitution, however, it may also be effected by submission of the person's signature in due form at the Office of Justice.¹⁴⁶⁹

3) In the case of trust enterprises entered in the Trust Register, these steps shall be registered along with the facts and circumstances to be entered.

f) Effect

§ 59

aa) For those appointed, removed, resigning etc.

1) Trustees shall fulfil their duties up to the time a successor is duly appointed and, where applicable, registered with the register office, unless the law, the trust instrument, all beneficiaries, or the Office of Justice determine otherwise or something to the contrary arises from the circumstances.¹⁴⁷⁰

2) Trustees who are appointed by substitution or otherwise subsequently or remaining shall, in the absence of any directive to the contrary, such as where a special form is provided for the transfer of rights and duties or concerning signature, or where a provision exists governing the protection of a *bona fide* third party, automatically enter into the same

legal position as their predecessor, but not into the same legal relationships arising from responsibility, personal liability, or additional performance obligations or other purely personal legal relationships of their predecessors or co-trustees.

3) The liabilities entered into by the trustees or arising from the employment itself shall remain unaffected by removal, resignation, or similar procedures.

4) Where trustees are referred to in the law or in the trust instrument, it shall be understood, in case of doubt, that supplementary or substitute trustees or the like are also included.

§ 60

bb) In the case of default or non-exercise of the right or obligation to appoint, remove, nominate, or the like

1) Where one person alone is entitled or under obligation to appoint or remove or nominate and fails to exercise that right or fulfil the accepted obligation or fails to do so in a timely manner, appointment, removal, or nomination may, in the absence of any directive to the contrary, also be effected by the holders of beneficial interest, where applicable jointly with the next living prospective beneficiaries, pursuant to the regulations concerning the organisation of the beneficiaries.

2) In the case of other trust enterprises and in other cases, the appointment, removal, or the exercise of the nomination, where a person is appointed to undertake this alone, but fails or is unable or unwilling to exercise the right or the duty, shall, in the absence of any directive to the contrary, be undertaken by the Office of Justice upon application by participants.¹⁴⁷¹

3) If several persons are appointed to cooperate in the exercise of the same rights and duties and some of those appointed cannot or will not cooperate in the exercise of the right or duty, the remainder shall be entitled or under obligation to exercise the right or duty, and if all those appointed for that purpose cannot or will not cooperate, the foregoing provisions shall apply *mutatis mutandis*.

4) Upon application by participants, the Office of Justice may, on important grounds, temporarily or completely withdraw or cancel the right or the duty to appoint, remove, or nominate, or entrust another person with the right hereto, subject to any claims by the persons affected

¹⁴⁷¹ Article 932a § 60(2) amended by LGBL 2013 No. 6.

against the culpable applicant, arising from a contract or a tort or on grounds of violation of personal relationships.¹⁴⁷²

5) Where a person culpably fails to fulfil or to fulfil in a timely manner the accepted obligation to appoint, remove, or nominate, that person shall be liable pursuant to the principles of contract law to the trust enterprise and to all others who have suffered loss thereby, without limitation in the latter case and, where applicable, jointly and severally.

§ 61

2. Organisation

1) In the absence of any provision to the contrary and applying the provisions governing the board of directors of public limited companies *mutatis mutandis*, co-trustees appointed pursuant to the trust instrument form a board of trustees (trustee board of management, trust committee, committee of trustees, or the like), which may elect and remove a chair, a treasurer, a keeper of the minutes (secretary), etc., from among its members and determine the powers and duties.

2) In case of doubt, the chair, cashier, keeper of the minutes, etc., shall be entitled to those powers and duties to which persons occupying similar positions in the case of legal persons in similar kinds of business are normally entitled.

3) Within the scope of the law governing the legal relationship between co-trustees and the trust enterprise, among co-trustees, and between co-trustees and other participants, the trust instrument may provide a more detailed arrangement concerning, in particular, the organisation of the trustees, establishing them, within the scope of the trust instrument, as an advisory and decision-making body similar to that of the supreme body under the general provisions on legal persons, the resolutions of which shall be executed by the managing board of trustees in the same manner as such resolutions are executed by the administration of a legal person.

¹⁴⁷² Article 932a § 60(4) amended by LGBL 2013 No. 6.

3. Trust management

§ 62

a) In general

1) Unless otherwise provided by the trust instrument or the law, the trustees shall be entitled to manage jointly and they shall be under obligation to act and to decide jointly in good faith; in the case of public-benefit or similar trusts, however, a resolution of the majority shall, in the absence of any directive to the contrary, also be binding upon the minority of the trustees.

2) It shall not be determined in the trust instrument that all trustees shall be excluded from the management, otherwise the rule from the preceding paragraph shall apply.

3) To the extent that nothing otherwise emerges from the trust instrument, the nature of the trust, and the law, the relevant provisions governing administration under the general provisions on legal persons shall apply *mutatis mutandis* to the trust management.

4) Within the scope of the trust instrument and the law, the trustees shall be empowered to undertake all business transactions in the execution of the purpose of the trust or the object of the undertaking and shall be under obligation to take all possible care.

§ 63

b) Position of non-managing trustees

1) Where there are other trustees in addition to trustees who are entrusted with management and the exercise of the fiduciary authority, those trustees shall be entitled by way of substitution to the same rights and obligations, to the extent that those rights and obligations do not concern the fiduciary authority, as in the case of representation by the administration of a legal person, or the law or trust instrument do not provide otherwise.

2) Within the scope of the trust instrument, non-managing trustees shall, at all times by operation of law, have the right and, depending upon the circumstances, also the duty individually or collectively or with the involvement of appropriate impartial and disinterested specialists, to satisfy themselves at the expense of the trust enterprise concerning the course of business, to examine the account books and papers, to demand information from the managing trustees and, at appropriate intervals or,

where justified on important grounds, at any time to demand submission of accounts.

3) They may in good faith object to the undertaking of business transactions not executed, with the effect that these shall be refrained from, otherwise the acting trustee shall be responsible to the undertaking and, where applicable, also to the other participants.

§ 64

c) Regulations (bylaws) and transfer of management

1) Within the scope of the law and the trust instrument, the trustees may delegate management to individual trustees or third parties or, to the extent that they lack specialised knowledge or it is customary, enlist auxiliary persons and draw up regulations governing the performance of management responsibilities, with the proviso that individual trustees or third parties may also be entrusted with the performance of individual branches of the enterprise or with individual trust transactions, with or without remuneration, subject to the responsibility of all trustees for the choice they make and for supervision.

2) Where co-trustees perform management responsibilities at their own discretion and jointly, they may not delegate such management to one trustee alone.

3) A delegation of management responsibilities may, by virtue of the law, be revoked at any time by the managing trustees or, in case of imminent danger, by any trustee, subject to the obligations of the trust enterprise or of the culpable trustees arising from contract or tort or on grounds of violation of personal relationships vis-à-vis the other party.

d) Fiduciary duties

§ 65

aa) In general

1) Within the scope of the law and the trust instrument, the fiduciary duties are governed by the provisions on fiduciary duties relating to trusts in general.

2) In the performance of their management responsibilities, trustees and representatives shall exercise the care of orderly businesspersons

devoted to their own business affairs and shall be liable for every culpable violation of their duties.

3) Trustees shall acquaint themselves thoroughly with the trust instrument and may not excuse themselves on grounds of ignorance of its provisions.

4) Unless the law or the trust instrument indicates otherwise, the trustees shall comply with the written instructions drawn up by all the beneficiaries, including any prospective beneficiaries, pursuant to the provisions governing the organisation of the beneficiaries.

5) Where, without being at fault, a person is appointed invalidly as trustee and acts in this capacity, the person concerned shall nevertheless be treated as a trustee in relation to persons acting in good faith and shall be responsible from the day of appointment, even though the person has not been entered in the Trust Register.

6) A prohibition of competition exists for the trustees insofar as this is determined in the trust instrument or is required for reasons of equity.

bb) Own interest

§ 66

aaa) In general

1) Each trustee shall be under obligation to avoid a conflict of the trustee's own interests with those of the trust enterprise or the participants as such and, if a conflict has already arisen, to eliminate that conflict.

2) Where, contrary to the law or the trust instrument, a trustee derives personal advantage from the trust enterprise, where applicable through resolutions or instructions of competent bodies, or in connection with the performance of management responsibilities, and if this advantage does not consist in customary and occasional gifts, the trustee concerned shall, as a constructive trustee in the same manner as an implied trustee, be under obligation to submit accounts, provide information, and surrender the advantages or any substitute advantage.

3) The provisions governing transactions for the benefit of the trustee applicable to trusts in general shall apply *mutatis mutandis*, and in this regard the injured undertaking shall be entitled to the claims in the first place, followed by the injured creditors in the case of unsuccessful compulsory execution or the insolvency administrator in the case of insolvency proceedings, and lastly the participants, if the creditors or

participants concerned were not themselves involved in this connection.¹⁴⁷³

4) Where a trustee is at the same time the sole entitled beneficiary, the trustee may, in the absence of any directive to the contrary, conclude own transactions or as a representative or governing body of others under the same conditions as in the case of a legal person with a sole shareholder.

§ 67

bbb) Acquisition of trust property and beneficiary rights

1) Within the meaning of the preceding provisions and in the absence of any directive to the contrary, the trustees may acquire, rent, lease, etc. trust property from themselves, from a co-trustee, or from the trust enterprise only with the fullest transparency of the acquiring transaction at public auction or with the assent of other beneficiaries or bodies authorised to give assent or the Office of Justice, unless the acquisition involves freely transferable beneficiary rights or rights such as those which are disposed of at the instigation of third parties, or unless common business practice indicates otherwise.¹⁴⁷⁴

2) Any circumvention of this provision, such as in particular the alienation of trust property to a third party for the purpose of reacquiring that trust property before the transaction involving alienation is complete, is inadmissible.

3) Where trustees acquire, rent, or lease from beneficiaries rights which are not embodied in freely negotiable securities, they shall, if the beneficiary so demands, provide that beneficiary, in good faith and to the best of their ability, with information concerning all the facts and circumstances influencing the alienation price, otherwise liability for the transferor's damages shall be incurred pursuant to the principles of contract law for a period of limitation of three years from the date of alienation.

4) The preceding provisions shall apply *mutatis mutandis* where trustees alienate, rent, or lease, etc. to beneficiaries trust property or beneficial interests or individual claims therefrom.

5) Moreover, the preceding provisions are subject to the provisions governing surrender and the claim on account of unjust enrichment in the case of unjustified alienation or encumbrance of trust property.

¹⁴⁷³ Article 932a § 66(3) amended by LGBL. 2020 No. 369.

¹⁴⁷⁴ Article 932a § 67(1) amended by LGBL. 2013 No. 6.

cc) Obligation to disclose

§ 68

aaa) To beneficiaries

1) To the extent not otherwise indicated by the law or the trust instrument or the circumstances, trustees, upon demand, shall equitably provide each entitled beneficiary and each prospective beneficiary, to the extent that their rights are concerned, with information relating to all facts and circumstances and in particular to the status and the investment of the trust assets, report at appropriate intervals and submit accounts and also explain why they have not actually maintained or achieved the assets including yield which, according to the usual course of events or according to other circumstances, they should have maintained or achieved or been able to maintain or achieve.

2) In the absence of other provisions of the law or the trust instrument, trustees shall be under obligation to allow the entitled beneficiaries, including any prospective beneficiaries, to the extent that their rights are concerned, at their expense, to examine, personally or through a representative, all the books of account and papers and to copy these and to inspect and examine all facts and circumstances and in particular, the accounting.

3) Should the preceding rights not be asserted jointly by all the entitled beneficiaries, including all the prospective beneficiaries, the assertion, in the absence of a directive to the contrary, may be made only to the extent that it is not demanded with dishonest intent, in an abusive manner or in a way which conflicts with the interests of the trust enterprise or other entitled beneficiaries or prospective beneficiaries or insofar as it is demanded in good faith.

§ 69

bbb) To co-trustees etc.

1) Trustees shall provide each other with information in the same way as they provide entitled beneficiaries with information, i.e., not only relating to individual transactions concluded by themselves but also relating to other facts and circumstances.

2) Trustees or their universal successors who are no longer available for any reason shall, to the best of their ability, provide succeeding trustees with unrestricted information concerning all facts and circumstances and hand over all the books of account, papers or assets concerning the trust

enterprise to the extent that they are not entitled to a right of offset or retention relating to the latter.

3) Succeeding trustees shall audit the management conducted by the trustees no longer available according to the requirements of the circumstances and assert any claims of the trust enterprise against them or their legal successors.

e) Fiduciary powers

§ 70

aa) In general

1) Within the scope of the law and the trust instrument, the fiduciary powers are determined, in case of doubt, by the provisions governing trusts in general, and where applicable by the instructions of the Office of Justice.¹⁴⁷⁵

2) Where at the discretion of the managing trustees it appears necessary and the trust instrument does not provide otherwise, the managing trustees may conclude arbitration and conciliation agreements on behalf of the trust enterprise and establish branches, where appropriate with special trustees.

3) Where branches are established by registered undertakings, they and the trustees or representatives concerned must be registered with the Trust Register for the purpose of entry and publication and the facts and circumstances required to be registered must be declared.

bb) Claims for compensation and remuneration of trustees

§ 71

aaa) In general

1) Within the scope of the law and the trust instrument, trustees as creditors may demand satisfaction of their claims (reimbursement of expenses and dispositions on behalf of the trust enterprise and of the losses they incur which accrue from the enterprise, furthermore, release from the obligations entered into at their expense in the interests of the enterprise or otherwise as well as for remuneration and the reimbursement of the

¹⁴⁷⁵ Article 932a § 70(1) amended by LGBL 2013 No. 6.

interest customary in the country) only to the extent that they are not to blame for their accrual and the claims appear to be justified by the circumstances.

2) Where remuneration for trustees is not or not adequately provided for in the trust instrument and nothing otherwise is indicated by the legal relationships between the participants, the Office of Justice may, subject to other admissible directives, determine legally binding remuneration which is commensurate with the circumstances, after hearing the participants.¹⁴⁷⁶

3) Where claims of the trustees as such have been satisfied by another party which, in addition to the trust enterprise, was under obligation to do so, the right to satisfaction from the enterprise passes, in the absence of any other agreement, to the extent that the claims were well founded and the right to compensation pursuant to the underlying legal relationship is not excluded, by operation of law to the other party.

4) The claims of the trustees as such take precedence over the claims against the trust enterprise arising from the beneficial interest, to the extent not otherwise determined by the law or the trust instrument.

§ 72

bbb) Assertion

1) The claims of the trustees arising from management are directed, subject to the right of offset and retention, against the trust enterprise in the first instance, in such a way that claims are to be made first against the yield and then against the trust property itself. In the second instance, the claims are directed, in the absence of any directive to the contrary, against those beneficiaries who, in the individual case, are enriched or who have derived utility without valuable consideration from the trust enterprise or from the acts of management.

2) Where several beneficiaries have enriched themselves or have derived benefit without valuable consideration, the claim for compensation shall be made in proportion to their beneficial interest, as they derived benefit or enriched themselves.

3) Where claims can be made against the trustees for liabilities of the trust enterprise, the trustees may, to the extent that the enterprise does not, for instance, have a right to claim compensation from them, or

¹⁴⁷⁶ Article 932a § 71(2) amended by LGBL 2013 No. 6.

nothing to the contrary is indicated, also surrender trust property in lieu of performance.

4) A trustee shall forfeit claims up to the extent of the damages caused by a breach of trust, with reservation of any further claims by the undertaking and other injured parties.

4. Fiduciary authority

§ 73

a) In general

1) Within the scope of this Act and the trust instrument, the provisions concerning representation by the administration under the general provisions governing legal persons shall apply with respect to scope, duration, effect, exercise, and the like of the fiduciary authority of the trustees, and then on a supplemental basis those concerning the fiduciary authority under the trusts in general and those concerning trust management.

2) The trustees appointed to exercise fiduciary authority as well as other authorised signatories and the lapse or amendment of fiduciary authority or the power of representation shall, in the case of enterprises entered in the Trust Register, be registered without delay, with the addition of the proof of their appointment and the relevant facts and circumstances capable of entry, to the extent that the circumstance is not a re-appointment.

3) A transfer of fiduciary authority as a whole or in individual parts is admissible within the scope of the trust instrument, pursuant where applicable to the law or the provisions governing the transfer of trust management.

§ 74

b) Appointment of representatives by the Office of Justice¹⁴⁷⁷

1) In the event of imminent danger or on other important grounds, the Office of Justice may, apart from the admissibility of appointing legal advisors, upon application of participants or *ex officio* and after hearing or without hearing participants, also appoint and likewise remove authorised

¹⁴⁷⁷ Article 932a § 74 heading amended by LGBL 2013 No. 6.

or other representatives for the trust enterprise, or a part thereof or a special trust or, finally, a branch.¹⁴⁷⁸

2) Removal, however, may only take place without prejudice to any claims of those removed against the participants at fault arising from contract or tort or on grounds of violation of personal relationships.

§ 75

c) Minimum fiduciary authority and minimum power of representation by law

1) Managing trustees and other bodies or representatives of the trust enterprise shall be appropriately entitled by law to at least those powers and be subject to those obligations which are provided under the general provisions governing legal persons for representation in the case of the administration, subject to derogating provisions of the law.

2) Where it is not directed to the contrary and, where applicable, is also registered in the Trust Register, or no urgency is involved, managing trustees shall exercise their fiduciary authority jointly.

3) Where the co-trustees have not acted jointly, such an act, in the absence of any directive to the contrary, shall require the approval of the remainder in order to be effective with respect to the trust enterprise, without prejudice to any claims of injured, *bona fide* third parties against the acting party.

4) However, a statement or notice may be submitted to the trust enterprise with legal effect and also to one of the managing trustees or to a representative in the same manner as to a member of the administration of a legal person.

§ 76

d) Signing authority

1) The trustees appointed to exercise fiduciary authority as well as other authorised signatories shall, in the case of trust enterprises subject to the registration requirement or of those which register voluntarily, when registration first takes place, sign their signature before the director of the Office of Justice or submit it in a certified form as in the case of the administration as a governing body of a company with legal personality

¹⁴⁷⁸ Article 932a § 74(1) amended by LGBL 2013 No. 6.

or their representatives. The same act shall be performed by those appointed subsequently if, at a later date, there is a change in the composition of these trustees or authorised signatories or in the fiduciary authority or power of representation.¹⁴⁷⁹

2) In the absence of any other trust directive and, where applicable, entry in the Trust Register, signing on behalf of the trust enterprise in relation to third parties shall, in the case of co-trustees, be undertaken by all the trustees in the same manner as by members of the administration of a legal person in order to be valid with respect to the undertaking and third parties, and a seal or the like may also be used for the printed (company) name.

3) Should signing not be performed in the prescribed manner, those who act shall be jointly and severally liable for damages, without limitation, to the trust enterprise and *bona fide* third parties in the event that the trust enterprise rejects the validity of the legal transaction.

4) Where acts are performed on behalf of the trust enterprise verbally or in a similar manner without signature, this shall be made recognisable to third parties and, if necessary, shall be performed jointly, in order to avoid the consequences mentioned above.

§ 77

e) Evidence of authority (identification)

1) The relevant provisions governing legal persons shall apply *mutatis mutandis* to the evidence of authority vis-à-vis public authorities and private parties, with the proviso that the public authority appointing a trustee or a competent third party may also issue a document which provides evidence of authority.

2) Where a document is issued providing evidence of the trustee's authority, the trustee shall be under obligation to return the document or deposit it with the Office of Justice after lapse of the trustee's fiduciary authority, for the trust enterprise to dispose of freely.¹⁴⁸⁰

3) If the trustee is not held to this by the trust enterprise or, where applicable, by the universal successor of the trust enterprise, the trust enterprise or the universal successor shall be responsible to the *bona fide* third party, subject to the right of recourse to the trustee, unless the third party has knowledge otherwise of the lapse of fiduciary authority.

¹⁴⁷⁹ Article 932a § 76(1) amended by LGBL. 2013 No. 6.

¹⁴⁸⁰ Article 932a § 77(2) amended by LGBL. 2013 No. 6.

*IV. Beneficiaries (of the trust)**1. Beneficial interest in general*

§ 78

a) Types

1) Where not otherwise determined by the law, beneficiaries (of the trust) and the like shall be deemed to be those who, pursuant to the trust instrument, draw benefit from the trust enterprise, either at the present time or at some time in the future, either as a share in the yield or the trust assets, or both, regardless of whether the beneficiary has a claim thereto or not, or whether securities relating to the beneficial interest have been issued or a public-benefit or similar trust enterprise is involved, and subject to the beneficiary's simultaneous claims otherwise due as a participant or third party.

2) Provided the beneficial interest of persons is not excluded, recipients of beneficial interest (holders of beneficial interest) shall be deemed to be those persons who, pursuant to the trust instrument or the law, are actually entitled in a prescribed manner to a specifically designated benefit and, should they also have a legal entitlement thereto, shall be deemed to be entitled beneficiaries.

3) Where the right of beneficial interest in general is limited to a strictly defined circle of persons (firms or legal persons) and, after the holders of beneficial interest are no longer available, others, on the basis of the trust instrument, are designated as beneficiaries, pursuant to a certain arrangement, by virtue of a legal entitlement, to succeed as holders of beneficial interest, the latter shall have prospective rights (prospective beneficiaries).

4) Where it is not determined to the contrary, the expression "beneficiary (of the trust)" shall also include the prospective beneficiary with and without claim, in particular also the allottee, and the terms "beneficial interest" shall also include the prospective beneficial interest.

§ 79

b) Legal nature of the beneficial interest etc.

1) Beneficial interest may be qualified, limited in time, tied to a condition or the like, or also be dedicated for impersonal purposes.

2) Within the scope of the law, the right of the holders of beneficial interest, which rests upon the trust instrument, is restricted solely by the trust instrument and, where applicable, by any existing prospective right of others to a beneficial interest.

3) Where the trust instrument allows rights to beneficial interest or prospective beneficial interest, such rights shall be treated solely as restricted creditor rights which, realised pursuant to the law and the trust instrument, may be asserted and transferred to others.

4) By way of an ordinance, the relevant provision in the trust instrument being otherwise invalid, it may be provided that the determination of the beneficiaries may not be deferred or the yield or other advantages deriving from the trust enterprise may not be left undistributed or, similarly, that the non-alienation of trust property or beneficial rights may not be extended for longer than the period allowed for the appointment of a reversionary heir, insofar as important grounds do not justify an exception, as in the case of public-benefit undertakings or inalienable trust property or the like.

c) Accrual and loss

§ 80

aa) In general

1) The beneficial interest may accrue with or without consideration, for instance by the remittance of purchase payments, regular contributions, or the like, by the settlor for the beneficiaries or by the latter as settlors to the trust enterprise, with or without the issuance of securities relating to the beneficial interest, insofar as the trust instrument does not provide for a public-benefit trust or a trust having a similar purpose with beneficiaries not determined beforehand or with impersonal beneficial interests or the like.

2) Rights and duties arising from the beneficial interest may, in particular pursuant to the trust instrument, also after the trust enterprise has been formed, be constituted by original beneficiaries for other participants or third parties as new beneficiaries in the same or in a different manner or gradually (successively constituted beneficial interests).

3) Certain governing bodies or other bodies or third parties may be given the power to grant or withdraw beneficial interest at their discretion or owing to the discontinuation of certain prerequisites or a right of

provisional acquisition or redemption of the beneficial interest, effective with respect to all parties, against payment of a redemption sum in the event of the beneficial interest being alienated or the like. Upon application of the managing trustee or otherwise competent bodies, that right of provisional acquisition or redemption of the beneficial interest may be noted in the Trust Register.

4) Acceptance of the rights derived from the beneficial interest by the beneficiaries shall be assumed, provided that only advantages are associated therewith and that the circumstances do not indicate otherwise.

5) By way of derogation and *mutatis mutandis*, the accrual and loss of beneficial interest may also be governed, without the existence of a membership, pursuant to the rules concerning the acquisition and loss of beneficial interest established for registered cooperative societies.

§ 81

bb) Gratuitous beneficial interest and sociopolitical beneficial interest

1) Beneficial interests may in particular also be granted without contribution by the beneficiaries to the trust fund or otherwise to the trust enterprise (gratuitous beneficial interests including gratuitous prospective beneficial interests) and sociopolitical beneficial interests.

2) Where doubt exists regarding the latter kind of beneficial interests, the provisions governing sociopolitical rights to shares and profit for legal persons shall apply *mutatis mutandis*.

3) This article is subject to the provision governing gradual distribution from the trust assets.

§ 82

cc) Special capacity

1) Where pursuant to the trust instrument the existence or nonexistence of a certain attribute (capacity), such as belonging to a certain profession or circle of persons or a family, domicile in the country or in a certain municipality or the like, is required for the accrual (the granting) or the loss of the beneficial interest, this attribute, in case of doubt, must exist or must not exist, respectively, at the time of devolution of the possession of the beneficial interest upon the prospective beneficiary.

2) Where the position of beneficiary may be occupied only during the existence of such an attribute, this attribute must, in case of doubt, have continued to exist for the relevant period of time concerned.

§ 83

dd) Convertible creditor and beneficiary rights

1) The creditors of a trust enterprise may in particular also be granted the right to convert their creditor rights into ordinary or preference beneficial interests, which may be tied to the possession of a security (convertible bonds).

2) Conversely, the entitled beneficiaries may, in the same manner, be granted the right to convert their beneficiary rights into unconditional creditor rights (convertible beneficial interests).

3) This article is subject to the application of the provisions governing the gradual distribution of assets to the conversion of convertible beneficial interests.

§ 84

ee) Termination etc.

1) The trust instrument may grant the beneficiaries a right of termination for withdrawal from the beneficiary relationship, to which, in the absence of a detailed directive, the provisions governing notice of termination in the case of registered cooperative societies shall apply on a supplemental basis.

2) If the trust instrument also grants a beneficiary with a claim to the delivery of a part of the trust fund or the like the right, under certain conditions, such as notice of termination or the like, to withdraw from the beneficiary relationship, the withdrawal shall be effective only provided that the provisions governing the gradual distribution of trust assets are observed.

§ 85

ff) Exclusion

1) The trust instrument may also set out the reasons for which a beneficiary may be excluded from the trust relationship by the trustees or another body.

2) Following notification of exclusion by the trustees or the competent body serving as trustee, the beneficiary may no longer be active, other than in cases of imminent danger, and from that time on shall be excluded from exercising any right to vote or the like.

3) The exclusion shall be null and void if the provisions governing the gradual distribution of trust assets have not been observed.

4) This article is also subject to claims of the excluded party against parties at fault arising from another legal relationship, such as from contract or tort or on grounds of violation of personal relationships.

gg) Revocation

§ 86

aaa) On grounds of unworthiness of trust

1) Where the beneficial interest from a trust enterprise is handed over to the entitled beneficiary, pursuant to the settlor's directive, without valuable consideration, the settlor or the settlor's legal heir, provided the latter is not unworthy of the trust, shall have the right to revoke possession of the beneficial interest or prospective beneficial interest on grounds of unworthiness of the trust, with effect against the parties at fault:

1. if the entitled or prospective beneficiary concerned has committed or attempted to commit a serious crime against the settlor or a person with close ties to the settlor,
2. if the entitled or prospective beneficiary concerned has seriously violated a family obligation incumbent upon that beneficiary vis-à-vis the settlor or a relative of the settlor, or
3. if such beneficiaries fail in an unjustifiable manner to fulfil the conditions or other obligations connected with the possession of the beneficial interest or prospective beneficial interest.

2) Where in the execution of a duty as trustee of another trust, the settlor has procured the beneficial interest without valuable

consideration, the settlor of the other trust or that settlor's heirs shall be considered settlors or heirs in regard to unworthiness of trust.

3) Where in the execution of another obligation vis-à-vis a third party, for which that third party has effected or promised to effect something in return without valuable consideration, a settlor has procured the beneficial interest without valuable consideration for a person, the preceding provisions governing unworthiness of trust shall apply to the third party or that third party's universal successors.

4) Unworthiness of trust shall be cancelled by forgiveness by the settlor or by the third party concerned.

§ 87

bbb) On other grounds

1) The revocation of a directive concerning the promise of a transfer of the beneficial interest without valuable consideration and the refusal of performance may also emanate from the settlor or the settlor's heirs who have taken over the fulfilment of the promise:

1. if, since the promise of the transfer of assets without valuable consideration to the trust enterprise for the purpose of beneficial interest without valuable consideration, the financial circumstances of the settlor or the settlor's heirs concerned have changed to such an extent that the further fulfilment of the promise to the trust enterprise, without the settlor or the settlor's heirs having the beneficial interest, would exceptionally burden the settlor or the settlor's heirs,
2. if, since the promise referred to above, support or maintenance obligations under family law have become incumbent upon the settlor or the heirs concerned, which beforehand did not exist at all or only to a substantially lesser degree.

2) Where, in the capacity of trustee of another trust, a settlor has formed a trust enterprise or, on the basis of an obligation to a third party for which that third party has effected or promised to effect something in return without valuable consideration, has procured beneficial interest for another person without valuable consideration, the prerequisites for revocation must have ensued in the person of the first trustee or of the third party concerned, or their heirs.

3) This is subject to challenge by the creditors of the settlor or the settlor's heirs.

§ 88

ccc) Enforcement of revocation and reference

1) Where revocation of the possession of beneficial interest or prospective beneficial interest is enforced, this shall be done by the party entitled thereto for the benefit of the settlor or the third party concerned and, should it concern their heirs or other legal successors, for their benefit, with notification to the trust enterprise and to those parties against whom grounds of revocation exist.

2) Where a prospective beneficiary has committed a serious crime endangering life or limb against that prospective beneficiary's predecessor in possession of the beneficial interest in order to gain that possession, the successor to the beneficial interests may enforce the revocation against that prospective beneficiary for the benefit of the successor.

3) Revocation may be enforced within a year, commencing at that time when the party entitled to revocation gains knowledge of the grounds of revocation.

4) Revocation shall be excluded if five years have already elapsed since the occurrence of the grounds of revocation, unless the grounds of revocation consisted in a serious crime and the prosecution or execution is not yet statute-barred.

5) Provisions governing the period of limitation shall apply *mutatis mutandis* to the deadline, and the provisions governing gifts shall apply *mutatis mutandis* to the legal relationship between the settlor and the beneficiary concerned.

§ 89

hb) Violation of a duty of support

1) Where, as the result of a transfer without valuable consideration, a settlor is no longer able to make a living or to fulfil a legal duty of support, the judge may require the trust enterprise to support the parties in need of or entitled to support, allowing those performances against that which the trust enterprise has to pay any entitled beneficiary without valuable consideration pursuant to the trust instrument and that transfer.

2) Where, in the capacity of trustee of another trust, a settlor has formed a trust enterprise or, in the execution of another obligation vis-à-vis a third party who has effected or promised to effect something in return without valuable consideration for the settlor's benefit, has

procured the beneficial interest without valuable consideration, the prerequisites for the need or the duty to support must apply in the person of the first settlor or the third party concerned.

3) The preceding provisions shall apply *mutatis mutandis* in the case of mixed transfers without valuable consideration.

4) This article is subject to actions by the heirs for reduction on grounds of violation of the compulsory portion, challenges by the creditors, and claims for enrichment by the parties in need of or entitled to support against the enriched party who is no longer a beneficiary.

ii) Division and consolidation

§ 90

aaa) In general

1) The division of beneficial interests as a whole, the alienation or encumbrance of such a part, and the consolidation of several independent beneficial interests or parts thereof which amount to more than an entire beneficial interest in the hands of one party shall, in the absence of any other trust directive or provisions of the law, without prejudice to the rights of other beneficiaries, be admissible only with the assent of the managing trustees.

2) Provided the trust enterprise does not have a special succession arrangement, the assent may, on important grounds and upon application of the beneficiaries, be substituted by the Office of Justice, after hearing the managing trustees and any other parties with a legal interest.¹⁴⁸¹

3) If a directory is kept of the beneficiaries or the participants in the case of liability and additional performance obligations and, accordingly, a list of participants is also kept, the changes arising from the division or consolidation shall also be entered in the directory, including in particular the joint representative.

¹⁴⁸¹ Article 932a § 90(2) amended by LGBL 2013 No. 6.

§ 91

bbb) Effect

1) If several such parts of beneficial interests are consolidated in adequate quantity in the hands of one party, they shall, by virtue of the law, confer the same rights as an undivided beneficial interest and, in the case of the consolidation of several hitherto independent beneficial interests, a corresponding increase of rights, in the absence of any directive to the contrary.

2) Where beneficial interests are simultaneously combined with obligations, the partial beneficiaries shall, after the division, be jointly and severally liable for the obligations, including the outstanding amounts, only insofar as these obligations include financial payments to the trust fund or a joint and several liability or additional performance obligation exists, and without prejudice to any rights of recourse.

3) When several independent beneficial interests are consolidated, the obligations also increase accordingly. In this event, the relevant provisions concerning several shares in the case of registered cooperative societies shall apply with regard to liability and additional performance obligations.

4) Upon demand of the trust enterprise, such beneficiaries with partial claims shall appoint a joint representative; otherwise, the trust enterprise may undertake against one of them all declarations of intent and other legal acts, with effect for and against all, which concern them all or, upon application of the managing trustees, the Office of Justice may appoint such a joint representative, at the expense of the beneficiaries concerned.¹⁴⁸²

§ 92

kk) Period of limitation

1) A period of limitation of the prospective beneficial interest or the possession of the beneficial interest may only ensue in favour of the reserve fund for balance sheet and/or accounting losses, subject to the provisions governing the lapse of the assets to the State and the like.

2) A period of limitation of the prospective beneficial interest as such only commences at the time when the rights associated with possession of the beneficial interest could have been exercised by virtue of

¹⁴⁸² Article 932a § 91(4) amended by LGBL 2013 No. 6.

devolution upon the prospective beneficiary concerned but were not exercised.

3) The possession of beneficial interest as a whole is subject *mutatis mutandis* to the ordinary period of limitation, to the extent an exception is not permitted by law.

§ 93

ll) Redemption sum

1) Where in the case of trust enterprises without commercial operations a beneficiary is entitled to the payment of a redemption sum for their beneficial interest as the result of notice of termination, exclusion, or the like and no securities have been issued, the claim, in case of doubt, shall be comprised of that amount in cash with which, according to the value of the trust enterprise's payment, a corresponding pension could be acquired from a sound annuity institution.

2) In the case of trust enterprises with commercial activities or with securities, the redemption sum shall, in case of doubt, be determined on the basis of a liquidation balance sheet, without liquidation having to take place for this purpose.

3) If important grounds exist, however, the judge may determine the settlement in a different manner.

d) Rights and duties arising from the beneficial interest

§ 94

aa) In general

1) In general, rights and duties of the beneficiaries are determined pursuant to the law or the trust instrument, pursuant to the content of the securities issued in relation to the beneficial interest where applicable, and, on a supplemental basis, pursuant to the provisions governing trusts in general.

2) In the case of identical prerequisites and identical performances of the beneficiaries, their rights and duties may, without their assent, in the absence of any directive to the contrary, be treated only in an identical manner, in particular with respect to amendment, restrictions, or rescission, and individual beneficiaries may not be favoured to the detriment of others.

3) In the absence of any directive to the contrary, beneficiaries shall have no right to dissolve the trust enterprise, to individual elements of trust assets, or to divide such assets.

4) To the extent that a beneficiary makes contributions or undertakes to make contributions to the trust fund and the law does not indicate otherwise, that beneficiary shall be deemed a settlor in this regard and shall simultaneously be subject to the rules applicable to settlors.

§ 95

bb) Distribution of beneficial interest and compensation claims

1) Where a beneficiary with a claim to payment from yield and asset components is paid amounts without further information concerning their character, it shall be assumed that they are in the nature of yield, but with reservation of the obligation of possible restitution pursuant to the principles concerning unjust enrichment, where applicable pursuant to the rules concerning the gradual distribution of trust assets.

2) Where a holder of beneficial interest loses the right of beneficial interest during a term of administration or is no longer included during such a term, following the conclusion of which the regular yield or another beneficial interest is distributed and no securities have been issued, the receipts from the beneficial interest shall be distributed after the conclusion of the duration of their period of possession during the term of administration among those no longer included or the universal successors of the predecessor and the successors in the possession of the beneficial interest, pursuant to the provisions governing separation and distribution of assets and yield; this shall apply in particular also to family trust enterprises.

3) In the case of securities, the yield or other payment of assets shall, in the absence of any directive to the contrary, be paid to the holder of the securities at the time for payment of the claim concerned.

4) The amounts to be distributed to the beneficiaries may be rounded down insofar as the result of a liquidation or redemption is not involved or nothing to the contrary has been determined.

5) Where, in the common interest, an entitled beneficiary has incurred expenses and, as a result of this, others actually enjoy benefits, that entitled beneficiary shall, with timely announcement of the expenses to the managing trustees, have a right in preference to other beneficiaries to proportionate compensation from the beneficial interest concerned before

distribution, where applicable also for that which is otherwise not obtainable from an entitled beneficiary.

§ 96

cc) Undue delay

1) To the extent that securities relating to beneficial interests have not been issued and the trust instrument does not provide otherwise, the relevant provisions on membership under the general provisions governing legal persons and, on a supplemental basis, those of the law of obligations shall apply to the beneficiary's delay in performance.

2) The trust instrument may provide that in the case of a beneficiary's or third party's delay in performance, the beneficial interest acquired on the basis of this obligation to perform may be declared void in favour of the reserve fund for balance sheet or accounting losses, without release from the beneficiary's or third party's obligation to the trust enterprise.

3) Where concerning the securities issued in connection with the beneficial interest, performances are in arrears, the managing trustees may, by operation of law, declare all the beneficiary's rights accruing from the securities concerned to be forfeited pursuant to the provisions governing undue delay on the part of the shareholder, without the beneficiary as a debtor being released as a result of this from the remainder of the beneficiary's obligation to perform, to the extent that that obligation to perform relates to the trust fund or the liability or additional performance obligations for the duration of the beneficiary's beneficial interest.

§ 97

dd) Surrender and right of redemption

1) In the absence of any trust directive to the contrary, a beneficiary may avert the obligations arising from the beneficial interest to make further contributions to the trust enterprise, to the extent that such contributions are not intended for the trust fund, by leaving the beneficiary's alienable beneficial interest in the hands of the trust enterprise in a written statement in favour of the reserve fund for balance sheet or accounting losses, whereby the beneficiary's predecessors in the beneficial interest are also released from the duty to effect contributions overdue from the time of their beneficial interest.

2) Where, pursuant to a certain arrangement, prospective beneficiaries are available by virtue of the right of succession, these prospective

beneficiaries, after they have been informed in writing by the managing trustees or any other body authorised pursuant to the trust instrument of the undue delay in performance or of the surrender by a beneficiary or defaulting third party, shall have the right, according to the sequence of their prospective beneficial interest, to redeem that beneficial interest or prospective beneficial interest in return for the fulfilment or, where admissible, in return for appropriate security for the defaulted performance (right of redemption).

3) To the extent that the right of redemption is not exercised pursuant to the preceding paragraph and in all other cases, the spouse, registered domestic partner, or descendants of the beneficiary may exercise that right of redemption and, if several parties entitled to redemption are unable to agree, pursuant to a directive of the Office of Justice.¹⁴⁸³

ee) Assertion of rights

§ 98

aaa) Rights of beneficiaries

1) Within the scope of their rights pursuant to the trust instrument and the law, entitled beneficiaries and prospective beneficiaries, individually or in groups or all together, may demand the observance or fulfilment of their rights by the trust enterprise and the trustees or others under obligation in this respect and, for this purpose, also protective measures.

2) Entitled beneficiaries, individually or in groups or all together, as well as prospective beneficiaries may otherwise assert their claims against third parties only to the extent provided for by law or the third parties themselves are under obligation to them or have committed a tort.

3) The defendant may apply for a security deposit pursuant to the provisions governing voidability actions in the case of legal persons.

4) By means of the trust instrument, trustees or third parties may be entrusted exclusively with the protection of the rights accruing from the possession of beneficial interest or prospective beneficial interest against non-beneficiaries, to the extent that the assertion of the rights of beneficiaries among themselves is not an option or the interests of the trust enterprise are not in opposition to the rights of the beneficiaries.

¹⁴⁸³ Article 932a § 97(3) amended by LGBL 2013 No. 6.

§ 99

bbb) Rights of the trust enterprise

1) The entitled beneficiaries and prospective beneficiaries, individually or in groups or all together, may, on behalf and in favour of the trust enterprise, demand that the trustees or other persons or bodies under obligation in this regard comply with the provisions, in particular the fulfilment of their trust duties pursuant to the law or the trust instrument and the cancellation of inadmissible measures, or they may take direct protective measures against acts or omissions which endanger the rights of the trust enterprise.

2) Where trustees fail to assert in accordance with their duty and the circumstances a due or not due but endangered claim of the trust enterprise against participants or third parties, in particular a claim on grounds of disturbance or withdrawal of possession or ownership of trust property, where such claim comes to the attention of those trustees, individual entitled beneficiaries or prospective beneficiaries or in groups or all together may, moreover, in the absence of any directive to the contrary, themselves call upon the trustees who fail to act to assert the claims within a reasonably determined period of time or request the Office of Justice to call upon them to do so, and after the expiry of this period of time or, in the case of inadequate assertion on the part of the trustees, the entitled parties concerned may assert their claim on behalf and in favour of the enterprise.¹⁴⁸⁴

3) The provisions governing the security deposits in the case of voidability actions shall apply *mutatis mutandis* in favour of the defendants.

§ 100

ccc) In the case of an organisation

1) Where an organisation of the beneficiaries is provided for in the trust instrument and is implemented or is ordered by the Office of Justice, the powers of the beneficiaries may be asserted in accordance with that organisation and subject to any minority rights and such rights as those to which only the individual is entitled, in particular vested rights, such as the right to due yield or the like.¹⁴⁸⁵

¹⁴⁸⁴ Article 932a § 99(2) amended by LGBL 2013 No. 6.

¹⁴⁸⁵ Article 932a § 100(1) amended by LGBL 2013 No. 6.

2) To the extent they are not already so entitled, the organisation as well as any minorities shall have the capacity in official proceedings, in which they shall be represented by authorised persons in conformity with the articles or otherwise, to be a party to and to instigate legal proceedings.

3) Resolutions passed by a meeting of entitled beneficiaries or prospective beneficiaries, including preferentially or similarly entitled parties, convened on the basis of such an organisation may, pursuant to the provisions concerning challenges to resolutions of the supreme body, under the general provisions governing legal persons, be challenged by the participants concerned or repealed *ex officio*, particularly if the resolutions are unlawful or immoral or endanger the State.

4) Resolutions may furthermore be challenged in the same manner if they oppose the interests of the trust enterprise, the entirety of the beneficiaries or a special class thereof, for instance the preferentially entitled beneficiaries, and are suitable only to cause a loss to a minority or individuals.

5) Conduct of the relevant proceedings shall be expedited by the competent authority.

§ 101

ddd) Exceptions etc.

1) The provisions governing the assertion of rights when an organisation exists shall not be applicable if the certificate holders act jointly by operation of law, pursuant to the provisions governing the community of creditors in the case of bonds or if, in the case of public benefit trust enterprises or trust enterprises with similar purposes, the interests of the beneficiaries are taken care of by the representative of public law.

2) Where in a trust enterprise there are beneficial interests other than for persons (firms or legal persons), everyone except the representative of public law may, with the assent of the Office of Justice, demand their fulfilment pursuant to the purpose or object of the enterprise (impersonal beneficial interest).¹⁴⁸⁶

¹⁴⁸⁶ Article 932a § 101(2) amended by LGBL 2013 No. 6.

e) Directory of beneficiaries

§ 102

aa) Obligation to keep a directory and examination

1) Where beneficial interest is not combined with a bearer security or the designation of beneficiaries is not left to the sole discretion of the trustees, other bodies, or third parties, or a public-benefit trust enterprise or trust enterprise with a similar purpose with undesignated recipients of beneficial interest is not otherwise at issue, or impersonal beneficial interests do not exist, the managing trustees, particularly in the case of family trust enterprises, in the absence of other bodies under obligation pursuant to the trust instrument to fulfil this duty, shall set up a directory of the specifically designated entitled beneficiaries and living prospective beneficiaries. The directory shall be kept and updated on an ongoing basis.

2) The directory shall be available for every entitled party to examine and copy in good faith at the expense of the entitled party, either at the premises of those under obligation to keep the directory or at the Office of Justice, if the directory is deposited there for examination, during the usual hours of business.¹⁴⁸⁷

3) If the directory is not deposited at the Office of Justice for examination, a beneficiary may, at the beneficiary's own expense, demand from those under obligation to keep the directory a certificate (certificate of possession of beneficial interest, certificate of prospective beneficial interest) which confirms the beneficiary's right accruing from the beneficial interest or the prospective beneficial interest.¹⁴⁸⁸

4) In the event of the certified right being dropped or amended, such a certificate shall, if the case arises, be returned to those under obligation to keep the directory in order that it may be corrected.

§ 103

bb) Entry

1) The directory shall contain in particular: last name, first name, place of residence, also the date and place of birth if at all possible, if securities are not issued, or (company) name and domicile of the holder

¹⁴⁸⁷ Article 932a § 102(2) amended by LGBL 2013 No. 6.

¹⁴⁸⁸ Article 932a § 102(3) amended by LGBL 2013 No. 6.

of beneficial interest, if applicable of the living prospective beneficiaries including the same information concerning any joint representative, the date of acquisition or loss of possession of the beneficial interest or the prospective beneficial interest, the kind of beneficial interest, and the like.

2) Entry of a transfer of the possession of beneficial interest or the prospective beneficial interest shall be made, in the absence of any directive to the contrary, on the basis of an identification document relating to the formally correct transfer, in the case of succession upon death upon notification by the heir, legatee, executor, administrator or the probate authority and, in the case of the dissolution of a firm or legal person, upon notification by other universal successors or of the liquidators or of the receiver or insolvency administrator.¹⁴⁸⁹

3) Where entry is refused, entry shall be performed if there are important grounds upon application of those entitled to apply, pursuant to the directive of the Office of Justice.¹⁴⁹⁰

§ 104

cc) Effect

1) Once a directory has been established, only that person shall be deemed to be entitled with respect to the exercise of the rights and duties arising from possession of the beneficial interest or prospective beneficial interest who is entered in the directory.

2) The acquiring party must accept any legal acts undertaken by the trust enterprise vis-à-vis the transferor or, conversely, by the transferor vis-à-vis the trust enterprise with regard to the beneficiary relationship, where those legal acts are undertaken before registration of the transfer.

3) The transferor and the acquiring party shall be jointly and severally liable for the performances outstanding from the beneficiary relationship at the time of registration.

4) Pursuant to the provisions governing responsibility, the trustees or others under obligation in this regard shall be jointly and severally liable, without limitation, for losses caused by the directory being kept inadequately or by an unjustified refusal of entry in the directory.

¹⁴⁸⁹ Article 932a § 103(2) amended by LGBL 2020 No. 369.

¹⁴⁹⁰ Article 932a § 103(3) amended by LGBL 2013 No. 6.

2. Designation of the beneficiaries

a) In the case of no directive or an inadequate directive

§ 105

aa) In general

1) In the absence of any other trust directive or where for any reason the provisions governing the beneficial interest cannot be implemented in accordance with their purpose, if, in particular, the rights accruing from the beneficial interest are not, in whole or in part, passed to or are not accepted by the persons (firms or legal persons) considered in one way or another as beneficiaries, it shall be assumed in the case of trust enterprises other than public-benefit trust enterprises or the like that, during the lifetime of the settlor, only the settlor has the right to hold the beneficial interest and if the settlor does not order otherwise by disposition *inter vivos* or *mortis causa* concerning the succession, that only the legal heirs shall have the right of succession to the beneficial interest in particular also to the assets, in accordance with their right of inheritance (implied holding of beneficial interest and implied succession).

2) Should the settlor have been under obligation to form a trust enterprise on grounds of assets paid in by a third party without valuable consideration or should the beneficial interest have been acquired only under these conditions, it shall be assumed in the case of lacking or inadequate directive that this third party is the holder of the beneficial interest or that the third party's universal successors are the implied successors (implied beneficial interest in the case of indirect settlorship).

3) Where persons other than natural persons are to be entitled to the beneficial interest, the further determination of the entitled persons in the case of the termination of the firm or legal person shall, in the absence of any directive to the contrary, be governed by the provisions on transfer of membership resulting from the dissolution of firms or legal persons in the case of registered cooperative societies.

4) Where a public-benefit or charitable purpose or the like is provided for in general terms in the trust articles, without details concerning the manner in which that purpose shall be fulfilled, on its own or alongside other purposes, the Government shall, upon application of the interested parties or upon notice from other authorities or *ex officio*, order in administrative proceedings what is necessary to implement this purpose that has been stated only in general terms, as far as possible within the intentment of the trust instrument.

bb) Rules of interpretation etc.

§ 106

aaa) With regard to the beneficiaries

1) The following rules of interpretation shall be applied with regard to beneficiaries:

1. Where children of a certain person are designated as beneficiaries, these shall be deemed to be the descendants of that person who are entitled to inherit, and the spouse or registered domestic partner shall be deemed to be the surviving spouse or surviving registered domestic partner, if and as long as that spouse or registered domestic partner has not entered into another marriage or registered domestic partnership.¹⁴⁹¹
2. The estate, heirs, legal successors, family, relatives, next of kin or the like of a person shall be deemed to be the descendants entitled to inherit and the surviving spouse or surviving registered domestic partner, if and as long as that spouse or registered domestic partner has not entered into another marriage or registered domestic partnership, and, in the absence of such, those persons (firms or legal persons) who are entitled to inherit the estate of the former.¹⁴⁹²

2) A prospective beneficiary who was not yet born but was already procreated at the time of transfer of the beneficial entitlement from the previous holder to the next successor pursuant to the law or trust instrument (succession case) shall be deemed to have been born before the case of succession.

3) The rules of interpretation of the law of succession concerning the heirs and, where applicable, the legatees shall be applied on a supplemental basis.

§ 107

bbb) With regard to shares in the beneficial interest

1) In case of doubt, the following shall apply with respect to shares in the beneficial interest:

1. if possession of the beneficial interest devolves upon descendants entitled to inherit and the surviving spouse or registered domestic

¹⁴⁹¹ Article 932a § 106(1)(1) amended by LGBl. 2011 No. 370.

¹⁴⁹² Article 932a § 106(1)(2) amended by LGBl. 2011 No. 370.

partner as beneficiary, legal inheritance succession shall apply *mutatis mutandis*; if, however, other heirs are designated as beneficiaries, possession of the beneficial interest shall devolve upon them in accordance with their entitlement to the inheritance;¹⁴⁹³

2. if other persons not entitled to inherit are designated as beneficiaries without their share being defined, they shall be entitled to the beneficial interest in equal parts;
3. where a beneficial interest lapses due, for example, to the predecease of the settlor, refusal by the beneficiaries, revocation of the beneficial interest or the like, this share shall devolve upon the other beneficiaries in equal parts.

2) Where descendants entitled to an inheritance, a spouse or registered domestic partner, parents, grandparents, or siblings are the beneficiaries, possession of the beneficial interest shall devolve upon them, even if they do not take possession of the inheritance.¹⁴⁹⁴

3) Where the expression of a directive concerning beneficial interest is in doubt, it shall be interpreted in such a manner as to ensure that the beneficial interest may be exercised with the least possible hindrance.

4) The rules of the law of inheritance relating to the interpretation of shares of an inheritance or of bequests shall be applied on a supplemental basis.

b) Special succession arrangement in the case of family trust enterprises

§ 108

aa) In general

1) By means of the trust instrument or a body authorised for this purpose, a legal succession arrangement may be provided to govern the possession of beneficial interest or parts thereof, on a permanent basis, with or without a duty on the part of the current holder of beneficial interest to effect compensation for the excluded, equally close relatives or the like, in such a manner that either the first-born from the older line of descent of the settlor or another person or the youngest from the youngest line, or the closest succession-eligible relative by degree of the last holder of beneficial interest, with preference for the eldest or youngest among several equally close relatives or, irrespective of the line and the degree of relationship to the

¹⁴⁹³ Article 932a § 107(1)(1) amended by LGBL 2011 No. 370.

¹⁴⁹⁴ Article 932a § 107(2) amended by LGBL 2011 No. 370.

last holder, the eldest or the youngest from the entire family, or another in the same manner, shall be entitled to succeed the settlor or other persons (entailed trust enterprise).

2) Apart from the succession arrangement, further special provisions may be drawn up concerning succession eligibility, subject to the provisions governing the revocation of the beneficial interest.

3) The special succession arrangement including any special succession eligibility relating to the possession of beneficial interest may be reserved or noted in accordance with the provisions governing the restriction of alienation of trust property.

4) In the case of family trust enterprises with a special succession arrangement, including any special success eligibility, securities relating to the beneficial interest as a whole may not be issued, but they may be issued in regard to individual claims which are already due.

§ 109

bb) Rules of interpretation

1) In the case of primogeniture from the older line of relationship, which is the succession arrangement assumed in case of doubt, the younger line, in the absence of any directive to the contrary, acquires beneficial interest only after extinction of the older line, so that, for example, the descendants of the last holder of beneficial interest take precedence over the latter's brother or sister.

2) Where the trust instrument designates the party which is closest in degree of relationship either to the settlor or, in the case of the beneficial interest being designated for a family other than that of the settlor, the acquirer of beneficial interest, or the party which is closest in degree of relationship to the last holder of the beneficial interest, in case of doubt consideration shall be given more to the higher degree of relationship to the last holder of beneficial interest rather than to the higher degree of relationship to the settlor or to the first acquirer, and among several having an equal degree of relationship, seniority of age shall be decisive.

3) Where it is directed that the beneficial interest shall always devolve upon the next of kin, that next of kin shall in case of doubt be deemed to be the next of kin pursuant to the usual legal inheritance succession from the descendants of the settlor or the person to be considered (inherited entailed trust enterprise), and where there are several equally close relatives, the beneficial interest shall be divided among them, and the

provisions governing the division of beneficial interests shall be applicable on a supplemental basis.

4) In the absence of any other trust directive, no preferential treatment of male descendants versus female descendants shall apply, and the waiver of a beneficial interest or prospective beneficial interest shall be valid only with respect to the person in possession of such beneficial interest or prospective beneficial interest, but not with respect to the person's descendants or other persons.

5) The rules applicable in the case of no directive or inadequate directive shall apply *mutatis mutandis*.

§ 110

cc) In the case of several family trusts

1) If special trust enterprises or other trusts have been established by the same or different settlors for several lines of the same family, so that in addition to a family trust for the first-born line there is one or more trusts for subsequent lines, in case of doubt, the holder of the beneficial interest in the first trust and that person's descendants shall not be entitled to the benefit of another trust until there is no descendant appointed to the trust in the other lines, and the various beneficial interests shall remain united in one person only until another two or more unprovided lines are created.

2) If, in the case of several trusts of this type with succession arrangements, the second line becomes extinct, in the absence of any other directive, the terminated possession of beneficial interest of an appointed, unprovided line shall revert to the first line and shall remain there united with the beneficiary until further lines have been formed.

3) In the absence of any other directive, several lines are deemed to have been formed only when the head of the line who acquired possession of the beneficial interest of the extinct line has died and left several descendants eligible to succeed.

c) *Right of nomination and right of conferment (patronage of beneficial interest)*

§ 111

aa) *In general*

1) The determination of the acquisition (the conferment) or loss of the beneficial interest and any beneficiaries thereof may, in accordance with the trust instrument, be entrusted to other bodies or third parties (collators) instead of the discretion of the trustees, if necessary by applying the rules of interpretation *mutatis mutandis* in the event of a lacking or inadequate directive; where applicable, an announcement may be made concerning application for the beneficial interest or the like.

2) The trust instrument may, to the exclusion of third parties involved, confer a right or, with their assent, impose a duty on the trustees, other bodies, or third parties to nominate the persons (firms or legal persons) to be considered for the conferment of the beneficial interest (beneficial interest patronage).

3) In case of doubt, the persons entitled to make the nomination or the persons under obligation to do so (the nominating parties) and also the trustees, if other bodies have the right to confer, shall also have the duty or the corresponding right to supervise the conferment and to take appropriate measures with regard to the correctness of the conferment and implementation of the beneficial interest.

§ 112¹⁴⁹⁵

bb) *Public call*

If a public call to apply for the beneficial interest is published in the Liechtenstein national newspapers or if the trustees or other bodies publish another announcement or the like which best serves the purpose, it shall contain in particular: the object of the beneficial interest, any obligations of the beneficiaries attached to that beneficial interest, the group of persons appointed in accordance with the trust instrument with as precise a designation as possible, as well as an indication of the time up to which the application or the like is to be submitted, on penalty of exclusion from the application.

¹⁴⁹⁵ § 112 amended by LGBL 2016 No. 402.

§ 113

cc) Effect

1) The conferment of the beneficial interest shall take effect from the time when the beneficiary concerned is notified.

2) However, the beneficial interest may be handed over at the earliest after expiration of the unused period of one month for any judicial or otherwise admissible challenge, from the time of conferment or after the legal validity of the rendered decision, unless important grounds justify an exception.

3) If, as a result of a challenge to conferment of the beneficial interest, another applicant is designated as the beneficiary, the trust enterprise is entitled to a claim for enrichment in favour of the trust reserve fund for balance sheet losses or accounting losses against the person who may have wrongfully received the beneficial interest.

4) If these nominating or conferring bodies or third parties do not exercise their authority or duty in a timely manner, that authority or duty shall, at the request of the participants or, in the case of public-benefit trusts or trusts with a similar purpose, at the request of the representative of public law, and after a reasonable period has been set by the Office of Justice for the individual case and in the absence of any directive to the contrary, be transferred without further steps to the Office of Justice; the Office of Justice may, where necessary, proceed in accordance with the provision on the tracing of beneficiaries (substitute nomination and substitute conferment).¹⁴⁹⁶

5) The provisions governing the withdrawal of the right of nomination in the case of appointment of trustees shall apply *mutatis mutandis* to the withdrawal of the right or duty to confer a benefit or to nominate beneficiaries, as well as the relevant provisions concerning compensation for damages.

d) Securities relating to beneficial interest

§ 114

aa) In general

1) Rights and duties arising from the beneficial interest and of the beneficiaries (certificate holders,) may, by express directive, be combined

¹⁴⁹⁶ Article 932a § 113(4) amended by LGBL 2013 No. 6.

with the ownership of a security, such as an ordinary or preferred trust certificate, beneficial interest certificate, supplementary certificate, free certificate, interim certificate, credit note, depositing certificate or similar classes or types of securities to which, in the absence of any provision to the contrary, the provisions governing securities and, if they embody rights of membership, also those relating to membership securities under the general provisions governing legal entities shall apply *mutatis mutandis*.

2) Where the trust instrument provides for the issue of securities without specifying whether they are to be registered or order securities, or where the beneficiaries are required to make recurring payments or to assume liability or to make further contributions, only registered securities transferable with the consent of the trust enterprise may be issued.¹⁴⁹⁷

3) The securities may not be designated in such a way that, owing to the lack of statutory preconditions, they may be confused with securities without payment of contribution or without other obligations to the trust enterprise, with another form of undertaking or with securities issued thereunder, or with other securities such as shares, profit-participation certificates, bonds or the like, or otherwise lead to deception.

4) Securities relating to beneficial interest may be issued in Liechtenstein by organising a public subscription of contributions to the trust enterprise, but only in accordance with the provisions governing the obligation to issue a prospectus for bonds and, in addition, only with the assent of the Office of Justice.¹⁴⁹⁸

5) By ordinance, the Government may restrict or prohibit the issue of securities relating to beneficial interest in accordance with the provisions governing securities.

§ 115

bb) Registration in the Trust Register

1) In the case of trust enterprises that are subject to the obligation to be entered in the Trust Register or are entered voluntarily, authority to issue securities in accordance with the trust instrument must be registered with the Trust Register, accompanied by an excerpt from the Trust

¹⁴⁹⁷ Article 932a § 114(2) amended by LGBL. 2013 No. 67.

¹⁴⁹⁸ Article 932a § 114(4) amended by LGBL. 2013 No. 6.

Register and a form for the security; this authority shall then be entered by the Office of Justice in extracts and published.¹⁴⁹⁹

2) The registration with the Trust Register must also state, if applicable, whether the securities denominated in a certain nominal amount and certifying a contribution to the trust fund may be issued above or below the nominal value, and possibly also successively.

§ 116

cc) Consequences of unlawful issue

1) If securities have been issued contrary to the provisions of the law, the Office of Justice may, within three years from the time of issue and at the request of interested parties, in particular subscribers or purchasers, or *ex officio*, take action against the issuers by means of the coercive measures permitted in special non-contentious proceedings and, in a public announcement, declare the securities and, where appropriate, the relevant provisions of the trust instrument null and void.¹⁵⁰⁰

2) In addition, the issuers and all those involved in the issue shall be jointly and severally liable, without limitation, to the *bona fide* certificate holders for any damage.

dd) Form and content

§ 117

aaa) In general

1) In the absence of any directive to the contrary, the security certificate shall, to the extent possible, be made out as a proportion of the related beneficial interest, such as, for example, a proportion of the yield or the assets, or both; in the case of several beneficiaries, in case of doubt, identical proportions shall be assumed.

2) Repealed¹⁵⁰¹

3) The certificate issued in relation to the beneficial interest shall be considered an evidentiary document.¹⁵⁰²

¹⁵⁰² Article 932a § 117(3) amended by LGBL 2013 No. 67.

§ 118

bbb) Special information

Apart from the express designation as a security, the security certificate must also contain the special rights derived from the beneficial interest, where applicable with reference to the provisions of the trust instrument relating thereto, the number of securities issued in each case, and, where applicable, the following:

1. in the case of registered securities the transfer of which is subject by law or by trust instrument to the assent of the enterprise, of participants, or of third parties, the inclusion of the relevant provisions and the requirement of such transfer, in accordance with the trust instrument;
2. where different classes of securities are issued to the beneficiaries, the listing of the different classes of ordinary or preferred securities and the name of the class to which the security in question belongs;
3. if the beneficiaries are obliged as settlors for registered or order securities to make recurring payments or the certificate holders are under an obligation to assume liability or make additional performances, the provision on this obligation and the scope of the performance;
4. the amount of any partial payments made to the trust fund and, if possible, the amount still outstanding on any securities that have not been fully paid up, as well as the consequences of delayed payment or default of the balance or recurring performances;
5. in the event that signing of the security certificate is subject in the trust instrument to observance of a particular form, the information concerning those requirements relating to form and the signature of at least one managing trustee or other representative authorised to sign, the signature being signed in person or otherwise produced in the manner customary to business practice.

3. Tracing of beneficiaries

§ 119

a) In general

- 1) Beneficiaries who are unknown or uncertain as to abode, existence, or name may, at the request of the managing trustees or other interested

parties, be summoned by the Office of Justice by way of a public notice procedure.¹⁵⁰³

2) For the unknown or uncertain beneficiaries, an official trustee shall be appointed in accordance with the provisions of the Code of Civil Procedure concerning the proceedings administrator at the expense of the trust property after hearing the managing trustees, unless a counsel or similar statutory representative has already been appointed for individual beneficiaries.

§ 120

b) Content of the summons

1) The summons shall be issued by public announcement, which at the discretion of the Office of Justice may also be published in foreign newspapers or in any other appropriate manner, in accordance with the provisions on the procedure for missing persons.¹⁵⁰⁴

2) The announcement shall state the relevant circumstances such as the (company) name and domicile of the trust enterprise, date of formation, last name, first name, and place of residence or legal name and domicile of the settlor, as well as the initially appointed beneficiaries and the like, and it shall contain the summons to inform the Office of Justice or the trust enterprise or the officially appointed or other trustees of appointed, but unknown or uncertain beneficiaries.¹⁵⁰⁵

3) The announcement shall also include as far as possible what shall happen to the beneficial interest after expiry of the stated time limits if the beneficiary does not report within one year of the announcement or does not provide evidence, in a legally binding manner and in expedited proceedings, of the contested entitlement within a further year following the contestation. A warning may, for instance, be issued to the effect that, until persons with a stronger entitlement emerge, others may be appointed to receive the beneficial interest without the obligation to reimburse, or that the beneficial interests may be declared forfeited by the managing trustees in favour of the reserve fund for balance sheet or accounting losses, or that the trust enterprise may be dissolved or its purpose or organisation amended.

¹⁵⁰³ Article 932a § 119(1) amended by LGBL 2013 No. 6.

¹⁵⁰⁴ Article 932a § 120(1) amended by LGBL 2013 No. 6.

¹⁵⁰⁵ Article 932a § 120(2) amended by LGBL 2013 No. 6.

4) Where securities have been issued, the relevant summons may be made only after the expiry of five years since the last issue or other exercise of the beneficial interest on the securities concerned, with the warning that the latter may be declared forfeited.

§ 121

c) Declaration of forfeiture

1) If beneficial interests are to be declared forfeited after the tracing procedure has been conducted, this may only be done without prejudice to the beneficiary's obligation, if any, to make contributions or to assume liability or to make additional performances up to the day of the relevant announcement and subject to the claim for enrichment of a beneficiary reporting subsequently within the period of limitation of three years from the date of the declaration of forfeiture against the beneficiary who has been enriched as a result of the forfeiture.

2) The trust enterprise shall not be responsible for any obligations associated with the beneficial interests declared forfeited and shall, in the case of any still outstanding performances in favour of the trust fund, reduce the trust fund accordingly, without liquidation.

3) Where, as a result of the tracing procedure, all beneficial interests are declared forfeited at once or gradually in favour of the reserve fund for balance sheet or accounting losses or in favour of the trust enterprise, the provision established in the case of the gradual distribution of assets on the accrual of all beneficial interests to the trust enterprise shall apply *mutatis mutandis*.

4) This article is subject to the provisions governing the cancellation of securities and any special provisions of the law and the trust instruments.

4. Alienation, encumbrance, and transfer

§ 122

a) In general

1) If not provided otherwise in the case of family trust enterprises with or without a succession arrangement or other trust enterprises as, for example, in the case of the inalienability of the beneficial interest or where, by transfer to another party, the content of the performance is changed, the beneficial interest as a whole as well as individual rights and obligations arising from the possession of beneficial interest, including that from the

prospective beneficial interest, shall be alienable, transferable, and inheritable, and the beneficial interest as well as individual rights arising therefrom may be encumbered with limited rights *in rem* and, in accordance with the provisions governing the beneficiaries' creditors, may be included in compulsory execution and in insolvency proceedings.¹⁵⁰⁶

2) Even if, pursuant to the trust instrument, the beneficial interest as such is inalienable or non-transferable, individual claims due may, subject to irrevocability and in the absence of any directive to the contrary, be alienated or encumbered and transferred by legal transaction.

3) The transfer of the beneficial interest as a whole or individual rights shall be made, in the absence of any provision to the contrary of the law or trust instrument or as long as no securities have been issued, pursuant to the provisions governing the assignment of claims and, in the event that obligations are combined with the beneficial interest, pursuant to the provisions governing the assumption of debt or, where applicable, pursuant to the provisions of the law of marital property or inheritance law or the like.

4) To be effective vis-à-vis the trust enterprise in the case of assignment or encumbrance with limited rights *in rem*, the managing trustees must be notified in writing by the assignor or the assignee and/or by the beneficiary to be encumbered or the usufructuary, pledgee or the like and, in the case of the assumption of debt, the written assent of the managing trustees shall be required, in the absence of any directive to the contrary.

5) Where securities have been issued relating to the beneficial interest, the assignment or the encumbrance shall be made pursuant to the provisions governing securities, in the absence of any legislative provision to the contrary.

§ 123

b) Where other assent is needed and the substitution thereof

1) Any other assent to the transfer of the rights arising from the beneficial interest by the managing trustees, other bodies, or third parties shall otherwise be required only if provided for by law or the trust instrument.

2) The assent to the transfer, if the transfer is permissible at all, may be substituted on important grounds by the Office of Justice at the request

¹⁵⁰⁶ Article 932a § 122(1) amended by LGBL 2020 No. 369.

of the beneficiary, the executor, the administrator, the heirs of the legatee, at the time of acquisition by virtue of marital property law or in the compulsory execution or insolvency proceedings, provided that a beneficial interest or prospective beneficial interest is subject thereto, by application *mutatis mutandis* of the relevant provisions for the transfer of a share requiring assent in the case of limited liability companies.¹⁵⁰⁷

3) Except in the cases mentioned above, assent may also be given or substituted on important grounds by the Office of Justice, at the request of the entitled parties, after hearing the managing trustees or, where appropriate, other bodies and any other persons with a legal interest.¹⁵⁰⁸

5. Organisational matters

§ 124

a) In general

1) An organisation shall exist among the entitled beneficiaries and prospective beneficiaries or for individual groups (classes) such as ordinary or preferred beneficiaries only to the extent provided for in the trust instrument or the law.

2) The exercise of the rights of the beneficiaries or groups of beneficiaries may be transferred by the trust instrument to a special body such as a family council or a council of beneficiaries or a family executor or committee whose members are subject to the principles of the mandate and to whose resolutions or directives the participants may be bound *mutatis mutandis* in accordance with the provisions governing resolutions of the supreme body of legal persons.

3) In the absence of any directive to the contrary, this article is also subject to the provisions governing the application of the community of creditors in the case of bonds to holders of securities who are in the same legal position as the trust enterprise, the creation by the beneficiaries of a special organisation to safeguard rights among themselves, and the provisions on family resolutions and compulsory cooperative societies.

¹⁵⁰⁷ Article 932a § 123(2) amended by LGBl. 2020 No. 369.

¹⁵⁰⁸ Article 932a § 123(3) amended by LGBl. 2013 No. 6.

b) Consultation§ 125¹⁵⁰⁹*aa) In general*

1) Where the trustees are entitled to act at their discretion, they shall be empowered, even in the absence of such an organisation, to convene all entitled beneficiaries and prospective beneficiaries, to the extent that their rights are concerned in the individual case, in accordance with the provisions governing the supreme body and at the expense of the trust property, for the purpose of consultation on the directives to be made by the trustees, or to have them convened by the Office of Justice, if their opinion cannot be ascertained at a universal meeting or in writing by means of a circular letter.

2) At the request of the beneficiaries concerned or *ex officio*, the Office of Justice may, by way of a public notice procedure, invite them to a meeting, with notification of the agenda items and the place and time of the meeting. In the absence of any trust directive to the contrary, it may, at the request of participants or *ex officio*, appoint an official trustee at the expense of the trust property for any entitled parties not participating in the meeting to safeguard the rights of the unknown or uncertain beneficiaries, whose legal acts, in case of doubt, require the approval of the Office of Justice in the same manner as an advisory council in guardianship matters.

§ 126

bb) In the case of special classes of entitlements or obligations

Insofar as different classes of entitlements or obligations exist, such as ordinary or preferential beneficial interests with or without securities, special meetings may be held and resolutions may be passed, applying the above provisions *mutatis mutandis*, to the extent that the legal relationships of the entitled persons belonging to the respective class are concerned.

¹⁵⁰⁹ Article 932a § 125 amended by LGBl. 2013 No. 6.

§ 127

cc) Deposited proposals

1) In lieu of meetings, the adoption of relevant resolutions may also take the form of the opinion of the entitled beneficiaries concerned by means of signed assent to a proposal deposited with the trustees or elsewhere.

2) The relevant public notice or other notification shall also contain details of the proposal, the place of deposit, the time up to which the signed assent may be given and after which such assent may be substituted for the unknown or uncertain beneficiaries by the accession of the official trustee.

c) Family resolutions

§ 128

aa) In general

1) To the extent that the affairs of the trust enterprise are not required to be taken care of by the trustees or other (governing) bodies, or the law or trust instrument does not provide otherwise, they may be settled by family resolutions as concurring, binding statements of entitled beneficiaries or prospective beneficiaries, without a definite succession arrangement for the possession of a beneficial interest or a relationship among the beneficiaries being required.

2) The following provisions must be applied when passing binding family resolutions where the trust instrument or a binding family resolution does not determine to the contrary or in the event that not all the beneficiaries including all the prospective beneficiaries or their representatives are in agreement with a family resolution at a universal meeting or in a vote by circular letter pursuant to the related provisions governing consultation and, on a supplemental basis, pursuant to the provisions concerning the passing of resolutions by the supreme body under the general provisions governing legal persons, separated where applicable according to classes of beneficial interests.

3) The adoption of such family resolutions, which, in the absence of any directive to the contrary or assent of the Office of Justice, shall, on important grounds, be passed unanimously, shall not be ruled out by the fact that only a single beneficiary is present.¹⁵¹⁰

4) Within the scope of the trust instrument and the law, the persons entitled to submit a motion for the adoption of a family resolution shall be the managing trustees or the majority of the other trustees or one-fifth of all the eligible voters to be taken into account as well as the Office of Justice, to the extent that the latter on important grounds does not take steps *ex officio*.¹⁵¹¹

5) This article is subject to the amendment *ex officio* of the organisation or the purpose pursuant to the provisions drawn up for family foundations.

§ 129

bb) Convening, submission to Trust Register etc.

1) Insofar as the law or the Office of Justice does not determine to the contrary, entitled participants shall be convened with the enclosure of a copy of the draft of the family resolution; in case of doubt, the managing trustees shall dispatch the invitation by means of registered letter.¹⁵¹²

2) In the case of trust enterprises entered in the Trust Register, a draft of the family resolution shall be submitted to the Office of Justice before the resolution is passed, together with a directory of all the beneficiaries to be included in the consideration of the resolution, unless the family resolution is adopted at a universal meeting convened without an invitation or the Office of Justice acts *ex officio*.¹⁵¹³

3) After adoption and, where applicable, approval of the resolution, the prescribed registration must be made and, to the extent that the resolution has changed registered facts and circumstances relating to registered trust enterprises, be accompanied by an extract concerning the changes to the registered facts and circumstances.

¹⁵¹⁰ Article 932a § 128(3) amended by LGBL 2013 No. 6.

¹⁵¹¹ Article 932a § 128(4) amended by LGBL 2013 No. 6.

¹⁵¹² Article 932a § 129(1) amended by LGBL 2013 No. 6.

¹⁵¹³ Article 932a § 129(2) amended by LGBL 2013 No. 6.

4) To the extent that, in the case of non-registered trust enterprises, facts and circumstances subject to notification are changed, the Office of Justice shall be notified accordingly.¹⁵¹⁴

§ 130

cc) Right of participation

1) To the extent that their rights or obligations are concerned, all entitled beneficiaries and prospective beneficiaries or their representatives authorised in writing are entitled to participate in the meeting, provided they prove their entitlement by public document or by a document issued by the managing trustees or by another competent body or, lastly, by the entry in the directory of entitled parties kept by the trust enterprise or by a certification of that entry, or if all other entitled parties who are present to pass the family resolution and the trustees acknowledge them to be entitled to participate.

2) Where there is no reason to assume that other parties entitled to participate exist in addition to the known and convened parties, the written assurance of the managing trustees to the effect that there are no known beneficiaries who should be taken into account shall suffice; otherwise, the family resolution may be passed only after the entitled parties whose existence, abode, or name is unknown or uncertain, have been excluded with their objection by way of a public notice procedure, unless an official trustee has been appointed for them upon application of participants or *ex officio*.

3) Should, by means of a written notice to the trust enterprise, an objection be raised against the entitlement to participate in the family resolution, the trust enterprise shall request, in writing, the person against whom the objection is raised to bring proceedings, within one month of the receipt of the summons, against those disputing the entitlement. The purpose of the proceedings shall be to establish expeditiously the right to participate, failing which the family resolution taken without involvement of that person shall not be challengeable for that person.

4) A person eligible to vote may not participate in a family resolution and may not exercise a voting right for another for the same reasons as those which exclude a member from the right to vote at a meeting of the supreme body in the case of a legal person, and likewise if the eligible voter's special rights and obligations are concerned.

§ 131

dd) Public notice procedure (official tracing)

1) The tracing of unknown or uncertain entitled beneficiaries shall be done pursuant to the provisions governing the tracing of beneficiaries, to the extent that derogations therefrom do not arise from the provisions set out here.

2) In addition to the subject matter of the family resolution, the public announcement shall also contain a statement to the effect that the beneficiaries concerned may object in writing, at the latest within a certain time period of not less than one month from the day the announcement is made, to the trust enterprise concerning the passing of the family resolution or against the entitlement to participate in that family resolution, failing which they shall be excluded with their objection and the family resolution shall be legally binding upon them.

§ 132

ee) Adoption and approval of resolutions

1) Adoption of a family resolution shall be by way of a public document or a document signed by all participants or official trustees.

2) A family resolution may be established in this form only once the preceding provisions are observed, the relevant time limit has expired, and, in the case of timely action concerning entitlement to participate, a final decision has been made on that action, insofar as in the latter case a special trustee did not participate temporarily in lieu of those whose right to participate is in dispute.

3) In the absence of any other trust directive, the family resolution shall require the approval of the Office of Justice where an official trustee has participated on behalf of unknown or uncertain entitled beneficiaries or prospective beneficiaries or to the extent that the law prescribes approval even for the acts of statutory or otherwise officially appointed representatives.¹⁵¹⁵

¹⁵¹⁵ Article 932a § 132(3) amended by LGBL 2013 No. 6.

§ 133

d) Compulsory cooperative society

1) In the absence of a trust directive to the contrary, the Office of Justice may, where organisation is lacking or inadequate, establish a compulsory organisation for all beneficiaries or certain groups (classes) on important grounds, such as, in particular, the mutual safeguarding of rights, on the application and at the expense of the parties concerned, by applying *mutatis mutandis* the provisions governing small cooperative societies.¹⁵¹⁶

2) Before forming the cooperative society, the applicants, the managing trustees, and the beneficiaries concerned shall be heard if at all possible, as well as any trustee appointed by the register office for the unknown or uncertain beneficiaries following the issuance of a public notice, where such notice includes information concerning the purpose of summoning the beneficiaries and a warning that after the expiration of an appropriate period of time, such trustee appointed by the register office may act on their behalf in a legally binding manner.

3) Within the scope of the trust instrument, the Office of Justice shall, by operation of law and with effect for and against the trust enterprise, participants, and third parties, be empowered to take all the measures necessary for the formation of such a compulsory organisation, in particular for drawing up the articles of association with determination of the obligation to effect contributions towards the costs and for the appointment of an executive board and other bodies which may be necessary.¹⁵¹⁷

4) With the approval of the Office of Justice, such a compulsory cooperative society may be dissolved or cancelled by a resolution passed by an absolute majority of the members of the cooperative society, furthermore, by operation of law, when all the beneficiaries are no longer available or the trust enterprise is terminated and, unless an exception is justified on important grounds, without liquidation.¹⁵¹⁸

V. Creditors of the participants

§ 134

1. In general

1) In the absence of any directive to the contrary, the relevant provisions governing the trust in general shall be applied *mutatis mutandis*, within the scope of the law, to the legal position of the creditors of the participants as such in proceedings to secure rights, compulsory execution proceedings, and insolvency proceedings.¹⁵¹⁹

2) A trust enterprise without commercial operations, whose purpose is family welfare, a public benefit, or charity, may assert its claims against participants as such, also in secondary compulsory execution in the same way as a ward, without prejudice to the other position of the trust property in the case of compulsory execution against the participants and in their insolvency proceedings.¹⁵²⁰

3) To the extent no exceptions are provided, this article is subject to the provisions of the law governing challenge, as well as the provisions of the law governing acts voidable at the instance of creditors and the law governing gifts and inheritance.

§ 135

2. Creditors of the settlors

1) Where collections are unsuccessfully carried out against a settlor by a creditor other than the trust enterprise or insolvency proceedings are opened in respect of the settlor, the promise of a contribution by the settlor, without valuable consideration, in favour of the creditors or the insolvency administrator shall lapse in the case of a trust enterprise where, as a result of a directive of the settlor, the beneficial interest is acquired without valuable consideration.¹⁵²¹

2) Where a settlor in the capacity as trustee of a trust enterprise set up by another person or in fulfilment of an obligation entered into in favour of a third party, for which that third party has contributed or promised to contribute assets without valuable consideration, has secured the beneficial interest without valuable consideration, then the prerequisites

¹⁵¹⁹ Article 932a § 134(1) amended by LGBL 2020 No. 369.

¹⁵²⁰ Article 932a § 134(2) amended by LGBL 2020 No. 369.

¹⁵²¹ Article 932a § 135(1) amended by LGBL 2020 No. 369.

for the lapse of the promise must be present in the case of the first settlor or third party concerned.

3. Creditors of the beneficiaries

a) Non-withdrawability (protective trust)

§ 136

aa) In general

1) The creditors of an entitled beneficiary or a prospective beneficiary entitled to a succession may not withdraw from them their beneficial interest or prospective beneficial interest acquired on grounds of the trust instrument without valuable consideration or individual claims therefrom, by way of proceedings to secure rights, compulsory execution proceedings, or insolvency proceedings.¹⁵²²

2) Where, in the case of a beneficial interest acquired on the basis of the trust instrument for valuable consideration, that trust instrument contains, in particular, the provision that the beneficial interest shall be inalienable, but may, however, be transferred by way of universal succession, or a party shall no longer be entitled to it or no longer have a claim to it once that party is insolvent or wishes to assign or encumber the beneficial interest, or that from such a time the beneficial interest may or shall be bestowed by the trustees or other bodies upon the former entitled beneficiary, the latter's spouse or descendants, or other persons or in any other way at the discretion of those trustees or other bodies, or where a similar provision exists, the beneficial interest shall likewise not be withdrawable by the creditors of the beneficiaries or the prospective beneficiaries, subject to the provisions of the law governing acts voidable at the instance of creditors and the law governing gifts and inheritance.¹⁵²³

3) The beneficial interest received from trust enterprises with a public-benefit or charitable purpose may under no circumstances be withdrawn.

¹⁵²² Article 932a § 136(1) amended by LGBI. 2020 No. 369.

¹⁵²³ § 136(2) amended by LGBI. 2011 No. 370.

§ 137

bb) Special cases

1) Where the prospective beneficiaries have acquired their rights pursuant to the preceding paragraph, but not their predecessors or the present holders of beneficial interest, the rights of the latter, without prejudice to those of the other prospective beneficiaries, may be withdrawn only to the extent that they extend to the period of the right of use in respect thereof.

2) Where beneficiary or prospective beneficiary rights acquired pursuant to the preceding paragraph exist only in part, the preceding provisions shall apply *mutatis mutandis* in the absence of a more extensive trust directive.

3) Where, as the result of revocation owing to unworthiness of trust or as the result of the assertion of claims on grounds of the breach of duty to support or of the need for support, the beneficial interest is transferred to a party other than the settlor, any non-withdrawability shall nevertheless persist.

b) Withdrawability

§ 138

aa) Possession of beneficial interest

1) Where the prerequisites concerning non-withdrawability do not apply, claims under property law accruing from the beneficial interest and the beneficial interest itself may be withdrawn pursuant to the following provisions by way of proceedings to secure rights, compulsory execution proceedings, or insolvency proceedings, to the extent that the beneficiary has own rights and to the extent that and as long as that beneficiary may dispose of those rights, the existence of the rights of others is not questioned, and any obligations tied to the beneficial interest are accepted by the acquiring party, in the absence of any directive to the contrary.¹⁵²⁴

2) Insofar as the delivery of an asset component to the beneficiary in consequence of the beneficiary's right of termination, dissolution, or the like is provided for in the trust instrument, the creditor or the insolvency administrator may exercise the right of termination in lieu of the beneficiary and demand delivery of the asset component by applying

¹⁵²⁴ Article 932a § 138(1) amended by LGBL 2020 No. 369.

mutatis mutandis the relevant provisions governing termination in the case of registered cooperative societies, to the extent that no derogation arises from the provision concerning the redemption sum.¹⁵²⁵

3) Where the inalienable beneficial interest acquired on the basis of the trust instrument for valuable consideration may be transferred to another person only by way of universal succession, non-withdrawability shall not preclude the creditor's satisfaction in respect of claims arising from intentional and unlawful injury committed by the beneficiary concerned.

4) In spite of the non-withdrawability of the beneficial interest, the injured party may seek satisfaction for claims against a beneficiary arising from acts or omissions committed in bad faith and unlawfully, if the loss of the beneficial interest acquired without valuable consideration is for some reason not provided for or the trust instrument does not determine otherwise, and the assertion of such a claim does not prejudice the rights of others or the ability of the beneficiary at fault, the beneficiary's spouse who has not remarried, the beneficiary's registered domestic partner who has not entered into a new registered domestic partnership, and the beneficiary's underage descendants or descendants otherwise not provided, to draw on the beneficial interest for the purpose of reasonable subsistence (food, clothing, and accommodation) and reasonable upbringing.¹⁵²⁶

5) Where it is incumbent upon the beneficiary profiting from the non-withdrawability to provide support under family law, the parties entitled to such support may have recourse to the beneficial interest or to individual claims therefrom for the duration of the support obligation, to the extent that the beneficiary is not deprived of the necessary means of subsistence as a result.

6) Where the settlor is as at the same time the sole first beneficiary, or the settlor has alone acquired the beneficial interests later for valuable consideration, without prospective beneficiaries with right of succession being present or, where applicable, any other person alone has acquired for valuable consideration all the rights accruing from the beneficial interests, regardless of whether that person is also the sole trustee (one-person trust) or not, the provisions governing the special creditor in the case of the sole proprietorship with limited liability¹⁵²⁷ shall apply *mutatis mutandis*.

¹⁵²⁵ Article 932a § 138(2) amended by LGBL 2020 No. 369.

¹⁵²⁶ § 138(4) amended by LGBL 2011 No. 370.

¹⁵²⁷ The provisions on sole proprietorships with limited liability (Articles 834 – 896a) were repealed by the Law of 15 April 1980, LGBL 1980 No. 39.

§ 139

bb) Prospective beneficial interest

1) Before the devolution of the beneficial interest, a prospective right to a beneficial interest with a current asset value may be withdrawn by way of proceedings to secure rights, compulsory execution proceedings, or insolvency proceedings only provided it is alienable and nothing to the contrary arises from the law or the trust instrument in the same manner as for the possession of a beneficial interest, otherwise any disposition to the contrary is null and void.¹⁵²⁸

2) Where a possession of beneficial interest and a prospective beneficial interest related thereto are claimed simultaneously by the creditors, the creditor of the holder of the beneficial interest may assert claims to that effect only without prejudice to the rights of the prospective beneficiary's creditors.

§ 140

c) Right of subrogation

1) If compulsory execution is carried out against the right arising from the beneficial interest as such or insolvency proceedings are opened in respect of the beneficiary's assets, a prospective beneficiary designated by name or otherwise with right of succession may, in the absence of any other legal directive, subrogate the trust relationship, provided that approval of the holder of the beneficial interest is given or, in the case of the prospective beneficial interest of the prospective beneficiary against whom collections are being carried out or on other important grounds, approval of the Office of Justice, against payment of the cash value of the beneficial interest concerned to the petitioning creditor or the insolvency estate in lieu of the beneficiaries concerned.¹⁵²⁹

2) If no prospective beneficiary designated by name or with right of succession is available, the spouse or registered domestic partner and the descendants of the holder of the beneficial interest shall be entitled to the same right, jointly or individually, and in case of dispute, pursuant to the directive of the Office of Justice.¹⁵³⁰

3) Subrogation shall be effected by written notification by the parties with right of subrogation to the trust enterprise and to the creditor or

¹⁵²⁸ Article 932a § 139(1) amended by LGBL 2020 No. 369.

J. Responsibility

§ 141

I. In general

1) Unless otherwise provided by law, the provisions concerning responsibility in the case of companies with legal personality shall apply *mutatis mutandis* to trust enterprises with commercial activities, and in the case of other trust enterprises, the remaining provisions concerning responsibility under the general provisions governing legal persons shall also apply *mutatis mutandis* to the trust enterprise, the participants, and third parties.

2) Where, pursuant to the preceding paragraph, the law makes reference to members of legal persons, these shall instead be deemed to be the beneficiaries of the trust enterprise to be considered and, where the law makes reference to major shareholders, these shall be deemed to be those beneficiaries with corresponding shares in the beneficial interest.

3) The responsible parties may not, on grounds of the obligations arising from their responsibility, credit the advantages they have procured from the trust enterprise in another manner for the trust enterprise or for the party that has a liability claim arising otherwise from the responsibility (no adjustment of advantages).

4) Unless otherwise provided, several responsible parties shall be jointly and severally liable, without limitation, to the parties entitled to claim; those parties shall bear the damage arising from the responsibility in equal parts, and similarly, they shall have rights of recourse in the same proportions with appropriate allowance being made, however, for the advantages drawn by the individual parties, to the extent that they are not claims in bad faith.

¹⁵³¹ Article 932a § 140(3) amended by LGBL 2020 No. 369.

¹⁵³² Article 932a § 140(4) repealed by LGBL 2020 No. 369.

5) Derogating from the provisions of this Act concerning responsibility, the trust instrument may declare those provisions concerning responsibility under the general provisions governing legal persons to be solely applicable *mutatis mutandis*.

6) To the extent that nothing else is indicated by the law, the trust instrument, or the relevant legal relationship, members of other governing bodies or persons otherwise active in accordance with the trust instrument shall be responsible pursuant to the provisions governing agency agreements.

II. Responsibility of trustees

§ 142

1. In general

1) In addition to the cases otherwise provided for by law, the managing trustees, to the extent that they are concerned in the individual case, shall be under obligation to the trust enterprise, other participants, and third parties to comply correctly with the law, the trust instrument, the resolutions or instructions of competent offices, third parties, the court, or the Office of Justice and shall be responsible for the damage arising from the culpable non-fulfilment of these duties (breach of trust) in the same way as the members of the governing body of a company with legal personality.¹⁵³³

2) Non-managing trustees shall be responsible for the damage arising from the inadequate supervision of the managers and, where they themselves have appointed the managing trustees or employees to general management or other (governing) bodies, they shall likewise be responsible for the damage arising from fault in the appointment (selection), as well as from the inadequate use of the employees.

3) The responsibility of the trustees on grounds of gross negligence or intent cannot be excluded in advance by the trust instrument or resolutions and instructions of the competent bodies.

¹⁵³³ Article 932a § 142(1) amended by LGBL 2013 No. 6.

2. Special liability cases

§ 143

a) In the case of co-trustees

1) In the absence of any directive to the contrary, a co-trustee is also particularly responsible on grounds of breach of trust for the damage arising from the acts or omissions of another trustee:

1. where that co-trustee hands over to another trustee trust property received or permits such a trustee alone to receive such trust property without taking the precautions, prescribed or necessary under the circumstances of the individual case, for faithful administration and use, or fails to supervise the trustee appropriately;
2. in the event that that co-trustee gains knowledge of an attempted or committed breach of trust on the part of a co-trustee and fails to undertake the steps necessary and appropriate under the circumstances for the prevention of the breach of trust and/or for the assertion of the claims arising therefrom on behalf of the trust enterprise or the like.

2) Where together with others, a trustee has co-signed an acknowledgement of receipt in the usual or prescribed manner without, however, having personally received anything and where the receiving trustee has misused that which has been received, the co-signatory shall not be responsible, without prejudice to the obligations arising from breach of the duty of supervision or the like.

3) Where one of several trustees has alone received and misused trust property or otherwise has unlawfully derived advantages from it, or in the event that a breach of trust has been committed solely as the result of the advice of a co-trustee appointed as expert for the enterprise or where, in any case, only one of the co-trustees alone is at fault, that trustee alone shall, in the absence of any trust directive to the contrary, compensate the damage.

§ 144

b) In the case of succeeding and departing trustees

1) A trustee appointed subsequently is guilty of a breach of trust with liability for damages if that trustee fails to assert, at the expense of the enterprise and in a manner appropriate to the circumstances, the compensation claims of the enterprise that the trustee is aware of, arising from a breach of trust committed by the trustee's predecessors.

2) A resigning trustee shall be responsible for the damages arising from a breach of trust if the trustee departs with the intention of thereby enabling that breach of trust to be committed.

§ 145

III. Responsibility of the beneficiaries

1) Where co-beneficiaries have induced a trustee to commit a breach of trust, or otherwise in their simultaneous capacity as trustees alone, have committed or assented to such a breach of trust, they alone shall be liable for the damages incurred, up to the amount of their rights to beneficial interest and, beyond this, jointly with other persons at fault, to the other parties entitled to claim; the trust enterprise, however, to the extent that it is entitled to claim, shall have a lien on the beneficial interest, unless that beneficial interest has been declared inalienable.

2) In the absence of any directive to the contrary and subject to the right of offset or retention, this lien on the beneficiaries' right shall not extend to the claims to which the beneficiary is entitled from another trust, even if they are contained in the same trust instrument.

3) This article is subject to the provisions governing the responsibility of third parties.

§ 146

IV. Responsibility of third parties as constructive trustees

1) Where a third party acts in relation to the trust enterprise with the intentional deception that as a trustee, the third party is empowered to act in that capacity; or where the third party otherwise interferes in general management without authority to do so; or where the third party, in the purported capacity of trustee or in the knowledge of a breach of trust committed by another, receives trust assets in an inadmissible manner or otherwise draws utility from trust property in a manner which is unlawful or in bad faith; or where the third party in other cases knowingly helps the trustees to commit a breach of trust, then that third party shall be liable in the same way as a trustee and, like the latter, shall be under obligation to provide information.

2) Representatives, employees, auxiliary persons and the like of a trust enterprise shall also be deemed to be third parties.

3) Otherwise, third-party acquirers of trust property shall not be under obligation to ensure that their consideration is used in accordance with the law and the trust instrument.

V. Release from responsibility

§ 147

1. In general

1) Where, in spite of committing a breach of trust, a trustee proves to have acted in good faith and under the prevailing circumstances was no longer able to obtain the assent of the parties authorised to give such assent or of other competent bodies or the instructions of the Office of Justice, the court or other competent authority may, if a claim is asserted, decide at its discretion whether an obligation to pay damages exists and whether other consequences shall ensue.¹⁵³⁴

2) Where an entitled beneficiary induces a trustee to commit a breach of trust or consents to or participates in such a breach of trust, there shall be no responsibility on the part of the trustee towards the entitled beneficiary concerned and, where that entitled beneficiary is the sole beneficiary, also towards the trust enterprise, provided the latter is not overindebted.

3) This provision is also subject to a waiver of the claim arising from the responsibility in the event of slight negligence or a possible discharge on the part of all parties entitled to claim or other bodies so authorised, to the extent that the creditors of the trust enterprise do not suffer loss thereby.

2. Period of limitation

§ 148

a) In general

1) In the absence of any directive to the contrary, claims arising from responsibility shall be subject to a period of limitation of three years from the time when the act or the omission which established the responsibility took place and no longer continues.

¹⁵³⁴ Article 932a § 147(1) amended by LGBL 2013 No. 6.

2) Where, however, the claim arises from a punishable act or omission for which criminal law provides a longer period of limitation, that period of limitation shall also be valid with respect to the claim arising from the responsibility.

3) As long as a trustee occupies the position, the period of limitation commences to run in the trustees favour only if slight negligence is involved and the trustee no longer holds the trust property or its equivalent value from the breach of trust.

§ 149

b) In the case of rights of recourse

Rights of recourse of the responsible parties among themselves shall be subject to the principles of the legal relationship which is decisive in the individual case, and they become statute-barred after expiry of the time periods mentioned above, which, however, commence to run only from the time when one of the jointly responsible parties is made legally responsible by a final decision.

VI. Protective and preventive measures

§ 150

*1. Instruction by the Office of Justice*¹⁵³⁵

1) In the case of well-founded doubt concerning the admissibility of the execution or omission of a certain act to be performed at present or concerning the interpretation of the trust instrument regarding, for instance, the separation of capital and yield or the like, the managing trustees may, at the expense of the trust enterprise, with or without the involvement of other participants and with submission of the facts and circumstances, approach the Office of Justice for an instruction. In complying with this instruction, no claim arising from responsibility may be asserted against those managing trustees (official instruction).¹⁵³⁶

2) In urgent cases or on other important grounds, this right may be exercised by any trustee, even where the trust instrument determines otherwise.

¹⁵³⁵ Article 932a § 150 heading amended by LGBL 2013 No. 6.

¹⁵³⁶ Article 932a § 150(1) amended by LGBL 2013 No. 6.

§ 151

2. Liability insurance and right of refusal

1) The managing trustees are authorised to take out, at the expense of the trust enterprise, appropriate liability insurance against all the obligations arising for them from responsibility, to the extent that these obligations are not the result of gross negligence or intent (trustee liability insurance).

2) To the extent that the law does not allow exceptions regarding instructions of the entitled beneficiaries, the managing trustees may refuse to implement the provisions of the trust instrument, the resolutions, or instructions of other competent participants, bodies, or third parties authorised in this regard if those provisions, resolutions, or instructions violate the law or provisions of the trust instrument permitted by law and the implementation thereof would render the managing trustees responsible pursuant to the provisions set out here or elsewhere (right of refusal).

§ 152

*3. Occasional audit*¹⁵³⁷

1) Where neither an audit office nor a special supervisory trust body or similar body is provided for and the trust instrument does not contain a provision to the contrary, the trustees shall be empowered, without prejudice to the official audit otherwise authorised by law, to have an audit carried out from time to time at the expense of the trust enterprise.¹⁵³⁸

2) This article is subject to other measures permitted by law or the trust instrument.¹⁵³⁹

¹⁵³⁷ Article 932a § 152 heading amended by LGBL. 1980 No. 39.

¹⁵³⁸ Article 932a § 152(1) amended by LGBL. 1980 No. 39 and LGBL. 2000 No. 279.

¹⁵³⁹ Article 932a § 152(2) amended by LGBL. 1980 No. 39.

§ 153

4. Security deposit etc.

1) The trust instrument may provide or allow, or the Office of Justice may, on important grounds and after hearing participants, direct that trustees may take up their position or continue in that position only after they have deposited, at their own expense, an appropriate security for the faithful and conscientious exercise of their position and for any claims for compensation. Such security may be provided by promissory note, guarantee or the like.¹⁵⁴⁰

2) In the event that the security is not deposited within a reasonable period of time, which if necessary shall be determined by the Office of Justice, it shall be assumed that the person appointed or already acting as trustee does not wish to accept the position or has renounced the further exercise thereof; any required registrations with the Trust Register shall be arranged, and claims for damages shall be reserved.¹⁵⁴¹

3) Managing trustees as well as individual trustees or employees may, on important grounds, renounce all further responsibility arising from the administration of the trust assets also by transferring the trust assets, to the extent admissible, at the expense of the trust enterprise to the Landesbank or, with the assent of the Office of Justice, to another suitable body for appropriate administration and use.¹⁵⁴²

4) The preceding provisions shall apply *mutatis mutandis* to members of other (governing) bodies appointed under the trust instrument.

K. Official trust supervision office and audit

I. Official trust supervision office

§ 154

1. Appointment

1) The Office of Justice may, on important grounds, appoint a trust supervision office for trust enterprises without commercial operations. Such an appointment may be made upon application by participants or such persons or bodies that have a right to appoint, remove, or nominate trustees or have a right of nomination for or conferment of beneficial

¹⁵⁴¹ Article 932a § 153(2) amended by LGBL 2013 No. 6.

¹⁵⁴² Article 932a § 153(3) amended by LGBL 2013 No. 6.

interest, or of the settlor's universal successors or executors who have made available without valuable consideration the entire trust fund for the beneficial interest.¹⁵⁴³

2) Such an office may also be appointed by direction of the settlor, without the Office of Justice having to make such an appointment, in the absence of important grounds.¹⁵⁴⁴

3) A supervision office may be appointed regardless of whether the otherwise prescribed number of trustees exists or not.

4) In the absence of any directive to the contrary, consideration should, where possible, be given to the Landesbank as the public trustee when appointing a supervision office.

§ 155¹⁵⁴⁵

2. *Dissolution*

After considering all the circumstances, the Office of Justice may, upon application by the supervising or other trustees or participants, partly or completely dissolve the trust supervision office, especially if this is the unanimous wish of all the entitled beneficiaries or in the event that this appears to be called for on other important grounds and the trust instrument does not determine otherwise.

3. *Rights and duties*

§ 156

a) *In general*

1) To the extent that the law or trust instrument does not determine otherwise, the supervision office shall have those rights and duties determined by the Office of Justice at the time of appointment or subsequently, but at least those which the supervisory board has in the case of a public limited company, and, additionally, its members shall have the position of supplementary trustees.¹⁵⁴⁶

¹⁵⁴³ Article 932a § 154(1) amended by LGBL 2013 No. 6.

¹⁵⁴⁴ Article 932a § 154(2) amended by LGBL 2013 No. 6.

¹⁵⁴⁵ Article 932a § 155 amended by LGBL 2013 No. 6.

¹⁵⁴⁶ Article 932a § 156(1) amended by LGBL 2013 No. 6.

2) When exercising their rights and duties, the supervising trustees shall, as far as possible, take into consideration not only the type and the position of the other trustees but also the wishes of beneficiaries, to the extent that they are compatible with the law or trust instrument or the instruction of the Office of Justice.¹⁵⁴⁷

3) To the extent that no derogations have been specified otherwise for the supervising trustees or nothing else arises from the purpose of the supervision office, the provisions governing the other trustees shall apply *mutatis mutandis*; the supervising trustees, however, shall pass resolutions with an absolute majority of the votes.

b) Relationship to other trustees

§ 157

aa) In general

1) In relation to the other (managing) trustees, the supervising trustees shall, without prejudice to the rights and duties of other participants or third parties, supervise the entire trust enterprise, in particular the assets, any securities, documents, or the like, with the proviso that the other trustees shall at all times during the normal hours of business have access to the assets, securities, documents, etc., and may make the necessary copies at the expense of the trust enterprise.

2) The direct asset administration activities of the other trustees and the exercise by the other trustees of their powers pursuant to the law or trust instrument or the instructions of the Office of Justice shall be safeguarded for the other trustees.¹⁵⁴⁸

3) The supervising trustees shall participate in this regard and undertake whatever is necessary to enable the other trustees to exercise their powers and fulfil their duties, unless the participation calls for a breach of trust or could lead to a personal liability for the supervising trustees.

¹⁵⁴⁷ Article 932a § 156(2) amended by LGBL 2013 No. 6.

¹⁵⁴⁸ Article 932a § 157(2) amended by LGBL 2013 No. 6.

§ 158

bb) Participation in the appointment of trustees etc.

1) In the absence of any directive to the contrary, the right or duty of the other trustees to appoint trustees, to nominate or remove or the like, shall be exercised jointly with the supervising trustees.

2) Provided there is no imminent danger or not only a temporary measure is involved, the supervising trustees shall be heard before trustees are appointed or removed or similar measures taken by the Office of Justice, upon application by participants or third parties or *ex officio*.¹⁵⁴⁹

§ 159

cc) Regarding trust assets and yield

1) Without prejudice to the management activities of the other trustees, the supervising trustees shall take particular care that the trust assets and their yield are administered and used for the intended purpose, as though they were the sole trustees.

2) In the absence of any trust directive to the contrary, payments from the trust assets or the yield shall be made by the supervising trustees, and payments to the trust enterprise shall likewise be made to the supervising trustees.

3) Those supervising trustees may, however, permit payments to the trust enterprise to be received by other trustees or third parties, without the supervising trustees being liable for any fault of those other trustees or third parties, to the extent there is no deficiency in the supervision.

§ 160

4. Responsibility

1) The provisions governing the responsibility of other trustees shall apply to supervising trustees *mutatis mutandis*, with the proviso that they shall not be responsible for the acts or omissions of other trustees or bodies, insofar as they themselves are not responsible for a fault in the supervision.

¹⁵⁴⁹ Article 932a § 158(2) amended by LGBl. 2013 No. 6.

2) Where, in the determination of beneficiaries and the payment of beneficial interests, the supervising trustees act in good faith on the basis of written statements by the other trustees or otherwise competent bodies, no responsibility shall devolve upon them, notwithstanding any responsibility of the other trustees.

II. Official audit

§ 161

1. Appointment and removal of auditors

3) Upon application by and after hearing the participants concerned, particularly the managing trustees, the Office of Justice may, in the absence of any other provision, undertake a mere correction of the trust instrument.¹⁵⁵⁶

4) In the absence of known entitled beneficiaries, the amendment may be made only subject to the later appearance of such entitled beneficiaries within the period of limitation if the rights of others may be violated and the trust instrument does not determine otherwise.

§ 166

II. Conversion and merger

1) The trust instrument may provide for the conversion of a trust enterprise into an undertaking (firm or legal person) having another legal form or the merger with such an undertaking or another trust enterprise or another fiduciary undertaking, without liquidation of the trust enterprise, pursuant to detailed regulation and observing the provisions otherwise in force for the other legal form.

2) The conversion of a trust enterprise without legal personality into a trust enterprise with legal personality or vice versa, without other changes to the trust articles, may, in the absence of any directive to the contrary, be undertaken at any time by operation of law by the managing trustees without liquidation.

3) On a supplemental basis, the provisions drawn up for registered cooperative societies shall apply *mutatis mutandis* to the conversion and merger of trust enterprises whose participants or third parties have liability or additional performance obligations.

IV. Effect

1) The special liability of the assets of the dissolved or amended trust enterprise with commercial operations and that of any participants and third parties for the liabilities of the trust enterprise accruing up to the time of the amendment, merger, or voluntary conversion shall persist for one year from that time; in the case of a merger, unless the Office of Justice allows an exception or liabilities do not exist, the assets of the dissolved trust enterprise shall be administered separately and a separate account shall be kept accordingly.¹⁵⁶⁰

2) Up to that time, in the case of a merger, the received assets shall still be deemed to be the assets of the dissolved enterprise, as far as the relationship of the creditors of the dissolved trust enterprise to the receiving trust enterprise and to its other creditors is concerned, and compulsory execution may take place against the receiving trust enterprise as well as special insolvency proceedings limited to the received assets.¹⁵⁶¹

3) The trust instrument may determine that the certificate holders are under obligation to return their securities to the new form of undertaking, where applicable against a corresponding claim, otherwise they may be deprived of their rights with or without compensation.

2) If, on the other hand, a personal community among the parties exists, the provisions on joint ownership shall apply *mutatis mutandis*.

3) The provisions governing the simple community of rights shall apply on a supplemental basis *mutatis mutandis* to all other communities, regardless of how they came into being.

2) Each participant shall be entitled to the fraction of the fruits corresponding to that participant's share.

3) Each participant shall be entitled to use the common object to the extent that joint use by the other participants is not impaired and the law or contract does not provide otherwise.

4) Each participant may dispose of that participant's share alone, but the participants may dispose of the common object only jointly.

5) One participant is obliged in relation to the other participants to bear the burdens of the common object as well as the necessary or usual costs of maintenance, administration, and common use according to the proportion of that participant's share or to compensate the other participants accordingly.

C. Administration

Article 935

I. In general

- 1) Unless otherwise agreed, the participants shall be jointly entitled to administration of the common object or other right.
- 2) A participant shall be entitled to take the usual administrative actions and measures necessary for the preservation of the object without the consent of the other participants, unless the majority decides otherwise.
- 3) Each participant may, unless administration and use are governed by agreement or by majority resolution, demand administration and use which are in the interest of all participants at their own reasonable discretion.
- 4) A participant may demand a statement of accounts, provision of information, and distribution of the proceeds.
- 5) The participant shall be liable for any fault.

Article 936

- 3) The right of the individual participant to a fraction of the uses corresponding to that participant's share may not be impaired without the participant's consent.
- 4) If the administration and use of the common object or right is governed by majority resolution or judgment or by a document equivalent thereto, the provision made shall be effective also for and against all special successors, but in the case of rights under the Land Register only if the provision has been reserved in the Land Register.

*D. Dissolution**I. Preconditions*

Article 937

2) Dissolution by legal transaction without judicial approval may be excluded for a maximum of ten years.

3) If the right to demand dissolution is excluded forever or for a limited period of time, dissolution may nevertheless be demanded on important grounds, subject to the provisions of the Property Act governing the division of co-ownership.

4) Under the same conditions, if a period of notice is specified, dissolution may be demanded without notice.

5) An agreement which excludes or limits the right to demand dissolution contrary to these provisions shall be null and void.

Article 938

2. Effect of exclusion

1) If the participants have excluded the right to demand dissolution for a limited period of time, the agreement shall, in case of doubt, terminate upon the death of a participant or upon cessation of an entity with a legal name or a legal person.

2) If the participants have excluded the right to demand the dissolution of the community forever or for a limited period of time or have determined a period of notice, the agreement shall be effective for and against all special successors, but in the case of rights under the Land Register it shall have effect *in rem* only if it has been reserved in the Land Register.

II. Execution for lack of agreement

Article 939

2) In the case of rights entered in the Land Register, the action for division and the judgment may be noted with effect against any legal successor.

3) If sale to a third party is not permitted due to a prohibition of sale, the object shall be auctioned among the partners.

4) If the attempt to auction the object is unsuccessful, any participant may request that it be repeated, but shall bear the costs if the repeated attempt fails.

5) If individual co-owners object, the sale of a joint claim shall be permissible only if it cannot yet be collected, otherwise only the collection on the claim may be demanded.

Article 941

2) If, upon dissolution of the community, a common object is allocated to a participant, each of the other participants shall, on account of a defect in the rights or a defect in the item of property, provide a guarantee with respect to that participant's share in the same way as a seller.

3) In insolvency proceedings of a participant, the other participants may, for their claims arising from the community, request separate satisfaction from the shares determined for the bankrupt participant upon division.¹⁵⁶⁶

*B. Principles for the creation of a legal name**I. In general*

Article 1012

1. Permissible information

1) In addition to the information required by law, the legal name may contain only the information permitted by law.

2) Affixes as ancillary components to the core of the legal name may express the personal circumstances of the legal name holder, information about the business object, succession relationships, business designations, trademarks, the location of the undertaking, or invented names, unless they are untrue, immoral, unlawful, or serve unfair competition.

3) Information for mere advertising purposes in a legal name and subtitles are impermissible.

4) The cases in which the inclusion of affixes is required shall be determined in accordance with the special provisions.

5) Permissible abbreviations of legal forms of undertakings in the case of companies without legal personality with a legal name, legal persons, and sole proprietorships with limited or unlimited liability may be used in the legal name only in such a way that confusion with another legal form is ruled out.

6) Subject to the provisions on unfair competition, the Government may determine by ordinance what purposes an undertaking must pursue or what object it must have in order to be entitled to use the designations "Treuhand", "Fiduzia" or a similar equivalent term in the (legal) name or in an affix.¹⁷⁴⁴

Article 1013

2. National and international designations and Red Cross

1) National designations, in particular the words "Principality", "princely", "Liechtenstein" as a noun or adjective, "State", and "national" alone or in conjunction with the remaining wording of the legal name, may not be contained in the legal name; this also applies to the official country codes LIE, LI, and FL.¹⁷⁴⁵

¹⁷⁴⁴ Article 1012(6) inserted by LGBl. 1928 No. 6.

¹⁷⁴⁵ Article 1013(1) amended by LGBl. 2022 No. 227.

2) However, the use of such designations may be authorised on an exceptional basis by the Office of Justice, where appropriate after hearing the FMA, the Wirtschaftskammer Liechtenstein, or the Liechtenstein Chamber of Commerce and Industry, if special reasons justify the authorisation of the designation.¹⁷⁴⁶

3) The same provisions shall apply *mutatis mutandis* to municipal names, provided that this is not merely an indication of the location of the branch.

4) The words "Red Cross" may not appear in the legal name or in an affix.

5) Other international designations may likewise be used only if special reasons justify the authorisation of the designation.¹⁷⁴⁷

Article 1014

3. *Language and characters*

1) Legal names of entities whose head office is located in Liechtenstein must be entered in the German language, unless the register authority permits an exception; affixes in other languages are permissible.

2) Entry only in a foreign language is permissible for legal persons which do not operate a business in a commercial manner, but otherwise only in addition to entry in the national language, unless the Office of Justice grants an exception.¹⁷⁴⁸

3) If a legal name is entered in more than one language, the content of the different language versions must be as consistent as possible.

4) The characters of a legal name must be Latin or German.

¹⁷⁴⁷ Article 1013(5) amended by LGBL 2003 No. 63.

¹⁷⁴⁸ Article 1014(2) amended by LGBL 2013 No. 6.

2) If an identical registered legal name already exists at the place or in the municipality where a branch is established, then an affix must be appended to the legal name for the branch, so that it is clearly distinguished from the legal name that has already been entered.

Article 1016

5. Exclusivity of the registered legal name

1) A legal name entered in the Commercial Register may not be used as a legal name by any other entity in the country.¹⁷⁴⁹

2) Where there is a risk of confusion with an already registered legal name, a distinguishing affix must be made even if the new business owner has the same civil name as the earlier legal name.

2) If the application of the provisions of this Title is not sufficient to give a true and fair view of the assets and liabilities, financial position, and profit or loss as referred to in paragraph 1, additional information shall be provided in the notes.

3) Where, in exceptional cases, the application of a provision of this Title is incompatible with the obligation set out in paragraph 1, the provision must be derogated from in order to ensure that a true and fair view is conveyed as set out in paragraph 1. The derogation must be disclosed and explained in the notes; its influence on the assets and liabilities, financial position, and profit or loss must be presented.

4) Paragraph 3 shall not apply to micro-companies as referred to in Article 1064, with the exception of investment undertakings and financial holding undertakings as defined in Article 2(14) and (15) of Directive 2013/34/EU.¹⁸⁶³

Article 1066a¹⁸⁶⁴*III. General financial reporting principles*

1) The principle of materiality must be applied to the recognition and measurement of items reported in the annual financial statement. All information shall be considered material where its omission or misstatement could be expected to influence decisions that users make on the basis of the annual financial statement. The materiality of individual items shall be assessed in the context of other similar items.

2) The following general principles shall apply to the recognition and measurement of items reported in the annual financial statement:

1. The undertaking shall be presumed to be carrying on its business as a going concern, provided that this is not contradicted by factual or legal circumstances.

¹⁸⁶² Article 1066 amended by LGBL 2000 No. 279.

¹⁸⁶³ Article 1066(4) amended by LGBL 2015 No. 165.

¹⁸⁶⁴ Article 1066a inserted by LGBL 2015 No. 165.

2. Accounting policies and measurement bases shall be applied consistently from one financial year to the next.
3. Recognition and measurement shall be on a prudent basis; in particular, all liabilities arising by the balance sheet date shall be recognised, even if such liabilities become apparent only between the balance sheet date and the date on which the annual financial statement is drawn up; in addition, all foreseeable liabilities and anticipated losses that arose up to the balance sheet date may be taken into account, even if such liabilities or losses became apparent only between the balance sheet date and the date on which the annual financial statement is drawn up; profits shall be taken into account only if they are realised on the balance sheet date. All negative value adjustments shall be recognised, whether the result of the financial year is a profit or a loss.
4. Amounts recognised in the balance sheet and income account shall be computed on the accrual basis.
5. The opening balance sheet for each financial year shall correspond to the closing balance sheet for the preceding financial year.
6. The components of asset and liability items shall be valued separately on the balance sheet date.
7. Any set-off between asset and liability items, or between income and expenditure items, shall be prohibited.
8. Items in the balance sheet and income statement may be accounted for and presented having regard to the substance of the transaction or arrangement concerned.
9. Assets and liabilities shall be measured in accordance with the principle of purchase price or production cost.

3) The requirements set out in this Title regarding recognition, measurement, presentation, disclosure and consolidation need not be complied with when the effect of complying with them is immaterial.

*D. Layout*¹⁸⁶⁵Article 1067¹⁸⁶⁶*I. General principles*

1) The form of presentation, in particular the layout of successive balance sheets and income statements, shall be retained, to the extent that departures from this principle are not necessary in exceptional cases due to special circumstances in order to give a true and fair view of the company's assets and liabilities, financial position, and profit or loss. Any such departure and the reasons therefor shall be disclosed in the notes to the financial statement.¹⁸⁶⁷

2) In the balance sheet and in the income statement, the corresponding amount for the previous financial year must be stated for each item. If the amounts are not comparable, this must be disclosed and explained in the notes. If the previous year's amount is adjusted, this must also be disclosed and explained in the notes.

3) Where an asset or liability relates to more than one balance sheet item, its relationship to other items shall be disclosed either under the item where it appears or in the notes to the financial statement, if this is necessary to provide a clear and concise annual financial statement. Own shares and shares in affiliated undertakings may be shown only under the items prescribed for that purpose.

4) In the balance sheet and in the income statement, the items set out in the layouts shall be shown separately in the order indicated. A more detailed subdivision of those items is permitted, subject to adherence to the prescribed layouts. New items may be added, provided that the contents of such new items are not covered by any of the prescribed items.

5) The layout and designation of the items in the balance sheet and the income statement that are preceded by Arabic numerals shall be changed where the special nature of the company so requires in order to provide a clear and concise balance sheet and income statement.

6) The items of the balance sheet and the income statement that are preceded by Arabic numerals may be combined if:

1. they contain an amount which is not material to conveying a true and fair view as referred to in Article 1066, or

¹⁸⁶⁶ Article 1067 amended by LGBL 2000 No. 279.

¹⁸⁶⁷ Article 1067(1) amended by LGBL 2015 No. 165.

2. such combination makes for greater clarity of the presentation; in such cases, the items so combined must be dealt with separately in the notes to the financial statement.

7) An item of the balance sheet or income statement which does not show an amount need not be included unless an amount was included in that item in the previous financial year.

Article 1072¹⁸⁷⁹*d) Inclusion of costs under assets; payout block*

If formation costs or costs of development are shown in the balance sheet, profits may be distributed only if the retained earnings remaining after distribution, which can be released at any time, plus any profit brought forward and minus any loss brought forward, correspond at least to the book value.

Article 1073¹⁸⁸⁰*e) Participating interests and affiliated undertakings*

1) Participating interests are rights in the capital of other undertakings, whether or not represented by certificates, which, by creating a durable link with those undertakings, are intended to contribute to the activities of the undertaking which holds these rights. In case of doubt, shares in a company exceeding in total one fifth of the share capital of that company shall be regarded as a participating interest.

2) For the purposes of this Title, affiliated undertakings are parent and subsidiary undertakings which, irrespective of the existence of a consolidation requirement and irrespective of the legal form and registered office of the parent undertaking, are in a relationship as defined in Article 1097(1). Subsidiaries of subsidiaries are always considered as subsidiaries of the ultimate parent undertaking. The parent undertaking and all its subsidiaries form a group.¹⁸⁸¹

Article 1074¹⁸⁸²*f) Capital and reserves*

Subscribed capital unpaid must be shown separately before fixed assets and designated accordingly; subscribed capital called but unpaid must be noted. the amount called but not yet paid must be shown separately under debtors and designated accordingly.

2) The nominal amount or, in the absence thereof, the accounting par value of the own shares referred to in Article 151(2)(1) and (2) must be openly deducted from the item "Subscribed capital" as a capital reduction in the preceding column. If the nominal or accounting par value of own shares is deducted in accordance with the preceding sentence, the difference between the nominal value or accounting par value of these shares and their price payable must be set off against the item "Other reserves"; any further purchase price must be taken into account as expenditure for the financial year.

3) The following shall be shown as capital reserves:

1. the amount achieved when shares, including subscription shares, are issued in excess of the nominal value or, if there is no nominal value, in excess of the accounting par value;
2. the amount achieved by issuing debentures for conversion and option rights for the acquisition of shares;
3. the amount of additional performances made by members with or without the granting of a preference for their shares.

4) Only those amounts which were created from the result in the financial year or in an earlier financial year may be shown as retained earnings. These include legal reserves and reserves provided for by the articles of association to be formed from the result, the reserve for own shares, and other retained earnings.

5) The amount corresponding to the amount to be entered on the assets side of the balance sheet for own shares must be included in the reserve for own shares. The reserve may be released only to the extent that own shares are issued, sold, or cancelled or to the extent that a lower amount is shown on the assets side. The reserve, which must already be made when the balance sheet is drawn up, may be formed from existing retained earnings, to the extent that they are freely available. The reserve for own shares must also be established for shares of a controlling undertaking or an undertaking with a majority participating interest.

Article 1075

*g) Provisions*¹⁸⁸³

1) Provisions are intended to cover liabilities the nature of which is clearly defined and which at the date of the balance sheet are either likely to be incurred, or certain to be incurred but uncertain as to amount or as to the date on which they will arise.¹⁸⁸⁴

2) Provisions may also be created that are intended to cover expenses attributable to the financial year or an earlier financial year the nature of which is clearly defined and which at the balance sheet date are either likely to be incurred or certain to be incurred, but uncertain as to their amount or as to the date on which they will arise.¹⁸⁸⁵

3) A provision shall represent the best estimate of the expenses likely to be incurred or, in the case of a liability, of the amount required to meet that liability. Provisions shall not be used to correct the values of assets (write-offs, value adjustments) and may be created only for the purposes referred to in paragraphs 1 and 2.¹⁸⁸⁶

Article 1076¹⁸⁸⁷*b) Prepayments and accrued income*

Article 1077¹⁸⁸⁸

i) Deferred tax

1) If the tax expense attributable to the financial year and earlier financial years is too low because the taxable profit under tax law is lower than the result under commercial law, and if the too low tax expense of the financial year and earlier financial years is expected to be offset in later financial years, a provision must be formed in the amount of the anticipated tax expense of subsequent financial years. The provision must be reversed as soon as the higher tax burden occurs or is no longer expected to occur.

2) If the tax expense attributable to the financial year and earlier financial years is too high because the taxable profit under tax law is higher than the result under commercial law, and if the too high tax expense of the financial year and earlier financial years is expected to be offset in later financial years, a deferred item may be formed on the assets side of the balance sheet in the amount of the anticipated tax relief of subsequent financial years. This item is to be shown separately with a designation to that effect. If such an item is shown, profits may be distributed only if the retained earnings remaining at any time after distribution plus any profit brought forward and minus any loss brought forward are at least equal to the amount recognized. The amount must be reversed as soon as the tax relief occurs or is no longer expected to occur.

Article 1085¹⁹⁰³*II. Measurements for assets and liabilities*

1) Assets are to be reported at most at the purchase price or production cost, reduced by write-offs and value adjustments in accordance with paragraphs 2 and 3. Liabilities are to be reported at their repayment amount; pension obligations for which a consideration is no longer expected at their cash value; and provisions only to the extent of the necessary amount.

2) In the case of fixed assets whose use is limited in time, the purchase price or production cost must be reduced by scheduled write-offs. The schedule must allocate the purchase price or production cost to the financial years in which the asset is expected to be economically useful. Regardless of whether their use is limited in time and in the event of a probable permanent value reduction on fixed assets, unscheduled write-offs must be performed on fixed assets in order to value the assets at the lower value attributable to them on the balance sheet date. In addition, unscheduled write-offs of financial assets may be carried out in order to value these assets at the lower value attributable to them on the balance sheet date if this does not constitute a probable permanent value reduction.

3) Value adjustments must be made for current assets in order to value them at a lower figure resulting from an exchange or market price on the balance sheet date. If an exchange or market price cannot be determined and if the purchase price or production cost exceeds the value attributed to the assets on the balance sheet date, the assets must be written off to this value.¹⁹⁰⁴

4) Write-offs, value adjustments, and provisions as referred to in the second sentence of Article 1052(3) may not be made.

Article 1086¹⁹⁰⁵*III. Write-offs and value adjustments under tax law*

Article 1088¹⁹⁰⁸

V. Production cost

1) The production cost is the expenditure incurred through the consumption of goods and services for the production of an asset, for the expansion thereof, or for a significant improvement over its original condition. This includes the material and manufacturing costs directly attributable to an individual asset as well as the special costs associated with manufacturing.

2) When calculating the production cost, reasonable portions of the material, manufacturing, and administrative overhead costs that are only indirectly attributable to an individual asset may also be included; these expenses may be taken into account only to the extent that they relate to the period of production. Distribution costs may not be included in the production cost.

3) Interest on borrowed capital is not part of the production cost. Interest on capital borrowed to finance the production of an asset may be included to the extent that it relates to the period of production; in such cases, it shall be considered part of the production cost of the asset.

5) Any difference remaining under paragraph 2 or arising under paragraph 3 shall be shown in the consolidated balance sheet as goodwill if it arises on the assets side and as a difference arising from capital consolidation if it arises on the liabilities side. The item, the methods used, and significant changes compared with the previous year must be explained in the notes. Where differences on the assets side are set off against differences on the liabilities side, the offset amounts shall be disclosed in the notes.

6) Paragraph 1 shall not apply to shares in the parent undertaking which belong to the parent undertaking or to a subsidiary included in the consolidated annual financial statement. Such shares must be shown separately in the consolidated balance sheet as own shares.

1. the delivery or service has been made under normal market conditions and the determination of the measurement prescribed by paragraph 1 would be disproportionately burdensome; in that case, this must be disclosed in the notes and, if the effect on the assets and liabilities, financial position, and profit or loss of the undertakings included in the consolidated annual financial statement taken as a whole is material, this must be explained; or
2. the treatment of the interim results in accordance with paragraph 1 is immaterial for the fair presentation of the assets and liabilities, financial position, and profit or loss of the undertakings included in the consolidated annual financial statement taken as a whole.

1) If, as a result of measures taken in accordance with the provisions of this Subsection, the profit or loss for the financial year shown in the consolidated annual financial statement is lower or higher than the sum of the individual profits and losses of the companies included in the consolidated annual financial statement, the tax expense arising for the financial year and earlier financial years must be adjusted, if it is too high in relation to the profit or loss for the financial year, by forming an item under prepayments and accrued income or, if it is too low in relation to the profit or loss for the financial year, by forming a provision, provided that the too high or too low tax expense is likely to be set off in later financial years.

2) The item shall be disclosed separately in the consolidated balance sheet or in the notes. It may be combined with the items referred to in Article 1077.

Article 1115

*I. Uniform valuation*²⁰⁰³

1) The assets and liabilities of the undertakings included in the consolidated annual financial statement pursuant to Article 1108(2) shall be valued on a uniform basis in accordance with the valuation methods applicable to the annual financial statement of the parent undertaking or other methods permitted by Directive 78/660/EEC. Any derogations from the valuation methods applied to the parent undertaking's annual financial statement must be disclosed in the notes together with an explanation of the reasons for it. Valuation options permitted under the law of the parent undertaking may be exercised in the consolidated annual financial statement regardless of their exercise in the annual financial statements of the undertakings included in the consolidated annual financial statement.²⁰⁰⁴

2) If assets and liabilities of the parent undertaking or of subsidiaries to be included in the consolidated annual financial statement have been valued in the annual financial statements of these undertakings using methods that differ from those used for the consolidated annual financial statement or that are applied to the consolidated annual financial statement by exercising valuation options, the assets and liabilities valued differently must be revalued in accordance with the valuation methods applied to the consolidated annual financial statement and included in the consolidated annual financial statement using the new measurements. A uniform valuation in accordance with the first sentence need not be carried out if its effects are immaterial for the presentation of a true and fair view of the assets and liabilities, financial position, and profit or loss of the undertakings included in the consolidated annual financial statement taken as a whole. Further derogations are permitted in exceptional cases; they must be disclosed in the notes together with an explanation of the reasons for it.²⁰⁰⁵

2) A difference to be shown on the liabilities side of the balance sheet in accordance with Article 1109 (5) may be released to income only where:

1. an unfavourable development of the future profit or loss of the company expected at the time of the acquisition of the shares or first-time consolidation has occurred, or expenditure expected at that time has to be taken into account, or

1) The fair value for purposes of Article 1116a shall be determined by one of the following methods:

2) Financial instruments that cannot be measured reliably using any of the methods described in paragraph 1 shall be measured in accordance with Article 1085.

Article 1116c²⁰¹⁷

3. Change in fair value

1) If a financial instrument is measured in accordance with Article 1116b(1), a change in value must be recognised in the income statement. Derogating from this principle, the change in value must be recognised directly in capital and reserves in a separate item with an appropriate heading if:

1. the instrument accounted for is a hedging instrument under a system of hedge accounting that allows some or all of the change in value not to be included in the income statement; or
2. the change in value relates to an exchange difference arising on a monetary item that forms part of an undertaking's net investment in a foreign entity.

2) The change in value of an available-for-sale financial asset, other than a derivative financial instrument, may be included in a separate item under the appropriate heading directly in capital and reserves instead of in the income statement.

3) The separate item pursuant to paragraphs 1 and 2 shall be reduced to the extent that the amounts stated therein are no longer necessary for the application of paragraphs 1 and 2. Dissolution in other cases is not permitted.

4. Notes

If financial instruments are measured at fair value, the following must be disclosed:

1. the significant assumptions underlying the valuation models and techniques where fair values have been determined in accordance with Article 1116b(1)(2);
2. for each group of financial instruments, the fair value itself, the changes in value recognised directly in the income statement, and the changes recognised in a separate item under capital and reserves;
3. for each class of derivative financial instrument, the extent and the nature of the instruments, including significant terms and conditions that may affect the amount, timing and certainty of future cash flows, and
4. a statement of movements within the separate item under capital and reserves (Article 1116c) during the financial year.

F. Associated undertakings²⁰¹⁹Article 1117²⁰²⁰

I. Definition; exemption

1) If an undertaking included in the consolidated annual financial statement exercises a significant influence on the operating and financial policies of a non-included undertaking in which the undertaking has a participating interest pursuant to Article 1073(1) (associated undertaking), this participating interest must be shown in the consolidated balance sheet under a special item with a corresponding heading. Significant influence is presumed to exist when an undertaking holds at least one fifth of the members' voting rights in another undertaking; Article 1097(2) and (3) applies.

2) Paragraph 1 and Article 1118 need not be applied to participating interest in an associated undertaking if the participating interest is immaterial for the presentation of a fair view of the assets and liabilities,

financial position, and profit or loss of the undertakings included in the consolidated annual financial statement taken as a whole.

Article 1118²⁰²¹

II. Measurement of the participating interest and treatment of the difference

1) A participating interest in an associated undertaking shall be recognised in the consolidated balance sheet either:

1. at book value or
2. at the amount corresponding to the *pro rata* share of capital and reserves of the associated undertaking.

If they are recognised at book value in accordance with the first sentence of point 1, the difference between that value and the *pro rata* capital and reserves of the associated undertaking must be shown separately in the consolidated balance sheet or disclosed in the notes when these provisions are applied for the first time. If they are recognised at the *pro rata* share of capital and reserves in accordance with the first sentence of point 2, the capital and reserves shall be stated at the amount which results if the assets, liabilities, provisions, and accruals and deferrals of the associated undertaking are stated at the value which is attributed to them on the date chosen in accordance with paragraph 3; the difference between this measurement and the book value of the participating interest shall be shown separately in the consolidated balance sheet or disclosed in the notes when these provisions are applied for the first time. The method used shall be disclosed in the notes.

2) The difference referred to in the second sentence of paragraph 1 must be allocated to the measurements of the assets, liabilities, provisions, and accruals and deferrals of the associated undertaking to the extent that their value is higher or lower than the previous measurement. The amount allocated under the first sentence or the amount resulting under point 2 of the first sentence of paragraph 1 must be continued, written off, or dissolved in the consolidated annual financial statement in accordance with the treatment of the measurements of these assets, liabilities, provisions, and accruals and deferrals in the annual financial statement of the associated undertaking. Article 1116 shall apply *mutatis mutandis* to any difference remaining after allocation under the first sentence and any difference under the second clause of the third sentence of paragraph 1.

²⁰²¹ Article 1118 inserted by LGBL 2000 No. 279.

3) The measurement of the participating interest and the differences shall be determined on the basis of the measurements at the time of the first application of Article 1117(1) to the participating interest or at the time of the acquisition of the shares or, if the shares were acquired at different times, at the time when the undertaking became an associated undertaking. The date chosen shall be stated in the notes.

4) The measurement of a participating interest determined in accordance with paragraph 1 shall be increased or decreased in subsequent years by the amount of changes in capital and reserves corresponding to the shares in the capital of the associated undertaking belonging to the parent undertaking; profit distributions attributable to the participating interest shall be deducted. The profit or loss attributable to participating interests in associated undertakings must be shown under a separate item in the consolidated income statement.

5) If the associated undertaking applies valuation methods in its annual financial statement that differ from the consolidated annual financial statement, assets or liabilities valued differently may be valued for the purposes of paragraphs 1 to 4 in accordance with the valuation methods applied to the consolidated annual financial statement. If the valuation is not adjusted, this must be disclosed in the notes. Article 1111 on the treatment of interim results shall apply *mutatis mutandis* to the extent that the facts relevant to the assessment are known or available. Interim results may also be omitted *pro rata* in accordance with the parent undertaking's share in the capital of the associated undertaking.

6) The most recent annual financial statement of the associated undertaking is to be used. If the associated undertaking prepares a consolidated annual financial statement, this consolidated annual financial statement must be used as a basis and not the annual financial statement of the associated undertaking.

This information must also be provided for subsidiaries which have not been included in the consolidation pursuant to Articles 1101a and 1104; in the case of Article 1104, the reasons must be stated for the application of that provision;

Capital and reserves as well as profit or loss need not be disclosed if the undertaking whose shares are owned is not required to disclose its annual financial statement.

2) The information required under paragraph 1 need not be provided to the extent that it must be expected that the information would be seriously prejudicial to the parent undertaking, a subsidiary, or another undertaking referred to in paragraph 1. The application of the exemption shall be disclosed in the notes.

IV. Presumption of death

§ 5

1. In general

1) After entry into force of this Act, the declaration of presumed death shall be subject to the provisions of the new law.

2) After entry into force of this Act, declarations of death under the previous law shall have the same effects as the declaration of presumed death under the new law, but the consequences which occurred before that date under the previous law, such as inheritance or dissolution of marriage, shall remain.

3) Proceedings pending at the time of entry into force of the new law shall be restarted in accordance with the provisions of this Act, taking into account the time elapsed, or shall be concluded at the request of the parties concerned in accordance with the previous proceedings and observing the previous time limits.

2. Effects

§ 6

a) Marriage

1) If one of the spouses is declared presumed dead, the other spouse may enter into a new marriage only if the previous marriage has been dissolved by court order.

2) Dissolution of the marriage may be requested at the same time as the declaration of presumed death or in special proceedings.

3) The same provisions apply to the proceedings as for separation (§ 112 of the General Civil Code).

b) Inheritance law

§ 7

aa) Inheritance from a person presumed dead

1) If a person is declared presumed dead, the heirs or beneficiaries must provide security for the return of the assets to the person with a better entitlement or to the person presumed dead before the estate is handed over.

2) This security shall be for a period of five years in the case of disappearance in extremely life-threatening circumstances and 15 years in the case of absence without any sign of life, but in no case longer than the date on which the person presumed dead would have reached the age of 100.

3) The five years shall be counted from the date on which the estate is handed over and the 15 years from the last sign of life.

4) If the person presumed dead returns, or if a person with a better entitlement asserts claims, the persons receiving the estate shall return the estate in accordance with the rules of possession.

5) They shall be liable to a person with a better entitlement, if they are in good faith, only during the period of the action for recovery of the inheritance.

§ 8

bb) Right of inheritance of a person presumed dead

1) If the life or death of an heir cannot be established at the time of inheritance because the heir is missing, that heir's share shall be placed under official administration.

2) Persons who would have inherited the share of the missing person if the missing person were not available shall have the right to apply to the judge for a declaration of presumed death one year after the disappearance in extremely life-threatening circumstances or five years after the missing person's last sign of life, after that declaration has been executed, for the handing over of the missing person's share.

3) The share shall be handed over in accordance with the provisions governing handing over to the heirs of a person presumed dead.

§ 9

cc) Relationship of the two cases to each other

1) If the heirs of the person presumed dead have already received the assets of that person, the person's co-heirs may, if an inheritance accrues to the person presumed dead, invoke this and demand the return of the accrued assets without the need for a new declaration of presumed death.

2) Similarly, the heirs of the person presumed dead may invoke the declaration of presumed death obtained by the person's co-heirs.

§ 10

dd) Proceedings ex officio

1. **§ 918.** If a contract for valuable consideration is not performed by one party at the proper time or place or in the stipulated manner, the other

²¹²⁸ § 39(1) amended by LGBL 2013 No. 6.

party may either demand performance and damages for the delay or declare rescission of the contract, setting a reasonable grace period for performance.

If performance is divisible for both parties, rescission may be declared only with regard to the individual or all outstanding partial performances due to delay of a partial performance.

2. § 919. If performance at a fixed time or within a fixed period of time is required on pain of rescission, the party entitled to rescind must, if that party wishes to insist on performance, notify the other party without delay after the expiry of the period of time; if the party fails to do so, the party may no longer insist on performance at a later date. The same shall apply if the nature of the transaction or the purpose of the performance known to the obligor indicates that the delayed performance or, in the event of a delay in partial performance, the remaining performances are of no interest to the recipient.
3. § 920. If performance is frustrated through the fault of the obligor or by an accident for which the obligor is responsible, the other party may either claim damages for non-performance or rescind the contract. In the event of partial frustration, that other party shall be entitled to rescind the contract if the nature of the transaction or the purpose of the performance known to the obligor indicates that partial performance is of no interest to that party.
4. § 921. Rescission of the contract shall not affect the right to compensation for the damage caused by culpable non-performance. The payment already received shall be returned or compensated in such a way that no party benefits from the damage of the other party.

§ 42

The following §§ of the General Civil Code (ABGB) shall read as follows:

Exchangers shall be obliged by virtue of the contract to transfer and take possession of the exchanged items of property in accordance with the agreement, with their components and all ancillary property, at the proper time, in the proper place, and in the same condition as they were at the time of the conclusion of the contract.

§ 1052. Any party insisting on early handover must have fulfilled that party's obligation or be prepared to fulfil it. The party obliged to make advance payment may also refuse to perform until the consideration is

effected or secured if it is endangered by poor financial circumstances of the other party, of which the party need not have been aware at the time of conclusion of the contract.

§ 43

c) Old contracts

The consequences of the non-performance of contracts for valuable consideration concluded before entry into force of this Act shall be governed by the old law.

§ 44

3. Liability for auxiliary persons

2) This liability may be limited or repealed by an agreement made in advance.

3) However, if the person waiving liability is in the service of the other party or if the liability results from the operation of a business licensed by the authorities, the liability may be waived only for slight negligence.

§ 45

4. Assignment of assets or business

1) Anyone who takes over an asset or a business with assets and liabilities shall automatically be liable to the creditors from the associated debts as soon as the takeover has been notified to the creditors by the assignee or announced in public bulletins.

2) However, the previous debtor shall still be jointly and severally liable with the new debtor for a period of two years, which begins with the notification or public notice and, in the case of receivables due at a later date, with the due date.

3) This assumption of debt shall *mutatis mutandis* have the same effect as the assumption of a single debt.

§ 46

5. Unification, conversion of businesses, division of estate, land purchase

1) Where one business is unified with another by mutual assumption of assets and liabilities, the creditors of the two businesses shall be subject to the effects of the asset transfer and the merged business shall become liable to them for all debts.

2) The same shall apply in the case of a general or limited partnership in relation to the liabilities of the business previously conducted by a single proprietor.

3) These provisions shall be subject to the special provisions concerning the assumption of debt in the case of division of estate and the sale of pledged land.

IV. Torts

§ 47

S. Negotiable securities

Title 1

Registered securities, instruments to order, and bearer securities

Section 1

General provisions

§ 73

A. Definition and form of negotiable security

1) A negotiable security for the purposes of this Act shall be any instrument in which a right is securitised in such a way that the right may not be realised, exercised, or transferred to another without the instrument.

2) To the extent that the provisions on negotiable securities or the nature of individual negotiable securities or the existence of a claim arising from membership do not give rise to a derogation, the provisions on share certificates shall apply *mutatis mutandis* with regard to form.

3) Repealed²¹⁹⁹

§ 74

B. Obligations under the negotiable security and the redemption thereof

1) The obligor is obliged to render performance only against presentation and surrender of the instrument.

2) By rendering the performance due at maturity to the creditor identified in the proper form, the obligor is released from the obligation unless the obligor is guilty of malice or gross negligence.

²¹⁹⁹ § 73(3) repealed by LGBl. 1950 No. 28.

C. Transfer of negotiable security

§ 75

I. General form

1) The transfer of any negotiable security conferring title or a limited right *in rem* may always be performed by drawing up a written contract and handing over the negotiable security.

2) Apart from the transfer of the bearer security by surrendering the instrument, this is without prejudice to the cases where the law or the agreement requires the participation of other persons, in particular the obligor, as well as the special effects that can be created in the case of instruments to order only by way of endorsement.

II. Endorsement

§ 76

1. Effect

1) In connection with the transfer of the endorsed instrument, the endorsement shall, in the case of all assignable securities, to the extent not otherwise indicated by the content or nature of the instrument, and also in the case of instruments without the properties of a negotiable security, have the effect of a declaration of assignment placed on the instrument.

2) An autonomous claim independent of the rights of the endorser with limitation of the objections of the obligor or a liability of the endorser and a recourse of the endorser to the previous endorsers shall result from the endorsement only in the case of negotiable securities for which the law provides for one or other effect of the endorsement.

3) If the full endorsement and surrender of the endorsed instrument is made in the manner referred to in paragraph 1, but only for the purpose of collection, the creation of a limited right *in rem*, or the possible enforcement of claims under the negotiable security in the interest of the endorser or a third party, the legal relationship shall also be subject to the provisions on the implied trust.

§ 77

2. Form

1) Endorsement, even where it does not concern an instrument to order, must be done in accordance with the provisions governing bills of exchange.

2) In all cases, the formal requirements for transfer are satisfied once the endorsement is completed and the instrument handed over.

D. Cancellation

§ 78

I. Enforcement

1) If a negotiable security is lost, the beneficiary of the security at the time it was lost or its loss was discovered may request its cancellation by the court in special non-contentious proceedings.²²⁰⁰

2) For this purpose, the applicant must satisfy the judge at the place of residence of the obligor, and in the case of securities on membership of the registered office of the issuer, of the applicant's right to the negotiable security and of the loss or destruction of the instrument.

§ 79

II. Effect and procedure

1) As a consequence of cancellation of the instrument, the beneficiary may exercise the beneficiary's right even without the instrument or request the issue of a new instrument at the expense of the beneficiary.

2) On the day on which the application for cancellation is filed with the judge, the period of limitation shall be interrupted in relation to the applicant.

3) In other respects, the provisions governing the individual types of securities apply to the procedure for and effect of cancellation.

²²⁰⁰ § 78(1) amended by LGBl. 2010 No. 454.

§ 79a²²⁰¹*III.²²⁰² Delivery of new instruments in the event of damage or defacement*

If a negotiable security is no longer suitable for circulation as a result of damage or defacement, the beneficiary of the instrument may, provided that the essential content and the distinguishing characteristics of the instrument are still unambiguously recognisable, request the issuer (if applicable the entity with a legal name or the legal person) to deliver a new instrument against surrender of the damaged or defaced instrument and reimbursement of the costs, provided that nothing else arises from the contents of the instrument or the company agreement or the articles of association or the like.

§ 81a²²⁰⁵*G. Uncertificated securities*

1) The obligor may issue rights with the same function as negotiable securities (uncertificated securities) or replace fungible negotiable securities with uncertificated securities provided the conditions for issue or the articles of association of the company provide therefor or the beneficiaries have consented thereto.

2) The obligor shall keep a book on the uncertificated securities that the obligor has issued in which details of the number and denomination of the uncertificated securities issued and of the creditors are recorded. The book of uncertificated securities may also be maintained with the use of Trustworthy Technology as defined in the TVTG. It must be organised in such a way that unauthorised interference by the obligor in the rights of the creditors is excluded.

3) The uncertificated securities are created on entry in the book of uncertificated securities and continue to exist only in accordance with such entry.

4) The assignment of uncertificated securities or the creation of limited rights *in rem* thereto is effected by entering the acquirer or the pledgee in the book of uncertificated securities. If the book of uncertificated securities is maintained with the use of Trustworthy Technology as defined in the TVTG, disposal of the uncertificated securities shall be based exclusively on the provisions of the TVTG.

5) Anyone who in good faith acquires uncertificated securities or rights to uncertificated securities from the person entered in the book of uncertificated securities is protected in their acquisition, even if the seller was not authorised to dispose of the uncertificated securities.

6) The obligor is obliged to render performance only to the creditor entered in the book of uncertificated securities. By rendering the performance due at maturity to the creditor entered in the book of uncertificated securities, the obligor is released from the obligation unless the obligor is guilty of malice or gross negligence.

3) Against a claim deriving from a bearer coupon, the obligor may, moreover, not plead the defence that the debt principal has been redeemed, but, when redeeming the debt principal, the obligor is entitled to retain an amount corresponding to the interest payable on coupons not yet fallen due which are not handed in with the debt instruments until the period of limitation has expired, unless the coupons not handed in have been cancelled or the amount thereof has been secured.

Where the judge is satisfied that the applicant was in possession of the security but has since lost it, the judge shall issue a public notice calling on the unknown bearer to come forward and present the security within a specified time limit of at least one year commencing on the date of the first public notice, failing which the judge shall declare the security cancelled.

2) If no applications are made within this period which would lead the judge to take further action, the instrument presented must be returned, the attachment order imposed on the issuer must be lifted, and the request for cancellation must be denied.

§ 102

6. Judicial orders

1) If the time limit set in the public notice has expired without the lost instrument having been presented, the judge may cancel the instrument or order further measures, depending on the circumstances.

3) Where the borrower abuses the right to obtain a stay of enforcement, at the request of one or more bond creditors the stay of enforcement may be lifted by the Court of Justice in special non-contentious proceedings.²²¹⁴

III. Convening

§ 126

2) In cases where the meeting is convened on the order of a judge, the chair may be designated by the judge.

4) Each bondholder must be provided with a copy of the motions on request.

5) No binding resolution can be passed at the creditors' meeting, even unanimously, on items which have not been announced in this way, at least in terms of their essential content, unless the holders of all bond capital in circulation agree.

6) The costs of convening and holding the creditors' meeting shall be borne by the borrower, unless otherwise ordered by the judge.

V. Powers

§ 133

1. In general

1) The creditors' meeting is authorised within the bounds of this Act to take all measures it deems beneficial to safeguard the collective interests of the creditors, in particular as regards any financial difficulties encountered by the borrower.

2) The measures taken shall be binding also on the creditors who do not agree, subject to the official approval and the right of challenge provided for by law.

3) The persons making up a community of creditors must all be equally affected by any measure, unless every disadvantaged creditor expressly agrees to such measures.

4) The ranking of pledgees must not be changed without their consent.

§ 134

2. Restrictions

1) The community of creditors may not extend the creditors' rights without the consent of the borrower.

2) Without the creditor's consent, the community of creditors may not require a creditor to make payments that were neither envisaged in the bond issue conditions nor agreed with the creditor when the bonds were issued.

VI. Resolutions of the meeting

§ 135

1. In general

1) The creditors' meeting shall adopt its resolutions by an absolute majority of the votes represented, unless the law stipulates otherwise or the bond issue conditions impose stricter requirements.

2) The majority is determined in all cases according to the nominal value of the represented bond capital.

2. Cases of three-quarters majorities:

§ 136

a) In the case of only one community of creditors

The approval of the representatives of at least three quarters of the bond capital in circulation is required for a valid resolution in connection with the following measures:

1. dismissal of a representative appointed by the creditors' meeting or provided for in the bond issue conditions or the modification of that representative's power of attorney;
2. a moratorium on the payment of interest which has lapsed or is due within one year, which is binding only up to a maximum of five years but which may be renewed;
3. full interest rebate for a maximum of five years, binding and with the possibility of renewal;
4. decrease of the interest rate by up to one-half of the rate envisaged in the bond issue conditions or conversion of a fixed interest rate into a rate dependent on the business results, both measures to last for up to ten years, but both with the option of renewal;

7. approval of an early redemption of the bond capital;
8. granting of a priority lien for new capital raised for the issuing company, with preference over an already existing bond issue, and changes to the collateral provided for a bond issue or full or partial waiver of such collateral, to the extent that such measures do not fall within the powers of a representative of the community of creditors;
9. amendment of the provisions governing restrictions on issues of bonds in relation to the equity capital of the borrower;
10. conversion of bonds or parts thereof into preference membership shares, with the consent of the borrower;
11. waiver of the bondholders' claim to capital up to the amount exceeding the highest value of the bonds reached in the last ten years.

§ 137

b) In the case of several communities of creditors

1) Where there is more than one community of creditors, the borrower may propose one or more of the measures described in the previous article to the different communities of creditors simultaneously, subject to the proviso that the validity of each measure is conditional on acceptance of all the others.

2) In that case, proposals are deemed accepted where they obtain the consent of persons representing at least three quarters of the bond capital in circulation of all such communities of creditors combined and at the same time are accepted by three quarters of the communities of creditors and, within each community of creditors, no less than a majority of the bond capital in circulation is in favour of the proposal.

§ 138

3. Approval by the composition authority

1) Resolutions requiring a three-quarters majority for approval shall be effective and binding also on the bond creditors who did not vote in favour of them only if they have been approved by the Court of Justice

serving as the composition authority in special non-contentious proceedings.²²¹⁷

2) The borrower must submit them within one month of their adoption to the Court of Justice for approval.

3) Approval shall be refused if the provisions governing the convening of the creditors' meeting and its adoption of resolutions were infringed, if a resolution intended to avert financial hardship from the borrower appears not to be necessary, if the collective interests of the creditors are not sufficiently protected, or if the resolution was brought about by dishonest means.

4) The time and date of the hearing shall be published by the judge together with a notice to the bond creditors informing them that they may raise objections in writing or in person at the hearing.

5) The costs of the approval procedure are borne by the borrower.

§ 139²²¹⁸

4. Moratorium and change of interest and redemption conditions

An application for a moratorium or a change of the interest and redemption conditions may be made by the borrower and considered by the meeting only on the basis of a statement drawn up as at the date of the creditors' meeting and a balance sheet drawn up as at a date no more than six months prior to the meeting in accordance with standard practice and, where applicable, certified by the auditor as true and fair.

§ 140

5. Cases of unanimity

1) More far-reaching encroachments on creditors' rights shall require unanimity of the creditors.

2) However, if the encroachment does not involve increases in creditors' payments, unanimity of the participants in a meeting at which at least three quarters of the bond capital in circulation must be represented shall be sufficient.

²²¹⁷ § 138(1) amended by LGBl. 2010 No. 454.

²²¹⁸ § 139 amended by LGBl. 2000 No. 279.

3) If three quarters of the capital is not represented at such a creditors' meeting, the meeting may, by a majority of the votes represented, decide to convene a second creditors' meeting at a date not more than two months later, which may pass a resolution on the same or less far-reaching proposals by unanimous vote if at least half of the bond capital in circulation is represented.

§ 141

6. Subsequent approval

1) If a motion in the creditors' meeting does not obtain the necessary votes, but does obtain at least half of the bond capital amount in circulation, the borrower may supplement the missing number of votes by submitting written and certified statements from creditors to the chair of the meeting within two months of the date of the meeting and thereby bring about a valid resolution.

2) Repealed²²¹⁹

§ 142

7. Authentication of the resolutions

1) A public document must be drawn up for each resolution, whether validly adopted at the creditors' meeting or obtained by subsequent approval.

2) The list of participants to be drawn up prior to the commencement of the deliberations and, where applicable, a list of creditors who subsequently agree to the resolution, to be drawn up by the notary, shall be included in the public document or attached to it together with evidence of the proper convening of the meeting.

3) in the public document, the numbers of the bonds whose holders or representatives have voted against a proposal approved by a majority must be indicated on request.
